'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

Kolb has produced a thoroughly researched essay on this painting, which is in the Getty Museum. The study focuses on Brueghel's depiction of nature, especially his exacting representation of identifiable species of animals and birds, the names of which are listed. Brueghel's collaboration with other painters, his and other painters' re-use of the same theme and composition, and the history and practice of natural history collection and representation are central themes. The volume, which is printed in a horizontal format (it's 11x8") and heavily illustrated, is written for a general audience, though

art historians will also find much of interest.

Grace believed she went from losing it all to having it all. In a desperate attempt to put her life back together, Grace, divorced and jobless, leaves Tucson to return to Chicago—a place she never planned to call home again. She also never planned to fall for Benjamin Hayward. Drawn into the fairytale existence of his power and wealth, Grace is unable to see what her family and friends see, and ignores the warning signs of Dr. Benjamin Hayward's dark side. Benjamin's secrets—the death of

his mentally ill wife and the disappearance of his daughter—push Grace into an abyss deeper than the one that brought her home in the first place, and she risks losing even more. *Pieces of Grace* is a complicated story of relationships confused by undercurrents of mental illness. Readers find themselves hoping family and friends can carry Grace through her most difficult moments.

The definitive volume on Middle Eastern cooking, a modern classic from the award-winning, bestselling author of *The Book of Jewish Food* and Claudia Roden's *Mediterranean*. Originally published in 1972 and hailed by James Beard as "a landmark in the field of cookery," this new version represents the accumulation of the author's years of extensive travel throughout the ever-changing landscape of the Middle East, gathering recipes and stories. Now featuring more than 800 recipes, including the aromatic variations that accent a dish and define the country of origin: fried garlic and cumin and coriander from Egypt, cinnamon and allspice from Turkey, sumac and tamarind

from Syria and Lebanon, pomegranate syrup from Iran, preserved lemon and harissa from North Africa. Claudia Roden has worked out simpler approaches to traditional dishes, using healthier ingredients and time-saving methods without ever sacrificing any of the extraordinary flavor, freshness, and texture that distinguish the cooking of this part of the world. Throughout these pages she draws on all four of the region's major cooking styles: • The refined haute cuisine of Iran, based on rice exquisitely prepared and embellished with a range of meats, vegetables, fruits, and nuts • Arab cooking from Syria, Lebanon, and Jordan—at its finest today, and a good source for vegetable and bulgur wheat dishes • The legendary Turkish cuisine, with its kebabs, wheat and rice dishes, yogurt salads, savory pies, and syrupy pastries • North African cooking, particularly the splendid fare of Morocco, with its heady mix of hot and sweet, orchestrated to perfection in its couscous dishes and tagines From the tantalizing mezze—succulent bites of filled fillo crescents and cigars, chopped salads, and stuffed morsels, as well as tahina, chickpeas, and eggplant in their many

guises—to the skewered meats and savory stews and hearty grain and vegetable dishes, here is a rich array of Middle Eastern cooking.

A haunting tribute to the heroic pioneers who shaped the American Midwest This powerful novel by Willa Cather is considered to be one of her finest works and placed Cather in the forefront of women novelists. It tells the stories of several immigrant families who start new lives in America in rural Nebraska. This powerful tribute to the quiet heroism of those whose struggles and triumphs shaped the American Midwest highlights the role of women pioneers, in particular. Written in the style of a memoir penned by Antonia's tutor and friend, the book depicts one of the most memorable heroines in American literature, the spirited eldest daughter of a Czech immigrant family, whose calm, quite strength and robust spirit helped her survive the hardships and loneliness of life on the Nebraska prairie. The two form an enduring bond and through his chronicle, we watch Antonia shape the land while dealing with poverty, treachery, and

tragedy. "No romantic novel ever written in America...is one half so beautiful as My Ántonia." -H. L. Mencken Willa Cather (1873-1947) was an American writer best known for her novels of the Plains and for *One of Ours*, a novel set in World War I, for which she was awarded the Pulitzer Prize in 1923. She was elected a fellow of the American Academy of Arts and Sciences in 1943 and received the gold medal for fiction from the National Institute of Arts and Letters in 1944, an award given once a decade for an author's total accomplishments. By the time of her death she had written twelve novels, five books of short stories, and a collection of poetry.

Smart. Funny. Fearless. "It's pretty safe to say that *Spy* was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose

demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.

A deep exploration of the regenerative and magical secrets of sacred masculinity hidden in familiar myths both ancient and modern • Reveals the restorative fungi archetype of Osiris, the Orphic mysteries as an underground mycelium linking forests and people, how Dionysus teaches us about invasive species and playful sexuality, and the ecology of Jesus as depicted in his nature-focused parables • Liberates Tristan, Merlin, and the Grail legends from the bounds of Campbell's hero's journey and invites the masculine into more nuanced, complex ways of dealing with trauma, growth, and self-knowledge Long before the sword-wielding heroes of legend readily cut down forests, slaughtered the old deities, and vanquished their enemies, there were playful gods, animal-headed kings, mischievous lovers, trickster harpists, and vegetal magicians with flowering wands. As eco-feminist scholar Sophie Strand discovered, these wilder, more magical modes of the masculine have always been

hidden in plain sight. Sharing the culmination of eight years of research into myth, folklore, and the history of religion, Strand leads us back into the forgotten landscapes and hidden secrets of familiar myths, revealing the beautiful range of the divine masculine, including expressions of male friendship, male intimacy, and male creative collaboration. In discussing Dionysus and Osiris, Strand encourages us to think like an ecosystem instead of like an individual. She connects dying, vegetal gods to the virtuous cycle of composting and decay, highlighting the ways in which mushrooms can restore soil and heal polluted landscapes. Exploring esoteric Christianity, the author celebrates the Gnostic Jesus of the Gospel of Thomas, imagining the ecology that the Rabbi Yeshua would have actually been referencing in his nature-focused parables. Strand frees Tristan, Merlin, and the Grail legends from the bounds of Campbell's hero's journey and invites the masculine into more nuanced, complex ways of dealing with trauma, growth, and self-knowledge. Strand reseeds our minds with new visions of male identity and shows how each of us, regardless of gender, can

develop a matured ecological empathy and witness a blossoming of sacred masculine powers that are soft, curious, connective, and celebratory.

Discover the nationally bestselling, true story of a life-changing friendship between a man and his rescue cat, Nala, as they adventure together on a bike journey around the world -- from the Instagram phenomenon @1bike1world. When 30-year-old Dean Nicholson set off from Scotland to cycle around the world, his aim was to learn as much as he could about our troubled planet. But he hadn't bargained on the lessons he'd learn from his unlikely companion. Three months after leaving home, on a remote road in the mountains between Montenegro and Bosnia, he came across an abandoned kitten. Something about the piercing eyes and plaintive meowing of the bedraggled little cat proved irresistible. He couldn't leave her to her fate, so he put her on his bike and then, with the help of local vets,

nursed her back to health. Soon on his travels with the cat he named Nala, they forged an unbreakable bond -- both curious, independent, resilient and adventurous. The video of how they met has had 20 million views and their Instagram has grown to almost 750k followers -- and still counting!

Experiencing the kindness of strangers, visiting refugee camps, rescuing animals through Europe and Asia, Dean and Nala have already learned that the unexpected can be pretty amazing. Together with Garry Jenkins, writer with James Bowen of the bestselling *A Street Cat Named Bob*, Dean shares the extraordinary tale of his and Nala's inspiring and heart-warming adventure together.

A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate

personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Black Elk Speaks, the story of the Oglala Lakota visionary and healer Nicholas Black Elk (1863–1950) and his people during momentous twilight years of the nineteenth century, offers readers much more than a precious glimpse of a vanished time. Black Elk's searing visions of the unity of humanity and Earth, conveyed by John G. Neihardt, have made this book a classic that crosses multiple genres. Whether appreciated as the poignant tale of a Lakota life, as a history of a Native nation, or as an enduring spiritual testament, *Black Elk Speaks* is unforgettable. Black Elk met the distinguished poet, writer, and critic John G. Neihardt in 1930 on the Pine Ridge Reservation in South Dakota and asked Neihardt to share his story with the world. Neihardt understood and conveyed Black Elk's experiences in this powerful and inspirational message for all humankind.

This complete edition features a new introduction by historian Philip J. Deloria and annotations of Black Elk's story by renowned Lakota scholar Raymond J. DeMallie. Three essays by John G. Neihardt provide background on this landmark work along with pieces by Vine Deloria Jr., Raymond J. DeMallie, Alexis Petri, and Lori Utecht. Maps, original illustrations by Standing Bear, and a set of appendixes rounds out the edition.

American Buffalo Grandma Bison's Garden (El Jardin de la Abuela Bistonte) When the Aleppian Jewish community migrated from the ancient city of Aleppo in historic Syria and settled in New York and Latin American cities in the early 20th century, it brought its rich cuisine and vibrant culture. Most Syrian recipes and traditions, however, were not written down and existed only in the minds of older generations. Poopa Dweck, a first generation Syrian-Jewish American, has devoted much of her life to preserving and celebrating her community's centuries-old legacy. Dweck relates the history and culture of her community through its extraordinary cuisine, offering more than 180 exciting ethnic recipes with tantalizing

photos and describing the unique customs that the Aleppian Jewish community observes during holidays and lifecycle events. Among the irresistible recipes are:

- Bazargan–Tangy Tamarind Bulgur Salad
- Shurbat Addes–Hearty Red Lentil Soup with Garlic and Coriander
- Kibbeh–Stuffed Syrian Meatballs with Ground Rice
- Samak b'Batata–Baked Middle Eastern Whole Fish with Potatoes
- Sambousak–Buttery Cheese-Filled Sesame Pastries
- Eras bi'Ajweh–Date-Filled Crescents
- Chai Na'na–Refreshing Mint Tea Like mainstream Middle Eastern cuisines, Aleppian Jewish dishes are alive with flavor and healthful ingredients–featuring whole grains, vegetables, legumes, and olive oil–but with their own distinct cultural influences. In *Aromas of Aleppo*, cooks will discover the best of Poopa Dweck's recipes, which gracefully combine Mediterranean and Levantine influences, and range from small delights (or maza) to daily meals and regal holiday feasts–such as the twelve-course Passover seder. *The Pioneer Woman Cooks* U of Nebraska Press

"A brilliant, witty, and altogether satisfying book." — New York Times Book Review

The classic work on the development of human language by the world's leading expert on language and the mind In *The Language Instinct*, the world's expert on language and mind lucidly explains everything you always wanted to know about language: how it works, how children learn it, how it changes, how the brain computes it, and how it evolved. With deft use of examples of humor and wordplay, Steven Pinker weaves our vast knowledge of language into a compelling story: language is a human instinct, wired into our brains by evolution. *The Language Instinct* received the William James Book Prize from the American Psychological Association and the Public Interest Award from the Linguistics Society of America. This edition includes an update on advances in the science of language since *The Language Instinct* was first published.

INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (*Vanity Fair*). When Mae Holland is hired to work for the Circle, the

world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising

questions about memory, history, privacy, democracy, and the limits of human knowledge.

Yaqui Myths and Legends HarperCollins

How do we understand the boundaries of individual creatures? What are the systems of interdependency that bind all living creatures together? Plants were among the the first to colonize the planet. They created the soil and the atmosphere that made life possible for animals. They are some of the largest and oldest life forms on Earth. In spite of their primacy, Western cultures have traditionally regarded plants as the lowest life forms, lacking mobility, sensation, and communication. But recent research argues that plants move and respond to their environment, communicate with each other, and form partnerships with other species. Art, poetry, and essays by cultural anthropologists, experimental plant biologists, philosophers, botanists and foresters expose the complex interactions of the vibrant living world around us and give us a lens through which we can explore our intertwined histories.

Gardens in the Dunes Vintage

From the host of the Travel Channel's "The Wild Within." A hunt for the American buffalo—an adventurous, fascinating examination of an animal that has haunted the American imagination. In 2005, Steven Rinella won a lottery permit to hunt for a wild buffalo, or American bison, in the Alaskan wilderness. Despite the odds—there's only a 2 percent chance of drawing the permit, and fewer than 20 percent of those hunters are successful—Rinella managed to kill a buffalo on a snow-covered mountainside and then raft the meat back to civilization while being trailed by grizzly bears and suffering from hypothermia. Throughout these adventures, Rinella found himself contemplating his own place among the 14,000 years' worth of buffalo hunters in North America, as well as the buffalo's place in the American experience. At the time of the Revolutionary War, North America was home to approximately 40

million buffalo, the largest herd of big mammals on the planet, but by the mid-1890s only a few hundred remained. Now that the buffalo is on the verge of a dramatic ecological recovery across the West, Americans are faced with the challenge of how, and if, we can dare to share our land with a beast that is the embodiment of the American wilderness. *American Buffalo* is a narrative tale of Rinella's hunt. But beyond that, it is the story of the many ways in which the buffalo has shaped our national identity. Rinella takes us across the continent in search of the buffalo's past, present, and future: to the Bering Land Bridge, where scientists search for buffalo bones amid artifacts of the New World's earliest human inhabitants; to buffalo jumps where Native Americans once ran buffalo over cliffs by the thousands; to the Detroit Carbon works, a "bone charcoal" plant that made fortunes in the late 1800s by turning millions of tons of buffalo bones into bone meal, black dye, and fine china; and even to an abattoir turned fashion mecca in Manhattan's Meatpacking District, where a depressed buffalo named Black Diamond met his fate after serving

as the model for the American nickel. Rinella's erudition and exuberance, combined with his gift for storytelling, make him the perfect guide for a book that combines outdoor adventure with a quirky blend of facts and observations about history, biology, and the natural world. Both a captivating narrative and a book of environmental and historical significance, *American Buffalo* tells us as much about ourselves as Americans as it does about the creature who perhaps best of all embodies the American ethos.

Grandmother's Grandchild Harper Collins

A rare, documented account of the life of a Crow medicine woman, drawn from interviews conducted by legendary writer and ethnographer Frank Bird Linderman and told in her own words. In the spring of 1931, Pretty-shield, a grandmother and medicine healer in the Crow tribe, met Frank Linderman for a series of interviews. When Linderman asked Pretty-shield about her life, the old woman relaxed and laughed. "We shall be here until we die." In this rich account, Linderman, using sign language and an interpreter, pieces together the story of Pretty-shield's extraordinary life, from her youth

migrating across the High Plains with her people to their forced settlement on the reservation, to how she became a medicine woman. Pretty-shield vividly recalls the centuries-long traditions of the Crow people, bringing into focus the many complex facets of Crow womanhood and the ways in which Indigenous communities care for each other. Pretty-shield:

Medicine Woman of the Crows reveals the everyday concerns and deep-rooted customs of tribal life for a new generation coming to terms with the violence and racism of America's past, and offers a fascinating and authentic portrait of the Crow, their customs and traditions, their relationship to nature and healing, and the timeless insights of their lived experiences. As Pretty-shield reminds us,

"Listen to the old ones. . . keep their wisdom within your heart, and understand that wisdom in your mind." An essential contribution to the American experience, Pretty-shield illuminates a segment of our society which has for too long been relegated to the shadows of history, and celebrates Crow life and its contributions to our rich culture.
