This is a second edition
of an English for
Academic Purposes
title first published in

1992. It is designed to improve the reading skills of EFL students at intermediate level or above who are preparing for a university course in English. Study Reading is a course for learners of intermediate level or above who need to develop their reading skills for study or work purposes. The book is divided into three parts. Part 1 introduces basic reading skills. Part 2 is theme based, with texts from a variety of disciplines, and aims to extend the skills introduced in Part 1. Part 3 covers the reading skills required for project, dissertation and thesis work. Study Reading encourages learners to reflect on their current reading strategies. By doing a variety of task-based, problem-solving

activities, learners are encouraged to refine their reading strategies through exposure to the ideas of others. The book also gives direct advice on how to improve reading efficiency. Study Reading is part of a series, Study Writing, Study Listening, Study Speaking, Study Skills. Second Editions of Study Speaking, Listening and Skills will appear at the same time as the Second Edition of Study Reading. The Second Edition of Study Writing will appear in late 2005. Study Reading: - adopts a learner centred approach suitable for both classroom use and self-study. - has clearly labelled sections which allow users to select and focus on the skills areas most appropriate

to their needs. - inclu
