The Pacific Crest National Scenic Trail (PCT) traces a 2,650-mile route from the California-Mexico border north to the border of Washington and Canada. While many hikers attempt a "thru-hike" every year, beginning in Campo, California and connecting their footsteps all the way to Manning Park, B.C., even more people enjoy "section hiking" - tackling the trail in bits and pieces. This guidebook serves as a road map to section hiking the Southern California portion of the PCT, beginning at its southern terminus in Campo and ending 942.5 miles north at Tuolumne Meadows in Yosemite National Park. From the magical cactus gardens of the Mojave Desert to the snowy peaks of the High Sierra, this book covers one of the most biologically and geologically diverse

portions of the PCT. Author Shawnté Salabert serves as your personal trail guide along the way, offering informative route descriptions, interesting sidebars, and colorful stories that will deepen your experience on this iconic trail, whether you're headed out for a weekend, a week, or a month. Each volume of this new series focuses on section-by-section pieces of the PCT and includes the following features:

- Inspirational full-color guides with over 150 color photographs in each
- Trail sections of 4- to 10-night trips
- Detailed camp-to-camp route descriptions
- Easy-to-understand route maps and elevation profiles
- Details on specific campsites and most-reliable water sources
- Road access to and from various trail sections
- Info on permits, hazards, restrictions, and more
- Alternate routes and connecting trails
- Clear references to the PCT's established system of section letters, designating trail segments from Mexico to Canada—so you can easily cross-reference the guides with other PCT resources
- Key wilderness sights along the way
- Suggested itineraries

2020 Banff Mountain Book Competition Finalist in Adventure Travel In Journeys North, legendary trail angel, thru hiker, and former PCTA board member Barney Scout Mann spins a compelling tale of six hikers on the Pacific Crest Trail in 2007 as they walk from Mexico to Canada. This ensemble story unfolds as these half-dozen hikers--including Barney and his wife, Sandy--trode north, slowly forming relationships and revealing their deepest

secrets and aspirations. They face a once-in-a-generation drought and early severe winter storms that test their will in this bare-knuckled adventure. In fact, only a third of all the hikers who set out on the trail that year would finish. As the group approaches Canada, a storm rages. How will these very different hikers, ranging in age, gender, and background, respond to the hardship and suffering ahead of them? Can they all make the final 60-mile push through freezing temperatures, sleet, and snow, or will some reach their breaking point? Journeys North is a story of grit, compassion, and the relationships people forge when they strive toward a common goal.
