This book provides detailed, step-by-step advice to candidates on how to pass the Occupational English Test (OET), as well as 4 full-length practice tests. It contains information that all candidates should know about: the test structure, exercises and tutorials in relevant language skills, how to prepare, and how to pass. Each practice test includes all of the four sub-tests in the OET (writing, reading, listening and speaking). To access the listening sub-test audio, simply follow the YouTube instructions on page 162. The writing practice tests include examples of high-scoring answers. The listening test audio is

prepared using instructions from the real exam, and can be accessed using the YouTube link provided in the book. The reading tests include explanations for each correct answer, and reasoning for why other options are incorrect. This is a comprehensive and easy-to-understand guide to passing the OET, put together by Anna Hartford based on her years of experience in helping students to pass the exam and begin working in their healthcare profession. About the author: Anna Hartford is an Australian OET teacher who has spent many years preparing candidates for the Occupational English Test. She has used her extensive knowledge of the OET to establish Progressive Coaching, a business specializing in helping healthcare professionals begin their career in Australia. NB: The reading sub-tests in this

book are sourced from the book "Occupational English Test Preparation Book: Reading Sub-test" by Anna Hartford. *OET Preparation Book: Reading Sub-Test* Notion Press

For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into Leveled Books, K-8 to form the ultimate guide to choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your literacy program and offering prototype descriptions of fiction

and nonfiction books at each level. They share advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. Best of all, *Leveled Books, K-8* is one half of a new duo of resources that will change how you look at leveled books. Its companion-
