Developing  
non-cognitive

children often

their parents,  
is equally  
relevant. Talk  
with Your Kids  
prompts  
thoughtful and  
effective  
discussion  
between  
parents and

children by posing 109 open-ended questions. Many of the questions reflect situations immediately relevant to kids, such as cyber-bullying, cheating in school or in sports, accepting differences, illegal music downloads, what defines lying, and making choices about drugs and sex. Other questions ask kids to consider larger dilemmas, such as medical ethics

and medical testing, declaring war, crime and punishment, eating meat, and more. Parker also offers suggestions to parents on how to keep the conversations going and encourage kids to think more deeply about an issue. Throughout the book are questions based on the theories of famous ethicists and philosophers, including John Stuart Mill, Immanuel Kant, Thomas

Hobbes, and Jean Jacques Rousseau. Best-selling parenting books such as *How Children Succeed* and *Nurtureshock* emphasize the importance of strong values in a child. The conversations in *Talk with Your Kids* help parents achieve this goal.

"The greatest enemy of sexual wholeness today," asserts Mark Laaser, Ph.D., "is silence." A therapist specializing in the field of sexual health, Dr. Laaser has worked with hundreds of adults who suffer the consequences

of sexual sin and dysfunction. All of them long to have had meaningful conversations with their parents about sex when they were growing up. Most parents would agree that healthy sexuality should be taught at home rather than left to their children's teachers, peers, or culture. However, even parents with the best intentions can feel at a loss regarding

where to start. In Talking with Your Kids about Sex, Dr. Laaser cuts through the confusion, coaching you through specific, age-appropriate discussions you can have with your son or daughter from early childhood through young adulthood; giving guidance on how to explore and examine your own sexual beliefs and issues; and empowering you to help your child develop a healthy and

biblical understanding of sexuality, a glorious gift from God. *How to Talk with Your Kids about Sex* Kings Road Publishing How to Talk So Kids Will Listen & Listen So Kids Will Talk Harper Collins **How to Talk to Your Child About Sex** Harper Collins 'Couple Talk' is a treasure of practical ideas for building a relationship of caring, respect, and intimacy. Having trouble talking to your kids about sex? Their friends at school don't...  
Unfortunately, for many parents, the

most important conversations are the hardest. Ninety-three percent of adults are dissatisfied with the sex education they received as children, which is precisely why they are so bad at teaching their kids-they have no frame of reference. Renowned Harvard Medical School psychologist and frequent Dr. Phil guest John Chirban helps parents talk to their kids . . . about

sex. Kids are going to learn about sex, and it is up to parents to decide if their kids are going to learn from them or from MTV. How parents address sex-their openness, the context, and their attitudes-will impact how their children view their own sexuality and self worth. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare

parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children.

How to Talk Your Way to a Great Relationship Pioneer Pub. A two-year-old develops a nasty cough and after experiencing breathing problems, his concerned parents take

him to the emergency room. The doctor on call diagnoses his symptoms as croup, prescribes treatment, but days later the cough is no better. After another trip to the emergency room, x-rays, respiratory therapy, and treatment for asthma, the little boy still cannot shake his cough and breathing difficulties. Finally, two weeks later, the family doctor suggests an examination by an ear-

nose-and-throat specialist. Using a bronchoscope, the specialist finds a small piece of plastic from a toy lodged in the edge of the child's trachea. After removing the obstruction, the boy returns to normal within a day. In fact, he never had croup or asthma. Could this lengthy, frustrating experience have been avoided? In this illuminating guide to communicating with your

child's doctor, pediatrician Christopher M. Johnson shows parents how to talk more effectively to their doctors about their children's health. Johnson takes the nonmedical layperson into the mindset of the physician examining a sick child for the first time. He demonstrates how doctors evaluate symptoms, interpret answers to their questions, and decide on a course of treatment.

The book invites and then empowers parents to join their child's doctor as a partner in the diagnostic and therapeutic process. Each chapter ends with a communication checklist to help parents find the right words while visiting the doctor. Dr. Johnson covers the following topics: The medical history and why it is so important. How and why the doctor examines your child. How a

doctor uses lab tests. How a doctor arrives at a diagnosis. Time-honored medical wisdom that all doctors rely on. The difference between specific treatments and supportive care when a diagnosis is uncertain. Consulting specialists along with the family physician. The final chapter encourages the reader to become a sort of junior doctor by presenting several real-

life cases and challenging the reader to work through the problem as a physician would. This jargon-free and completely accessible guidebook will enable you to assist your child's doctor in the vital work of effectively caring for your child in health and illness. Christopher M. Johnson, MD (Santa Fe, NM), is a pediatrician in private practice at Pediatric Intensive Care Associates,

PC. Formerly, he was employed by the Mayo Clinic in Rochester, MN, as professor of pediatrics and director of the Pediatric Intensive Care Unit.
