An Existential and Phenomenological Approach to Coaching Supervision Random House
Mindfulness-Based Relational Supervision explores a relational and mindfulness-based approach to adult learning and development that is mutually transformational. The initial focus of the book is a case study that shows the evolution of a dialogical supervision relationship that was transformational for both parties. The authors present their reflections and analysis of key transformational moments that brought insights which significantly enhanced their personal and professional development. The authors adopt an interdisciplinary approach, discussing relational neurobiology and relational mindfulness practice together with ideas from child and adult development, attachment theory, intersubjectivity, somatic experiencing, and adult learning theories. The case study narrative charts the development of the authors' supervision relationship, following which they share a meta-perspective on their learning journey. Finally, they discuss the implications of the study for the education and training of relational practitioners in supervision, coaching, and related fields. The book will appeal to students, practitioners and supervisors in the helping professions, in particular counselling, psychotherapy, and coaching.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the

same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

Fundamentally, coaching is about enabling someone to feel heard and to access new insights into their own life. But how can you facilitate someone else's thinking when you don't know what they already know? It is almost impossible to remember models and questions whilst giving your companion your full attention at the same time. Coaching simply means that you can listen and notice more, getting quickly to the heart of the conversation. Whether you are brand new to coaching, are a trained coach who has lost confidence, or have many years' experience coaching at a senior level, this deeply practical book will teach you how to:

- Do less so that your companion can do more
- Understand why saying what you see is more useful than listening to any particular story
- Put boundaries around a conversation, making it more effective for your companion and easier for you
- Tailor how you sit and how you speak to allow a collaborative environment
- End any conversation in partnership

Tailored to help the practising coach, this deeply practical book is nonetheless useful for anyone who has conversations with people. "Claire stimulated a desire to know more about how to use existing skills in new and simplified ways. An altogether great book." Clive Avril, Executive Coach and Mentor (ACC) "This is the kind of book that, after reading, you will

want to have nearby for easy reference and reminders. I suspect that the well-worn pages will be a symbol of the book's lasting contribution to coaching – and to transformational conversations. I found something new in every chapter of the book.” Claire Caine, EMCC Book Club Review “Simplifying Coaching is great at bringing you back to basics and reflecting on trying to resist the urge to ‘actively help’, rather than allowing the client to do the thinking. In a small book, it covers a lot of ground, and I would recommend reading the whole book and then dipping into it periodically for practical advice on particular topics. It is a brilliant and simple book that every coach should read.” Sally Twisleton, EMCC Book Club Review Claire Pedrick has been coaching for over 30 years. Humour in Psychoanalysis and Coaching Supervision John Wiley & Sons

"Supervision in the Helping Professions remains a core text in our trainings and we welcome the updates, including the increased focus on ethics and diversity, the discussion of e-enabled modes of supervision and the review of research. What is so encouraging to students, trainers and practitioners is the 'beginner's mind' with which the authors continue to approach the subject, their tireless enthusiasm for enquiry, and their commitment to the learning edge. The launch of this edition coincides with the launch of the first UKCP Professional Register for Supervisors. The authors have done much to promote the development of supervision, and all future professional trainings in supervision will rely on their wisdom and experience. Key words for this edition are sustainability, resourcing and deeper levels of self reflection - mirroring the movement of our profession which increasingly turns outwards, asking how we can effect societal as well as individual change." Tree Staunton, Director of Studies, Bath Centre for Psychotherapy and Counselling, and Chair of the Humanistic and Integrative College of UKCP "This book remains a seminal text in supervision. In the fourth edition the authors bring a contemporary perspective to bear on supervision with an emphasis on the wider contextual and cultural contexts of our work as supervisors. I appreciate above all the 'fearless compassion' with which the authors have addressed the challenges that face us as supervisors in a global culture, and at the same time their ongoing stress on integrating the 'emotional and the rational, the personal and the organizational' in a very accessible model of

supervision." Professor Maria Gilbert, Metanoia Institute, West London This bestselling book provides a comprehensive guide to supervision for professionals across the social care and helping professions, as well as those working in education, coaching and human resources. Thoroughly updated, the book has a new introduction showing how the world context in which helping professions operate has fundamentally changed in the last 25 years and the implications of this for supervision. The seven-eyed supervision model at the core of the book has been expanded and developed to reflect its use in many professions and different parts of the world. The authors also incorporate viewpoints from other academics and practitioners who have commented on the model. New to this edition: A new chapter on ethics and handling difficult situations in supervision A new chapter and new models of reflective practice New material on training supervisors, including the important area of supervision of supervision Revised chapters on group and team supervision, with new material on supervising team development and team coaching More case studies of supervision in a wide range of different professions Further practical advice for supervisees on how to recognize, contribute to and ask for good supervision With contributions from Judy Ryde and Joan Wilmot.

The Completely Revised Handbook of Coaching Taylor & Francis

Drawing from psychoanalytic principles, Ingela Camba Ludlow uniquely explores and endorses humour as a serious and essential practical tool in coaching, coaching supervision and psychotherapy, showing how, when successfully integrated, it can help clients navigate the most difficult professional and personal challenges. Often misunderstood and not accepted in the academic arena, chapters in Part 1 begin by looking at the history and evolution of humour from the Ancient Greeks to the modern age, distinguishing different types of humour from each other, such as wit, sarcasm and pantomime. Freud believed humour to be the highest mechanism of the human psyche and the book continues to examine his relationship and use of humour in psychotherapy, looking at his personal correspondence and patient testimonials as well as how his contemporaries, such as Bion, applied humour in their practice. Moving from theory to practice, chapters in Part 2 show practitioners through case studies, exercises and examples how they can use humour in sessions with clients. Specifically addressing how to use humour ethically, how to remain neutral as the coach and how to use humour to address anxiety, express anger and offer alternative rationalisations, this book provides coaches the practical tools to expand their coaching practice. This interdisciplinary book will be essential reading for coaches, psychotherapists and counsellors looking to broaden their coaching supervision skill set, as well as those who are interested in how humour can promote personal and professional development through a psychoanalytic lens.

This practical guide argues that both mentor coaching and supervision be mandated by the professional coaching bodies as part of coaches' continuous professional development. Mentor coaching is not just for those coaches seeking a credential: it is for lifelong professional development for every coach, at every level of the profession. You are the best coaching tool there is. Tools need to be oiled, sharpened, repaired and protected to keep them in tip top condition. That's what mentor coaching and supervision do – they keep coaches sharp and fit for purpose. The reader will learn how to develop as a coach using mentor coaching, as well as how to develop as a mentor coach, to support other coaches to develop. Clare Norman explains what mentor coaching is, why it is so

important and the competencies for mentor coaching. How coaches show up in the room is more important than how much we know about the theory behind coaching. Clare Norman's concise book is important reading for all practising coaches, as well as coaches and mentor coaches in training.
