Here you will find an explanation of inter and intra dimensional awareness and the theoretical possibilities of teleportation, time travel as a few of the more fun ramifications of this reality model are probed. Section 6 provides the wrap-up that puts everything discussed into an easily understood perspective. Explorers are known for the journeys they take. Rosie McKnight explored the vast nonphysical dimensions of consciousness. With famed out-of-body researcher Robert Monroe, she helped to further the understanding of human consciousness, and to demonstrate beyond doubt that we are more than our physical bodies. Many of these pioneering sessions are presented here almost word for word, as they were taped, along with her warm and inspiring observations of Bob Monroe and the early days of The Monroe Institute (TMI). Here are explorations of non-human energy systems, interactions with highly evolved beings, concepts about the makeup of the many levels of the universe, views of the afterlife and the animal dimensions, the nature of healing and guidance, a look at the future, and much more. Here is the pursuit of the true meaning of science fearlessly mapping wherever the inquisitive mind takes us. Through the courage of Rosie McKnight and other explorers at TMI, we are given, as Laurie Monroe writes in her introduction, "a clarity of perception and a sense of the greatness that is beyond our everyday life."

My grandfather had once told me that life was an unpredictable beast-one moment calm with a full belly and heavy eyes, and the next, digging its paws in the dirt, snarling just before it took down its next victim. Until recently, I would argue with that notion, listing all the reasons why my life was as predictable as the tides coming and going. While I listened, I was young and never put much thought into a lot of the things my grandfather told me, but all that changed when the Hunters moved back to Sandpoint. More specifically, Wes Hunter. That was when the impossible became possible and the predictable became unpredictable. As Abigail Rose looked down on her new world, she couldn't deny the things she had seen and all the things she had learned. There

were days she wished she could go back to her old life, but she had changed. Evolved. She was no longer a love-struck seventeen year old. She was a chosen leader and her path was undeniable. The black and white was fading to gray, and the only thing between mortals and immortals was her.

Discover the gothic tales of French writer Théophile Gautier, the disturbing photographs of Jacques-André Boiffard and the religious paintings by Giotto, Tintoretto and Caravaggio that exalt the foot. Marvel at the sporting exploits of the elite runners such as Abede Bikila and Zola Budd, and the surprising representation of the foot in film such as *The Adventures of Huckleberry Finn* and *Kill Bill: Volume 1*.
