The Cup of Destiny Schiffer Pub Limited
In paintings as pretty as the porcelain they depict, this gift book celebrates one of the finest teacup collections in the world: the 300-piece archive of the Clark Art Institute, which dates back to the eighteenth century and represents coveted designs of the day from Europe and China. Artist Molly Hatch, with exclusive access to this largely unviewed collection, pored over the details of each

cup to create this visual treat. Including page after page of paintings of the cups, and led off by introductory essays, this is both an intriguing reflection on the art of collecting and an utterly charming gift for tea drinkers and teacup collectors.

Meissen porcelain is eagerly collected throughout the world and traded vigorously at antique shows, auctions, and on the Internet. Of the few books available on this beautiful German porcelain, none includes current market values - but Jim and Susan Harran's new Meissen Porcelain does! The authors of the bestselling three-volume series, *Collectible Cups & Saucers*, and another volume, *Dresden Porcelain Studios*, have produced a book that features everyday items available in the marketplace, not the eighteenth century museum pieces found in many Meissen books. The majority of pieces featured date from the mid-nineteenth century through the 1950s. More than 625 color photographs are included, along with a helpful marks section. Meissen Porcelain provides historical information about the beautiful city of Meissen and a brief history of the Meissen manufactory itself, as well as discussions on decorating motifs and how Meissen porcelain is made. The book includes chapters on decorative

porcelain, flower painting, Oriental motifs, Meissen's famous Blue Onion pattern, figures, copycats, and useful information for the collector.

Dish Reading tea leaves is a traditional divinatory method passed on through generations. The Cup of Destiny reveals

the secrets of this ancient method, allowing you to make predictions for yourself and your friends. This kit includes a beautiful, decorated cup and saucer for making readings, and an illustrated book explaining how to interpret the patterns you will find in your cup. The first part of the book describes the ritual of turning the cup counter-clockwise and draining the left-over tea into the saucer. It goes on to explain the meanings of over 200 of the signs and symbols you are likely to see in the leaves when making a reading. The explanations accompanying these allow you to relate them to real events and future possibilities, providing clear insights which can be startlingly accurate: a heart near the rim of the cup means that love is not far away, while a cake may signify a celebration or a party. So, have a cup of tea and see what the leaves have to say about your future!

Many books have been written on Depression Era kitchenware and dinnerware, yet none have focused on the mass-produced opaque green glassware known as jadite. This book attempts to bring together the works of the three major glass companies that produced jadite: McKee, Jeannette, and Anchor Hocking. Produced from the early 1930s until the mid-1970s, jadite has rapidly become one of today's hottest collectibles. In addition to numerous dinnerware patterns, all sorts of jadite kitchenware was produced, including canisters, shakers, mixing bowls, and ovenware. Jadite items were also made for the rest of the home, including lamps, bathroom items, and ashtrays. The authors have produced a book which identifies over a thousand jadite pieces with more than 500 photos and current values.
