The Works of Robert G.Ingersoll. [Dresden Ed.]. Bloomsbury Publishing

An exposé of Joseph Smith's fraud which spawned the Mormon Church (The Church of Jesus Christ of Latter Day Saints). Conclusive evidence that every aspect of Smith's Church was a hoax and that the modern Mormon (LDS) Church continues in a conspiracy to deceive rank and file Mormons with lies and suppression of the real historical truth.  "Action-packed, well-woven reading . . . will leave readers wondering how safe they are in the post-9/11 era, and how much their government is really telling them." -Foreword /Clarion Review "The author delivers a . . . stirring thriller that relies on political maneuvering . . . just as much as action." -KIRKUS REVIEWS "Scheming politicians, spies, terrorists, and clandestine power brokers converge in . . . Requiem for the Phoenix." -Blueink Review Two years have passed since the Phoenix operation - al Qaida's secret attack on the American Heartland with a biological weapon of mass destruction. Since then, al Qaida has undergone an unexpected reversal. They broadcast a series of strange messages, offering - with one hand - an olive branch of peace to end terrorism and help support the U.S. president's worldwide democratic reforms. In al Qaida's other hand, however, is their secret plot to launch the second phase of the Phoenix operation - a series of attacks comprising their most devastating wave of terror since 9/11. As the suspense-filled plot unfolds across three continents, al Qaida stops at nothing to make America and the free world yield to their fanatical domination.

 This book presents the actual statements and writings of jihadis expressing their views on virtually every subject relevant to their cause. It is not about Islam as it is practiced in its many varieties in Muslim communities throughout the world, nor is it about Islamic fundamentalism or the various Islamist political movements. Rather, it is about a small group of Muslims who carry out and promote terrorism in the name of Islam. Because the jihadis' statements are often more appalling and more

profoundly revealing than the accounts that have been written about jihadi terrorism, this book provides unfiltered access to a broad range of the stories, rationales, ideas, and arguments of jihadi terrorists and those who support them. Introductory and contextual material is also included, to provide the background and origins of what the jihadis are saying?to each other and to the world. It is hoped that this will provide greater insights into the motives, plans, and participants in jihadi terrorism, as well as the nature of the threat they pose. Not all of the quotations are from prominent jihadis. Some have been selected because they are representative, others because they are contradictory, and still others because they provide a unique insight into the jihadi mentality.

Poetry has long been regarded as the least accessible of literary genres. But how much does the obscurity that confounds readers of a poem differ from, say, the slang that seduces listeners of hip-hop? *Infidel Poetics* examines not only the shared incomprehensibilities of poetry and slang, but poetry's genetic relation to the spectacle of underground culture. Charting connections between vernacular poetry, lyric obscurity, and types of social relations—networks of darkened streets in preindustrial cities, the historical underworld of taverns and clubs, the subcultures of the avant-garde—Daniel Tiffany shows that obscurity in poetry has functioned for hundreds of years as a medium of alternative societies. For example, he discovers in the submerged tradition of canting poetry and its eccentric genres—thieves' carols, drinking songs, beggars' chants—a genealogy of modern nightlife, but also a visible underworld of social and verbal substance, a demimonde for sale. Ranging from Anglo-Saxon riddles to Emily Dickinson, from the icy logos of Parmenides to the monadology of Leibniz, from Mother Goose to Mallarmé, *Infidel Poetics* offers an exhilarating account of the subversive power of obscurity in word, substance, and deed.

Infidel Poetics

 This study seeks to make a contribution to current debates about the nature of Wirkungsgeschichte or reception history and its place in contemporary Biblical Studies. The author addresses three crucial questions: the relationship between reception history and historical-critical exegesis; the form of reception history itself, with a focus on the issue of which acts of reception are selected and valorized; and the role of tradition, pre-

judgements and theology in relation to reception history. Disagreements about these matters contribute to what many characterise as the fragmentation of the discipline of biblical studies. The study champions the hermeneutics of Hans-Georg Gadamer as a theoretical resource for understanding biblical interpretation, and a way of holding together with integrity the varied activities undertaken within the discipline. Each aspect of the argument is illustrated, tested and further explored with reference to the post-history of exhortations in the New Testament to 'be subject'. These have been widely cited and applied for 2,000 years - in literature, law and politics as well as in theological traditions. In this way the study makes a contribution not just to the theory but also the practice of reception history.

 Around the world people are leaving Islam for Christianity in unprecedented numbers. This book seeks to look into the world of some of these converts, trying to discern the shape of their newfound faith. Why do they convert? What challenges do they face? And ultimately, what do they in their own complex and sometimes difficult circumstances claim to have understood about God that, while in Islam, they had not? In other words, what is the content of their contextual theology? In seeking to answer these questions, Miller looks into the world of an unintentional church plant in the Arab world consisting of believers from a Muslim background, visits with groups of Iranian converts in the diaspora, and examines the written testimonies of still other converts. In a world where Muslim-Christian relations are increasingly important and sometimes tendentious, this book examines the lived faith and contextual theology of people who have chosen to leave Islam and embrace Christianity.

Grassroots memorials have become major areas of focus during times of trauma, danger, and social unrest. These improvised memorial assemblages continue to display new and more dynamic ways of representing collective and individual identities and in doing so reveal the steps that shape the national memories of those who struggle to come to terms with traumatic loss. This volume focuses on the hybrid quality of these temporary memorials as both monuments of mourning and as focal points for protest and expression of discontent. The broad range of case studies in this volume include anti-mafia shrines, Theo van Gogh's memorial, September 11th memorials, March 11th shrines in Madrid, and Carlo Giuliani memorials in Genoa.

There has long been a need for a translation of the Judaeo-Christian Bible that did not deliberately mistranslate certain words and sentences for the purpose of concealing that the biblical authors' beliefs were quite different from those of modern Jews, Christians and Muslims. For example, "The LORD" is a falsification of the proper name Yahweh, a god like Zeus or Jupiter. But the most blatant fraud has been the rendering of the Hebrew word allahiyim as the male proper name, "God." Allahiyim is neither a proper name nor singular nor unisexal. Al means a god. The suffix -ah is a feminine singular inflection, so that allah means "goddess." The suffix -iyim is a masculine plural inflection, making allahiyim a dual-sex, generic plural, "male and female gods," or, in

the common gender, "gods." This translation corrects such falsifications. For extra copies contact: www.worldaudience.org

 Here is the first panoptic history of the long struggle between the Christian West and Islam. In this dazzlingly written, acutely nuanced account, Andrew Wheatcroft tracks a deep fault line of animosity between civilizations. He begins with a stunning account of the Battle of Lepanto in 1571, then turns to the main zones of conflict: Spain, from which the descendants of the Moors were eventually expelled; the Middle East, where Crusaders and Muslims clashed for years; and the Balkans, where distant memories spurred atrocities even into the twentieth century. Throughout, Wheatcroft delves beneath stereotypes, looking incisively at how images, ideas, language, and technology (from the printing press to the Internet), as well as politics, religion, and conquest, have allowed each side to demonize the other, revive old grievances, and fuel across centuries a seemingly unquenchable enmity. Finally, Wheatcroft tells how this fraught history led to our present maelstrom. We cannot, he argues, come to terms with today's perplexing animosities without confronting this dark past.

Religion plays a crucial role in the culture and history of nations. Christianity and Islam command the most followers with two billion and 1.3 billion, respectively. Both started in the Middle East. But each spread through a different path. Some interpret 'jihad' as moral strife against the self while others think of it as an obligation to defend the faith against its enemies. So the question is 'jihad' moral or violent? The book discusses how Islam views Christianity? Did technology alter the way clerics in Muslim-majority countries monopoly teaching the Islamic faith? How did the Internet, satellite television, and smart phones influence social life and extend to the spiritual realm? The second half of the twentieth century had seen some eventful developments in the Middle East. Political changes proved far reaching, sometimes with detrimental outcomes. How did recent events affect Egypt--the most pivotal country in the Arab world? Did fanaticism survive

in Egypt?

The world has failed the Darfur region, but devious politicians and generals have figured a way to polish their ow images with no risk. They are going to use the National Guard. Sergeant Major Lucas Grant should have retired. Instead, he joined the Guard. The National Guard stands ready to provide humanitarian relief wherever they may be sent, but they never expected anything like Darfur. Grant finds himself in another shooting war, worse than anything he has known before. Islamic extremists want the country for Arab Muslims, the Sudanese Liberation Army wants it for African Muslims, and both sides want the Americans out. And there's a problem with one of their own soldiers. Based on current events in Darfur, American soldiers face the perils of helping the people no one cares about, and keeping each other alive while they do it.
