Cieraad presents a collection of articles that focuses on the practices and symbolism of domestic space in Western society. These essays go beyond the discussion of conventional issues such as aesthetics and social standing. At Home takes an in-depth anthropological look at how different cultures use their homes as a visual model of the culture's social structure. Catch You on the Flipside Quercus Books "New Yorks most valuable citizen" - this honorary title was given to Adolph Lewisohn. When he was born in Hamburg in 1849 as the son of Orthodox Jews and successful merchants, a career as a merchant was put in his cradle.

In search of personal freedom he persuaded his strict father in 1867 to let him go to New York. The fact that Lewisohn, as an industrialist in the USA, will generate millions of euros in only twenty years time would have seemed like a fairy tale to the young migrant. With dedication, foresight and flexibility he builds a copper empire. For four decades he then supports countless charitable projects with millions of euros. The Hamburgische Wissenschaftliche Stiftung (Hamburg Scientific Society) also owes him one of the biggest donations it received when it was founded. This is the first biography of this exceptionally successful businessman, art

collector and international philanthropist.

 In 1915, fourteen years before Berlin Alexanderplatz, Alfred Döblin published his first novel, an extensively researched Chinese historical extravaganza: The Three Leaps of Wang Lun. Even more remarkably, given its subject matter, the book was written in Expressionist style and is now considered the first modern German novel, as well as the first Western novel to depict a China untouched by the West. It is virtually unknown in English. Based on actual accounts of a doomed rebellion during the

reign of Emperor Qianlong in the late 18th century, the novel tells the story of Wang Lun, a historical martial arts master and charismatic leader of the White Lotus sect, who leads a futile revolt of the “Truly Powerless.” Densely packed cities and Tibetan wastes, political intrigue and religious yearning, imperial court life and the fate of wandering outcasts are depicted in a language of enormous vigor and matchless imagination, unfolding the theme of timidity against force, and a mystical sense of the world against the realities of power.

 In Helen Callaghan’s chilling, tightly-spun debut novel of

psychological suspense, a teenage girl's abduction stirs dark memories of a twenty-year-old cold case... Margot Lewis is a teacher at an exclusive high school in the English university town of Cambridge. In her spare time, she writes an advice column, "Dear Amy", for the local newspaper. When one of Margot's students, fifteen-year-old Katie, disappears, the school and the town fear the worst. And then Margot gets a "Dear Amy" letter unlike any of the ones she's received before. It's a desperate plea for rescue from a girl who says she is being held captive and in terrible danger—a girl called Bethan Avery, who was abducted from the local area

twenty years ago...and never found. The letter matches a sample of Bethan's handwriting that the police have kept on file since she vanished, and this shocking development in an infamous cold case catches the attention of criminologist Martin Forrester, who has been trying to find out what happened to her all those years ago. Spurred on by her concern for both Katie and the mysterious Bethan, Margot sets out—with Martin's help—to discover if the two cases are connected. But then Margot herself becomes a target...

В сборнике акцентирован объяснительный потенциал дискурсивно-аналитической методологии для лингвистического анализа текстов и тематико-функциональных

типов текста на немецком языке. Тексты рассматриваются не как замкнутые сами на себя образования, а как часть совокупности (дискурсивной формации) тематически и функционально связанных текстов, находящихся в диалогических отношениях друг с другом. При этом, с одной стороны, через анализ лексической, грамматической, композиционно-содержательной, тексто-типологической и т. д. структуры текстов воссоздается материальность соответствующих текстов и типов текста в ее лингвокультурологической специфике на

материале немецкого языка. С другой стороны, на лингвистической основе устанавливается сопряженность языковых единиц и структур, таких как маркеры дискурсивной открытости текста, ключевые слова, аллюзивные имена собственные, фраземы, речеактовые глаголы ввода чужой речи, модально-эпистемические компоненты и т. д., с внешними участниками и обстоятельствами общения и моделируется определенный «срез» коммуникации. Дискурсивный ракурс рассмотрения языковых манифестаций

дискурсов от словообразовательно морфемы до текста направлен в целом на то, чтобы в опоре на ресурсы немецкого языка представить динамику ценностных и мировоззренческих картин мира, структур коллективного и индивидуального знания, выражении позиции дискурсивных субъектов, действующих словом в коммуникативных практиках.

This book demonstrates the progress that has been made on political branding research across international contexts. It focuses on the critical application of new concepts and frameworks, generating a deeper understanding of unexplored settings and positioning research from multiple perspectives. It is important to consider different typologies of international political brands particularly as we have witnessed huge changes across political landscapes

from Brexit, the rise of President Trump, the surge in populism and the development of sustainable-climate change movements. Given that there are many potential typologies and non-traditional political brands, this volume investigates different typologies and alternative political brands with the support of new and under-developed theoretical lens from multiple perspectives and contexts. These include Canada, Iceland, India, Indonesia and the United States of America. This book provides areas of reflection and explicit calls for further research, which in turn will advance insight into political brands and enhance our

understanding of political marketing in action. This is a must-read guide for setting out the implications of theory and practice for multiple stakeholders including political marketers, political scientists, politicians, political party organizers, brand managers and scholars across a wide range of social science disciplines. The chapters in this book were originally published as a special issue of the Journal of Political Marketing.

The ongoing discussions about globalization, American hegemony and September 11 and its aftermath have moved the debate about the export of American culture and cultural anti-Americanism to center stage of world politics. At such a time, it is crucial to understand the process of culture transfer and its effects on local societies and their attitudes toward the United States. This volume presents Germany as a case study of the impact of American culture throughout a period characterized by a

totalitarian system, two unusually destructive wars, massive ethnic cleansing, and economic disaster. Drawing on examples from history, culture studies, film, radio, and the arts, the authors explore the political and cultural parameters of Americanization and anti-Americanism, as reflected in the reception and rejection of American popular culture and, more generally, in European-American relations in the "American Century." Alexander Stephan is Professor of German, Ohio Eminent Scholar, and Senior Fellow of the Mershon Center for the Study of International Security and Public Policy at Ohio State University, where he directs a

project on American culture and anti-Americanism in Europe and the world. *Modern Meat* Harper Collins  
 Eine Kuh macht Muh, viele Kühe machen Mühe. Vom Kalauer bis zum geistreichen Aperçu reicht das Spektrum der Sprachwitze in diesem Buch. Sprachwitze sind Witze, die aus sprachlichen Gründen witzig sind; es sind witzige Spiele mit der Sprache. Dabei kann ein elaboriertes Instrumentarium rhetorischer Techniken ebenso zum Einsatz kommen wie einfachere Figuren, die zuweilen sprachliche Grobheiten oder Albernheiten sind. Auf jeden Fall appellieren diese Witze immer an unser Sprachbewusstsein,

und aus den besseren unter ihnen lässt sich manches lernen.

In a small town on the Baltic coast, in a community steeped in maritime industries and local mores, a teenager falls in love with his English professor. Christian looks older than his years, Stella younger than hers. The summer they spend together is filled with boat rides to Bird Island, secret walks on the beach, and furtive glances. The emotions that blossom between

Christian and Stella are aflame with passion and innocence, and with an idealistic hope of a future. The two lovers manage to keep their mutual attraction concealed, but as the hot months comes to an end, their meetings become more difficult to conceal. Stella begins at the end, at Stella Petersen's memorial service, where Christian relives the memories he shared with his first love. There is nothing salacious about their relationship, nor is it just a case of a teenager's crush on his teacher. Their affair changes both Christian and Stella, allows them to expand their views, and pushes them out of social and familial constraints. Theirs is a tender love story of a time, and yet speaks to

any time; it is actually through death that their love is transformed. The sparseness of Siegfried Lenz's narrative is reminiscent of the existential stringency of Ernest Hemingway. Only a master stylist of his standing could compose such a story that is equally modest and powerful, a work that leaves a lasting authentic impression, and that strives to comply with W.H. Auden's famous request, "Tell me the truth about love." *Italian Ways: On and Off the Rails from Milan to Palermo* Leipziger Universitätsverlag Arguably the most stylish city in the world, Paris has long been known for its sleek, sophisticated interiors. From the preface, in English: "There is seldom any indication as to when the photos were taken. Sometimes there is a name, place or year that is noted but often it's difficult to decipher. But for me that isn't a defect. On the contrary, it provides space for stories to arise in the mind of the viewer. The pictures tell of people and their relationships and when we look at the photos we are all of a sudden on a journey into an unfinished and unending past that has become present again. And because we can never know the circumstances of the photo, every one of our stories and explanations is as valid as any other."
