This brand-new second edition of the best-selling The Psilocybin Mushroom Bible is the most comprehensive source of information on the market regarding mushroom cultivation, harvesting, and consumption. This

book uses detailed, straightforward language and high-resolution color, step-by-step photos to ensure readers can understand and apply everything they need to know about growing mushrooms. The Psilocybin Mushroom Bible will teach readers the efficient, safe, and quick process of cultivating their own magic mushrooms. In 2015, The Psilocybin

Mushroom Bible was the first new book on magic mushroom cultivation published since 2006. Since its publication, it has sold over 100,000 copies and has established itself as one of the most accessible, enjoyable, and informative books on the topic, with its authors directly assisting home growers through forums and courses in the years since. This new edition expands and revises the original, with brand new photos, "how to" photo essays, new chapters on both low tech and advanced growing methods, and additional indoor and outdoor techniques for new species. Processes include how to build containers and equipment at home and comprehensive

instructions on multiple methods of producing magic mushrooms. This new edition also discusses current research on psilocybin as medicine, the recent decriminalization movements, as well as methods for consuming magic mushrooms, from simply eating them, to making tea or discreet pills, and even turning the mushrooms into delicious treats to be enjoyed with friends. The first edition of The Psilocybin Mushroom Bible was truly groundbreaking and this new edition not only expands on the previous topics with updated research but also provides new, in-depth information and methods that will ensure it continues to be the number one choice for anyone

wanting to know as much as they want about psilocybin mushroom cultivation. *Vest Busters* Sterling Publishing Company Selected writings from the author of *Brave New World* and *The Doors of Perception* on the role of psychedelics in society.

- Includes letters and lectures by Huxley never published elsewhere. In May 1953 Aldous Huxley took four-tenths of a gram of mescaline. The mystical and transcendent experience that followed set him off on an exploration that was to produce a revolutionary body of work about the inner reaches of the human mind. Huxley was decades ahead of his time in his anticipation of the dangers modern

culture was creating through explosive population increase, headlong technological advance, and militant nationalism, and he saw psychedelics as the greatest means at our disposal to "remind adults that the real world is very different from the misshapen universe they have created for themselves by means of their culture-conditioned prejudices." Much of Huxley's writings following his 1953 mescaline experiment can be seen as his attempt to reveal the power of these substances to awaken a sense of the sacred in people living in a technological society hostile to mystical revelations. Moksha, a Sanskrit word meaning "liberation," is a collection of the

prophetic and visionary writings of Aldous Huxley. It includes selections from his acclaimed novels *Brave New World* and *Island*, both of which envision societies centered around the use of psychedelics as stabilizing forces, as well as pieces from *The Doors of Perception* and *Heaven and Hell*, his famous works on consciousness expansion.

**Buyology** The Plough Publishing House Prepare to be swept away by a story that is intimate, true, and utterly compelling. Margi Gibb's much-loved father dies and, with her immediate family largely gone, her life is changed irrevocably. Immersing herself more deeply in art and music, she travels to America to

study the sacred art of the mandala, exploring the wisdom traditions of Indigenous Indian peoples in the process. Then after a serendipitous encounter back in Australia she travels to Dharamsala to care for children in an after school program at a Tibetan women's handicraft cooperative. Her underlying passion is to initiate guitar lessons for Tibetan refugees. What follows is unexpected. Margi's developing bonds with two very different Tibetan men, Tenzin and Yonten, change her life in complex and enduring ways. Eventually she journeys to Tibet. *Kissed by a Deer* is a book about East and West. It is a passionate quest for the personal and intellectual truth

that only comes through lived experience. Gibb's story gives us amazing places, and wonderful characters, people we come to love and care about despite their failings. In its pages, wisdom searchingly finds its humble roots in the connections of heart, imagination and mind; in the midst of the act of living.

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her

fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud,

this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

Similar to The Big Book of Alcoholics Anonymous, Life with Hope thoroughly explains the 12 Steps and 12 Traditions as they relate to marijuana addicts and those with cannabis use disorder. This is an essential resource for anyone seeking recovery through Marijuana Anonymous (MA). "How can we tell you how to recover? We cannot. All we can do is share with you our own experiences

and recovery through the Twelve Steps of Marijuana Anonymous." Similar to The Big Book of Alcoholics Anonymous, Life with Hope thoroughly explains the Twelve Steps and Twelve Traditions as they relate to individuals with cannabis use disorder. The text includes the 12 Steps and the 12 Traditions, fifteen personal stories from Marijuana Anonymous members, and the section, A Doctor's Opinion about Marijuana Addiction. Life with Hope is an essential resource for the marijuana addict and for anyone with a cannabis use disorder who is seeking recovery through Marijuana Anonymous (MA). The text is ideal for newcomers, people

who are in active addiction, and anyone interested learning more about how marijuana addiction affects people's lives.

In a world that views absolute truth, right and wrong, and salvation as being subject to individual interpretation, the Bible's unwavering proclamations and miraculous stories seem obsolete in modern times. But it is not God's Word that has changed. Indeed, its relevancy and its power to transform lives are intact. What

has changed is the number of people who consult it. Now more than ever the need to read the Bible, to understand the big picture of its storyline, and to grasp the relevance this has for your life is critical. As with its companion volume, *For the Love of God-Volume 2*, this devotional contains a systematic 365-day plan, based on the M'Cheyne Bible-reading schedule, that will in the course of a year guide you through the New Testament and Psalms twice and the rest of the Old Testament once. In an effort to help preserve biblical thinking and living, D. A. Carson has also written thought-provoking comments and reflections regarding each day's scriptural passages.

And, most uniquely, he offers you perspective that places each reading into the larger framework of history and God's eternal plan to deepen your understanding of his sovereignty-and the unity and power of his Word.

This celebration of the Second Amendment makes the point that if one's ammunition is made useless, what one has is then the de facto repeal of the Second Amendment. This repeal would have disastrous consequences, as shown by many historical examples given in the text wherein the

disarmament of the civilian population was the prelude to mass homicidal or genocidal slaughters. In the text, I detail which types of ammunition are suitable for use against body armor clad intruders, and then I proceed to give in great detail how to increase their usefulness by coating the projectile with a layer of teflon. Coating details are given for both commercially available ammunition, and for home turned solid steel projectiles.

If you're interested in Plato, you're reading the wrong book. If

you're interested in difficult childhoods, sexual misadventures, aesthetics, cultural history, and the reasons that a club sandwich and other meals--including breakfast--have remained in the memory of the present writer, keep reading. -- from *Feelings Are Facts*

In this memoir, dancer, choreographer, and filmmaker Yvonne Rainer traces her personal and artistic coming of age. *Feelings Are Facts* (the title comes from a dictum by Rainer's one-time psychotherapist) uses diary entries, letters, program notes, excerpts from film scripts, snapshots, and film frame enlargements to present a vivid portrait of an extraordinary

artist and woman in postwar America. Rainer tells of a California childhood in which she was farmed out by her parents to foster families and orphanages, of sexual and intellectual initiations in San Francisco and Berkeley, and of artistic discoveries and accomplishments in the New York City dance world. Rainer studied with Martha Graham (and heard Graham declare, "when you accept yourself as a woman, you will have turn-out"--that is, achieve proper ballet position) and Merce Cunningham in the late 1950s and early 1960s, cofounded the Judson Dance Theater in 1962 (dancing with Trisha Brown, Steve Paxton, David Gordon, and Lucinda Childs),

hobnobbed with New York artists including Robert Rauschenberg, Robert Morris (her lover and partner for several years), and Yoko Ono, and became involved with feminist and anti-war causes in the 1970s and 1980s. Rainer writes about how she constructed her dances--including *The Mind Is a Muscled* and its famous section, *Trio A*, as well as the recent *After Many a Summer Dies the Swan*--and about turning from dance to film and back to dance. And she writes about meeting her longtime partner Martha Gever and discovering the pleasures of domestic life. The mosaic-like construction of *Feelings Are Facts* recalls the composition-by-juxtaposition of

Rainer's work in film and dance, displaying prismatic variations from what she calls her "reckless past" for our amazement and appreciation.

**In Search of Stupidity** *Crossway Poisons* and the art of killing with stealth are part of humanity's folklore and heritage, and in the homicidal manifesto, master chemist Uncle Fester has turned his attention to the venomousness that *Homo Sapiens* has wrought -- and how these toxic substances are gathered, synthesized, and put to use. Fester's fascinating study includes: *Inorganic Poisons -- War Gases -- Nerve Gases -- CIA Shellfish Toxins -- Time Delay Poisons -- Botulism -- And much*

more.

Tihka! Insomniac Press  
Traces the origins of the black rage defense in criminal court history In 1971, Paul Harris pioneered the modern version of the black rage defense when he successfully defended a young black man charged with armed bank robbery. Dubbed one

of the most novel criminal defenses in American history by Vanity Fair, the black rage defense is enormously controversial, frequently dismissed as irresponsible, nothing less than a harbinger of anarchy. Consider the firestorm of protest that resulted when the defense for Colin Ferguson, the gunman who murdered numerous passengers on a New York commuter train, claimed it was considering a black rage defense. In this thought-provoking book, Harris traces the origins of the black rage defense back through American history, recreating numerous dramatic trials along the way. For example, he recounts in vivid detail

how Clarence Darrow, defense attorney in the famous Scopes Monkey trial, first introduced the notion of an environmental hardship defense in 1925 while defending a black family who shot into a drunken white mob that had encircled their home.

Emphasizing that the black rage defense must be enlisted responsibly and selectively, Harris skillfully distinguishes between applying an environmental defense and simply blaming society, in the abstract, for individual crimes. If Ferguson had invoked such a defense, in Harris's words, it would have sent a superficial, wrong-headed, blame-everything-on-racism message. Careful not to succumb to easy generalizations, Harris

also addresses the possibilities of a white rage defense and the more recent phenomenon of cultural defenses. He illustrates how a person's environment can, and does, affect his or her life and actions, how even the most rational person can become criminally deranged, when bludgeoned into hopelessness by exploitation, racism, and relentless poverty. *Awake in a Nightmare* New Press, The A memoir *Black Rage Confronts the Law* Loompanics Unltd From its inaugural Black Plaque in honour of Witchfinder General director Michael Reeves, this unique collection follows a veridical trajectory to the frontiers of belief.

Reeves' film becomes a conspiratorial cauldron drawing in a host of tragic players in the end game of the Sixties. The Cornwall of Du Maurier's *The Birds* is ploughed to reveal the hidden psychic codes of our Blitz spirit. In a powerfully relevant occult rendering of a bruised Island, the myth of Churchill is dissected and re-animalised. New maps of hell are drawn by colliding the forensic vision of JG Ballard and Lovecraftian magic. Actors, witches and psychopaths maraud across a nightmare terrain of murderous henges and abandoned military bases; conflating creative research into a surreal documentary, history as hallucination. Geography becomes an alchemical alembic,

a vale of soul-making distilled by the lysergic psychobiology of Stanislav Grof, the alcoholic lyricism of Malcolm Lowry, and the convulsive travelogues of the Marquis de Sade. If history is revealed as paranoid ritual, how do we escape its time traps to wild new imaginative geographies? The English Heretic collection is a darkly comical, urgently lyrical, mental escape hatch from the hells of our own making.

 "The Science of  
 Willpower," The  
 Willpower Instinct is  
 the first book to

explain the science of  
 self-control and how it  
 can be harnessed to  
 improve our health,  
 happiness, and  
 productivity. Informed  
 by the latest research  
 and combining cutting-  
 edge insights from  
 psychology,  
 economics,  
 neuroscience, and  
 medicine, The  
 Willpower Instinct  
 explains exactly what  
 willpower is, how it  
 works, and why it  
 matters. For example,  
 readers will learn: •  
 Willpower is a mind-  
 body response, not a  
 virtue. It is a biological  
 function that can be  
 improved through  
 mindfulness, exercise,  
 nutrition, and sleep. •  
 Willpower is not an  
 unlimited resource. Too  
 much self-control can  
 actually be bad for  
 your health. •  
 Temptation and stress

hijack the brain's systems of self-control, but the brain can be trained for greater willpower • Guilt and shame over your setbacks lead to giving in again, but self-forgiveness and self-compassion boost self-control. • Giving up control is sometimes the only way to gain self-control. • Willpower failures are contagious—you can catch the desire to overspend or overeat

from your friends—but you can also catch self-control from the right role models. In the groundbreaking tradition of *Getting Things Done*, *The Willpower Instinct* combines life-changing prescriptive advice and complementary exercises to help readers with goals ranging from losing weight to more patient parenting, less procrastination, better health, and greater productivity at work.
