Discover the wonders of Washington's complex ecosystem with this field guide to the district's parks, gardens, urban forests and more. Every neighborhood of Washington, D.C., is home to abundant wildlife, and its large park network is rich in natural wonders. A hike along the trails of Rock Creek Park, one of the country's largest and oldest urban forests, quickly reveals white-tailed deer, eastern gray squirrels, and little brown bats. Mayapples, Virginia bluebells, and red mulberry trees are but a few of the treasures found growing at the National Arboretum. A stroll along the Potomac and Anacostia Rivers might reveal stealthy denizens such as bullfrogs, largemouth bass, and common snapping turtles. In *Field Guide to the Natural World of Washington, D.C.*, naturalist Howard Youth takes readers on an urban safari, describing the wild side of the nation's capital. Detailed

drawings by Carnegie artist Mark A. Klingler and photography by Robert E. Mumford, Jr., reveal the stunning color and beauty of the flora and fauna awaiting every D.C. naturalist. Let's face it—all birds are fascinating, wonderful, idiotic jerks—no matter where in the world they reside. Following in the footsteps of the bestselling book *The Field Guide to Dumb Birds of North America*, this hilarious sequel ventures beyond to identify the stupidest birds around the world. Featuring birds from North and South America, Africa, Asia, Europe, and Oceania, author Matt Kracht identifies the dumb birds that manage to live all over the freaking place with snarky, yet accurate, names and humorous, anger-filled drawings. This guide book details exactly how much these morons suck with facts about each bird's (annoying) call, its (stupid) migratory pattern, and its (downright tacky) markings. Complete with a matching game, bird descriptor checklist, tips on how to identify a bird (you can tell a lot by looking into a bird's eyes, for example), this profanity-laden book offers a balance of fact and wit that will appeal to hardcore birders and casual bird lovers (and haters) alike. A MUST-HAVE: A must-have sequel to the bestselling parody book *The Field Guide to Dumb Birds of North America*. UNIQUE & LAUGH-OUT-LOUD FUNNY: This is a great coffee table or bar top conversation-starting book. And a bonus, while the content is humorous, it is practical and useful! A GREAT PRESENT: This is the perfect gift for the bird lovers and haters in your life. It also makes a great Mother's Day, Father's Day, birthday, retirement, or gag gift. Perfect for: • Birdwatching and nature enthusiasts • Armchair birders (or nonbirders) • Someone who needs a quirky gift for an animal lover friend • People with serious birders in their lives who want something lighthearted

For centuries writers have used participatory experience as a lens through which to better see the world at large and as a means of exploring the self. Considering various types of participatory writing as different strains of one style—immersion writing—Robin Hemley offers new perspectives and practical advice for writers of this nonfiction genre. Immersion writing can be broken down into the broad categories of travel writing, immersion memoir, and immersion journalism. Using the work of such authors as Barbara Ehrenreich, Hunter S. Thompson, Ted Conover, A. J. Jacobs, Nellie Bly, Julio Cortazar, and James Agee, Hemley examines these three major types of immersion writing and further identifies the subcategories of the quest, the experiment, the investigation, the infiltration, and the reenactment. Included in the book are helpful exercises, models for immersion writing, and a chapter on one of the most fraught subjects for nonfiction writers—the ethics and legalities of writing about other people. A Field Guide for Immersion Writing recalibrates and redefines the way writers approach their relationship to their subjects. Suitable for beginners and advanced writers, the book provides an enlightening, provocative, and often amusing look at the ways in which nonfiction writers engage with the world around

them. A Friends Fund Publication.

A radical guide to the language of policing This field guide arms activists—and indeed anyone concerned about police abuse—with critical insights that ultimately redefine the very idea of policing. When we talk about police and police reform, we speak the language of police legitimation through euphemism. So state sexual assault becomes “body-cavity search,” and ruthless beatings “non-compliance deterrence.” In entries such as “police dog,” “stop and frisk,” and “rough ride,” the authors expose the way “copspeak” suppresses the true meaning and history of law enforcement. In field guide fashion, they reveal a world hidden in plain view. The book argues that a redefined language of policing might help us chart a future that’s free. Including explanations of newsmaking terms such as “deadname,” “kettling,” and “qualified immunity,” and a foreword by leading justice advocate Craig Gilmore.

Washington Post columnist Alexandra Petri turns her satirical eye on her own life in this hilarious new memoir... Most twentysomethings spend a lot of time avoiding awkwardness. Not Alexandra Petri. Afraid of rejection? Alexandra Petri has auditioned for America’s Next Top Model. Afraid of looking like an idiot? Alexandra Petri lost Jeopardy! by answering “Who is that dude?” on national TV. Afraid of bad jokes? Alexandra Petri won an international pun championship. Petri has been a debutante, reenacted the Civil War, and fended off suitors at a Star Wars convention while wearing a Jabba the Hutt suit. One time, she let some cult members she met on the street baptize her, just to be polite. She’s a connoisseur of the kind of awkwardness that most people spend whole lifetimes trying to avoid. If John Hodgman and Amy Sedaris had a baby...they would never let Petri babysit it. But Petri is here to tell you: Everything you fear is not so bad. Trust her. She’s tried it. And in the course of her misadventures, she’s learned that there are worse things out there than awkwardness—and that interesting things start to happen when you stop caring what people think.

Finally, a comprehensive book on land conservation financing for community and regional conservation leaders. A Field Guide to Conservation Finance provides essential advice on how to tackle the universal obstacle to protecting private land in America: lack of money. Story Clark dispels the myths that conservationists can access only private funds controlled by individuals or that only large conservation organizations have clout with big capital markets. She shows how small land conservation organizations can achieve conservation goals using both traditional and cutting-edge financial strategies. Clark outlines essential tools for raising money, borrowing money, and reducing the cost of transactions. She covers a range of subjects including transfer fees, voluntary surcharges, seller financing, revolving funds, and Project Related Investment programs (PRIs).
