Brain Stretching Logic Puzzles for Kids and Fun for the Whole Family The mind, once stretched by a new idea, never returns to its original dimensions. Ralph Waldo Emerson (1803 - 82) This book is a collection of challenging puzzles which are designed for smart kids of 12+ years, and for the whole family to participate. Indeed, solutions for many puzzles may well need a collaborative effort.The purpose is to stretch the mind by thinking through puzzles using logic and lateral thinking. Even if you eventually have to look up the answer the fact that the problem has been mentally wrestled with will have stretched the brain. It is the process which is beneficial not the end result. The only mistake is one from where we learn nothing. Henry Ford (1863 - 1947)The book is laid out in three chapters which get more difficult as you go through the book. The solutions, with explanations, are at the back of the bookThis book is part of the Series "Books for Smart Kids". Books in this series include;Difficult Riddles for Smart KidsMath Riddles for Smart KidsDifficult Word Search for Smart Kids

Brain Teasers for Kids - Riddles for the Whole Family "The mind once stretched by a new idea, never returns to its original dimensions." Ralph Waldo Emerson This kids book is a collection of 300 brain teasing riddles and puzzles. Their purpose is to make children think and stretch their minds. They are designed to test logic, lateral thinking as well as memory and to engage the brain in seeing patterns and connections between different things and circumstances. They are laid out in three chapters which get more difficult as you go through the book, in the author's opinion at least. The answers are at the back of the book if all else fails. These are more difficult riddles for kids and are designed to be attempted by children from 10 years onwards, as well as participation from the rest of the family. It is a perfect activity book for kids who like problem solving. These activities can be shared with the whole family. This book is one of a series of puzzle books for kids. The aim of all of them is to stretch children's brains through kids riddles and puzzles. They are kids books designed to challenge children to think laterally and more creatively. Kids love exploring new ways of solving problems, especially in fun and challenging puzzle formats. In *Math and Logic Puzzles That Make Kids Think!*, the author presents several variations on Sudoku—the most well-known type of logic puzzle—in an easy-to-use, exciting format perfect for any math classroom. These language-independent logic puzzles provide kids with great problems to stretch how they think and reason. Each puzzle variation utilizes some of the basic strategies of Sudoku puzzles, but each one also draws upon other areas of mathematics—ordering of numbers, properties of geometric shapes, basic operations, or enriched number sense. This book provides teachers with puzzles arranged by difficulty level that can be used to support and enhance students' mathematical investigations. It also provides a new and exciting context for the development of students' deductive reasoning skills, which can lay the foundation for further mathematical exploration. Grades 6-8
