*Antologia della prosa italiana* John Benjamins Publishing Company  
 Ancient Greek migrants in Sicily produced societies and economies that both paralleled and differed from their homeland. Explanations for these similarities and differences have been hotly debated. On the one hand, some scholars have viewed the ancient Greeks as one in a long line of migrants who were shaped by Sicily and its inhabitants. On the other hand, other scholars have argued that the Greeks acted as the main source of innovation and achievement in the culture of ancient Sicily, a culture that

was still removed from that of mainland Greece. Neither of these positions is completely satisfactory. What is lacking in this debate is a basic framework for understanding ancient Sicily's social and economic history. Archaic and Classical Greek Sicily represents the first ever systematic and comprehensive attempt to synthesize the historical and archaeological evidence, and to deploy it to test the various historical models proposed over the past two centuries. It adopts an interdisciplinary approach that combines classical and prehistoric studies, texts and material culture, and a variety of methods and theories to put the history of Greek Sicily on a completely new footing. While Sicily and Greece had conjoined histories from the start, their relationship

was not one of periphery and center or of colony and state in any sense, but of an interdependent and mutually enriching diaspora. At the same time, local conditions and peoples, including Phoenician migrants, also shaped the evolution of Sicilian Greek societies and economies. This book reveals and explains the similarities and differences between developments in Greek Sicily and the mainland, and brings greater clarity to the parts played by locals and immigrants in ancient Sicily's impressive achievements. *Bollettino del Comune di Napoli rassegna illustrata di storia, arte, topografia e statistica napoletana* Oxford University Press  
 The concept of kinship is at the heart of understanding the structure of ancient

Athenian society and the lives of its citizens. Drawing on epigraphic, literary, and archaeological sources, 'Kinship in Ancient Athens' explores interactions between kin across a range of social contexts, from family life to legal matters, politics, and more.

Woman Transeuropa (Milano)

This volume gathers chapters related to the condition of women in the ancient novel. To broaden the perspective, it integrates not only papers dealing with the Greek and Roman novel as a literary genre in its own right, but also as a historical document involving aspects as diverse as history, archaeology, sociology and the history of law. The twenty-six contributions in this volume have been divided into thematic blocks, based on the different approaches that the authors have adopted to tackle the subject. The first block is about realia - the reality in which the fiction has been conceived. The second block focuses on the legal problems that can be deduced from the plots of the novels. The third block encompasses deals with the Greek and Roman novel from the point of view of classical philology, literary criticism and literary theory, with chapters dedicated to the tradition of the ancient novel, both in our most immediate cultural area (Middle Ages, Spanish Golden Age) and in other contexts, whether Indo-European (India, Persia) or of a different origin.

*Handbuch der italienischen National-Literatur, historische geordnete Anthologie von A. Ebert* CUP Archive

In the dark, decadent last days of the Roman Empire, a pagan soldier sees a girl

of exotic beauty and decides he must have her as his concubine. But unknown to him, Ligia is a Christian intent on living a pure life, even as Nero's ruthless persecution sweeps the city. As the lives of Vinicius and Ligia intertwine, they watch the world they know change before their eyes. While the apostles Peter and Paul seek to save the immoral city from ruin, Christians are brutally martyred in the Coliseum and Rome burns.

**The Poems of Leopardi** Archaeopress Publishing Ltd

First published in 1923, this book presents the complete text of Giacomo Leopardi's Canti in the original Italian with facing-page English translation, along with extensive critical notes. The text also contains a biographical introduction, appendices and a detailed bibliography. This book will be of value to anyone with an interest in Leopardi, Italian literature and the Romantic movement in general.

**Il VI. libro della geografia (antica Italia, Sicilia, Iapigia)** Oxford University Press

Giacomo Leopardi is Italy's greatest modern poet, the first European writer to portray and examine the self in a way that feels familiar to us today. A great classical scholar and patriot, he explored metaphysical loneliness in entirely original ways. Though he died young, his influence was enormous, and it is no exaggeration to say that all modern poetry, not only in Italian, derives in some way from his work. Galassi, whose translations of Eugenio Montale have been widely acclaimed, has produced a strong, fresh, direct version of this great poet that offers English-

language readers a new approach to Leopardi.

*Poeti italiani contemporanei maggiori e minori, 2* Cambridge University Press

This volume collects more than 60 papers by contributors from the British Isles, Italy and other parts of continental Europe, and North and South America, focussing on recent developments in Italian archaeology from the Neolithic to the modern period.
