Welcome to our Real Estate Investing: The Strategies, Secrets & Mindset book[] Hurry up and get YOUR book NOW[] Real estate investing may seem like an easy way to make a lot of money. However, without the proper background knowledge, it becomes an easy way to lose lots of money very quickly. This book was created for those who want to invest in real estate, but just don't know how to systematically ANALYZE a property's quality and profitability. How would you evaluate the quality and profitability of an investment property? Would you know how to answer the following questions about any given property? 1. How much will it cost you annually to operate the property? 2. How much money will you profit per month? 3. What is your return on investment? 3. What future repairs or maintenance should you expect? 4. Does the property have any major defects? 5. Are there any physical attributes that can help or hurt the property's value? 6. Is the property well located? 7. Is this property worth your time and money? 8. What is the maximum amount you can afford to invest? 9. How can you be sure that you aren't over paying for the property? Knowing how to evaluate many different properties is the key to your real estate investing success. You may need to visit and evaluate over 50 properties, before you find yourself a good investment that will make you a lot of money. This is why you need to use the same systematic method each time. If you don't know how to strategically evaluate properties, you may find yourself in financial trouble very quickly. Property evaluation is undoubtedly the most important skill when it comes to real estate investing. I'm going to be teaching a strategy that I have used during my career as a real estate broker to evaluate over 1 BILLION dollars worth of real estate. I'm Jim Collins. I'm a real estate investor. A Dad. And I do some teaching on the side. I've been teaching new real estate investors how to get started now for almost two years. After talking to and working with literally dozens of new folks, I've developed a streamlined and straightforward educational program specifically targeted on helping new real estate investors get their first check. In contrast to the often ridiculously complex (and EXPENSIVE) programs the goo-roos pitch, this book is simple. So - if you're looking to get into real estate investing, and you're tired of the goo-roo hype, then this is the book for you. This book is a comprehensive. Everything you need to get your first check is included. And it starts from scratch, so you don't have to have an ounce of experience with real estate. Don't delay any more seconds, scroll back up, click the "BUY NOW WITH 1-CLICK" button NOW and start learning today and become a master in real estate investing TODAY! Bill and Mary Toohey are average middle income people from a small Iowa town. Bill has been employed for 23 years as a Vocational Rehabilitation Counselor and Mary has worked for 20 years as an Office Manager for a small psychological firm. They started saving and investing in 1991 when their net worth was \$63,000. Eight years later their net worth was \$467,000. In other words, their assets increased by an average of more than \$50,000 per year during that period while their income (not counting dividends and capital gains) averaged about \$65,000 per year. But it wasn't always easy. They have three children, Colleen (24), Tim (22), and Meghann (14). Tim has been severely disabled since birth and despite the challenges of helping Tim cope with his chronic illnesses, the Toohey family has been able to achieve financial freedom on a modest income. They were able to build a sizable nest egg in eight years while encountering some of life's biggest expenses during the period. They helped to pay for their daughter's college education and wedding, paid cash for a new car, and made several expensive home improvements. Despite those major expenses the Tooheys still managed to save 46% of their gross income and were listed among the "Best Personal Finance Managers in America" in the December 1994 issues of *Money* magazine. The Tooheys' story, in an article written by Bill, appeared in the April 1997 issue of *Money* magazine. Mary co-authored an article published in the February 1998 issue of *McCall's* magazine. In May, 1997 Bill was invited to speak at *Money* magazine's Elgin Project seminar series. *Money* magazine "adopted" Elgin, Illinois and brought in speakers with expertise in personal finance. Former President Bush kicked off the event. How did they do it? How do they think? How do they live? Is it possible to save so much and still have a decent life? Can my family do this? Get the answers to all these questions and more in a book written specifically for families with children who don't earn big bucks.

Who would not be interested in getting an interest-free loan for 12 months for any type of purchase just for taking a few minutes to complete a credit card balance transfer offer? Or a free round-trip airline ticket twice a year just for making purchases on a rebate card? Or lowering their insurance premiums by hundreds of dollars a year just by raising their credit score? Obviously, just about every consumer is interested in saving money and getting freebies! Hence, the universal appeal of this book cannot be overstated. Today, the average American household has 12.7 credit cards. Banks maximize their profits by "nickel and dimeing" and outsmarting their cardholders: that's why credit cards are their most profitable product. Banks spend billions enticing consumers with rebates, freebies, low-introductory rate offers, and airline miles. Learn how to take full

advantage of these offers, without paying for them through brutally high interest rates, fees, and penalties! Arnold offers specific advice targeted to young consumers who are being aggressively targeted by credit card marketers; retirees facing credit discrimination; Americans recovering from bankruptcy or other debt problems; and even consumers with great credit. You'll learn the techniques he has personally used to escape credit card debt, "creatively finance" his wedding, car, and home purchases, and earn thousands in credit card "perks" every year.
