Have you ever closed your Bible and thought, What did I just read? Whether you're brand-new to the Bible or you grew up in the second pew, reading

Scripture can feel confusing or boring at times. Understanding it well seems to require reading it thoroughly (and even repeatedly), but who wants to read something they don't understand? If you've ever wanted to read through the Bible or even just wanted to want to read it, The Bible Recap is here to help. Following a chronological Bible reading plan, these recaps explain and connect the story of Scripture, section by section. Soon you'll see yourself as a child of God who knows and loves His Word in the ways you've always hoped for. You don't

have to go to seminary. You don't need a special Bible. Just start reading this book alongside your Bible and see what God has to say about Himself in the story He's telling. "Tara-Leigh gets me excited to read the Bible. Period. I have found a trusted guide to walk me into deeper understanding of the Scriptures."--

MICHAEL DEAN MCDONALD, the Bible Project

A charming tale for fans of Marley & Me and Dewey's Nine Lives. Whenever middle-aged desert tour guide Forrest Bryant Johnson went out on his daily walks into the Mojave, all was usually peaceful and serene. But one beautiful summer day in 1987, Forrest heard a cry of distress. Following the cries, he came upon a small bobcat kitten, injured,

orphaned, and desperately in need of help. So Forrest took his new feline friend home for a night. But when the little "trooper" clearly needed some more time to recoup, that night turned into two nights, a week, and eventually nineteen years. And so Trooper became a part of the Johnson family. And in those nineteen years, Trooper lived his nine lives to the fullest. He explored desert flora and fauna around him, befriending kit foxes, jackrabbits, desert tortoises, and other creatures and getting into mischief along the way. Trooper became a "big brother" to stray tabby Little Brother, teaching, guiding, and protecting Brother on the pair's adventures and misadventures. He became a beloved patient at his local vet, and cherished housemate of

Forrest's wife, Chi. And Trooper even managed to melt the icy heart of a tough guy neighbor. But most of all, throughout his nineteen years, Trooper became Forrest's best friend, as the two shared each other's worries and frustrations, musings and rants, joys and laughter. Harrowing and heartfelt, Trooper: The Bobcat Who Came in from the Wild is for any reader who ever had their heart stolen by their pet.

5,000 Awesome Facts (about Everything!) University of Chicago Press Although books on the comedies of the silent era abound, few have attempted to survey film comedy as a whole—its history and evolution, how the philosophical visions of its greatest artists and directors have shaped its traditions, and how these visions have

informed both the meaning and manner of their work. Blending information with interpretation, description with analysis, Mast traces the development of screen comedy from the first crude efforts of Edison and Lumière to the subtlety and psychological complexity of Annie Hall. As he guides the reader through detailed discussions of specific films, Mast reveals the structures, the values, and the cinematic techniques which have appeared and reappeared in comic cinema. The second edition of The Comic Mind treats the comic developments of the 1970s in terms of the traditions of film comedy set forth in the first edition, including a discussion of the evolution of Jacques Tati and the emergence of Mel Brooks and Woody Allen as the two greatest American comic stylists of the

seventies. "The most comprehensive study of film comedy yet written in English. . . .The book's extensive index with references to companies from which 16mm prints of many of the cited films may be rented will be of great value to the film teacher and audiovisual librarian."—Choice

Rebecca Lee, one of our most gifted and original short story writers, guides readers into a range of landscapes, both foreign and domestic, crafting stories as rich as novels. A student plagiarizes a paper and holds fast to her alibi until she finds herself complicit in the resurrection of one professor's shadowy past. A dinner party becomes the occasion for the dissolution of more than one marriage. A woman is hired to find a wife for the one true soulmate she's ever found. In all, Rebecca Lee traverses the terrain of infidelity, obligation, sacrifice, jealousy, and yet finally, optimism.

Showing people at their most vulnerable, Lee creates characters so wonderfully flawed, so driven by their desire, so compelled to make sense of their human condition, that it's impossible not to feel for them when their fragile belief in romantic love, domestic bliss, or academic seclusion fails to provide them with the sort of force field they'd expected.

In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and

horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the garden. The Humane Gardener fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered.

His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Bestselling author Kristie Sullivan teamed up with her teenage kids, Grace and Jonathan, to deliver the ultimate keto family cookbook, *Growing Up Keto*. This inspiring book stems from Kristie's personal struggles with growing up obese and then finally finding the right nutritional path for herself and, eventually, her family. The keto lifestyle proved to be the right fit for Kristie, who experienced dramatic weight loss and optimized health. Above and beyond being a success story, Kristie is a busy working mom who is devoted to the health of her two children. When she saw her own daughter begin to struggle with weight just as she had as a child, Kristie committed to supporting her by providing delicious low-carb options, focusing on health instead of weight, and

setting an example. With her mother's guidance, Grace made the choice to adopt a keto lifestyle herself, and later on, Jonathan did as well. After years of success, the Sullivan family brings you a first-of-its-kind cookbook dedicated to young adults, teens, kids, and—you guessed it—their parents! Growing Up Keto combines the Sullivans' heartwarming family narrative with a practical, safe, and kid-friendly approach to adopting a low-carb, ketogenic lifestyle. The recipes featured in the book were created with the health needs and tastes of kids and teens in mind. Some are so simple that youngsters can take over in the kitchen with little or no help from Mom or Dad. There are also recipes for celebrations with extended family and friends and meals that

parents and kids can cook together, making even simple weeknight dinners more fun. Kristie also includes useful tools and information for parents of kids who eat keto, such as tips and tricks for surviving sleepovers, camp, and other social activities that involve food as well as a guide to helping kids make independent and informed choices for a lifetime of healthy eating. Growing Up Keto is complete with breakfasts, including quick morning meals; lunches, including handy tips on packing for school and overnight trips; main dishes, including celebratory meals; and, of course, classic desserts that kids love. With plenty of options for a wide range of palates, Kristie, Grace, and Jonathan leave nothing out. Kids and adults alike will feel satisfied, happy, and healthy!
