This study analyzes chamber music from Mozart's time within its highly social salon-performance context.

Technical Studies (Complete) Alfred Music

SONATA PER ARPEGGIONE VIOLA AND PIANO G Schirmer Incorporated

Schubert's Beethoven Project Alfred Music

"Fisk's portrayal of Schubert is based on evidence from the composer's hand, both verbal (song texts and his written words) and musical (vocal and instrumental). Noting extraordinary aspects of tonality, structure, and gestural content, Fisk argues that through his music Schubert sought to alleviate his apparent sense of exile and his anticipation of early death. Fisk supports this view through close analysis of the cyclic connections within and between the works he explores, finding in them complex musical narratives that attempt to come to terms with mortality, alienation, hope, and desire."--BOOK JACKET.

Sonata in A minor for viola and piano Cambridge University Press

(String Solo). For unaccompanied cello.

Returning Cycles G Schirmer Incorporated

This edition of the Bach Cello Suites is appealing to both the scholar and the performer. The genesis of this edition was the alignment of the relevant manuscripts for easy comparison and study using a line-by-line layout. It has resulted in the ultimate scholarly approach to the study of these manuscripts and has led to many discoveries concerning notes, trills, dots, dynamics, and rhythm. In the scordatura version of "Suite No. 5," pitch names are given above the notes for the re-tuned top string, clarifying confusing elements in the notation. Fingerings and bowings in this edition reflect those used on the DVD set of Starkweather's performance of the suites (item number 730150). Reference to the manuscript edition makes it possible to visually assess the ambiguity of many of the slurs and to reach one's own conclusions.

The Essential Canon of Classical Music G. Schirmer, Incorporated (String Solo). A collection of the most beautiful Russian pieces for Double Bass and Piano, encompassing the period from Late Romanticism to Avant-garde: Tchaikovsky, Gliere, Koussevitzky,

Schillinger.

Sonata in D Major, K. 311 Alfred Music

Re-engraved, corrected editions by Artur Schnabel, with Schnabel's notes and comments in five languages. Volume One contains Sonatas One through Seventeen and Volume Two contains Sonatas Eighteen through Thirty-Two.

32 Sonatas, Vol 2 Univ of California Press

Until comparatively recent times very little had been written for the viola as a solo instrument. Our contemporary composers have done a great deal to remedy this situation. Bax, Beresowsky, Bliss, Bloch, Delius, Hindemith, Honegger, Milhaud, Vaughan Williams, Walton and many others have contributed important sonatas, suites and concertos for the viola. Many new works are constantly being added. This new literature has placed new demands upon the violist, who in the past found a place only as an orchestra or chamber music player. Higher standards of technical perfection are required. It therefore occurred to me that the "Scale System" published by the eminent pedagogue and violinist Carl Flesch, regarded as a standard work by violinists the world over, would be equally valuable to violists if translated into their medium. I have undertaken this task with the encouragement of Professor Carl Flesch. The publishers and I hope that it will be found useful by performers and teachers of the viola. Charlotte Karman New York October 1941

Eighteen exercises or études for flute Cambridge University Press

inch....this work is likely to become a standart work very quickly and is to be recommended to all schools where recorder studies are undertaken inch. (Oliver James,Contact Magazine) A novel and comprehensive approach to transferring from the C to F instrument. 430 music examples include folk and national songs (some in two parts), country dance tunes and excerpts from the standard treble repertoire of•Bach, Barsanti, Corelli, Handel, Telemann, etc. An outstanding feature of the book has proved to be Brian Bonsor's brilliantly simple but highly effective practice circles and recognition squares designed to give, in only a few minutes, concentrated practice on the more usual leaps to and from each new note and instant recognition of random notes. Quickly emulating the outstanding success of the descant tutors, these books are very popular even with those who normally use tutors other than the Enjoy the Recorder series.

Scale Studies Anchor

From How To Use This Book: This handbook has been compiled as a reference book for cello students-those working with the cello by themselves as well as those taking lessons. It offers information of all sorts, ranging from the rudiments of music notation, to ideas that illuminate the music the cellist plays and hears. Everything in the book is applicable to the performance of music and to playing the cello. This handbook is not a substitute for a teacher. It is not an instructional manual for learning to play the cello. It deals with "what" and "why" but not "how". Cello players without any knowledge of theory-or those who have only a sketchy acquaintance with it-may find what they need to know in the theory sections of this book. Those who already understand theory, but not much about the cello, can skip to the sections on the instrument. There are also subjects of general interest to all

The Sonata Ravenio Books

The ultimate guide to classical composers and their music-for both the novice and the experienced listener Music, according to Aaron Copland, can thrive only if there are "gifted listeners." But today's listeners must choose between classical and rock, opera and rap, and the choices can seem overwhelming at times. In The Essential Canon of Classical Music, David Dubal comes to the aid of the struggling listener and provides a cultural-literacy handbook for classical music. Dubal identifies the 240 composers

whose works are most important to an understanding of classical music and offers a comprehensive, chronological guide to their lives and works. He has searched beyond the traditional canon to introduce readers to little-known works by some of the most revered names in classical music-Bach, Haydn, Mozart, Schubert-as well as to the major works of lesser-known composers. In a spirited and opinionated voice, Dubal seeks to rid us of the notion of "masterpieces" and instead to foster a new generation of master listeners. The result is an uncommon collection of the wonders classical music has to offer.

Library of Congress Subject Headings Warner Bros. Publications

With the same authority, insight, and unique ability to bring music to life on the printed page that he brought to his Guide to Chamber Music, Melvin Berger gives us an indispensable guide to the sonata form. Comprehensive, analytical, and historical, including descriptions in nontechnical language of over two hundred of the best best-known sonatas, Guide to Sonatas is designed to help all music lovers-casual listeners, experienced concertgoers, performers, conductors, or teachers-deepen their understanding and enhance their enjoyment of the classical repertoire.

Scale System — Viola (O2921) CreateSpace

A duet, for Piano, composed by Wolfgang Amadeus Mozart for two pianos and four hands.

Scales for Advanced Violists Cambridge University Press

Intended as a supplement to The Mechanical Muse: The Piano, Pianism and Piano Music, c.1760-1850, this Companion provides additional information which, largely for reasons of space but also of continuity, it was not possible or desirable to include in that volume. The book is laid out alphabetically and full biographical entries are provided for all musical figures mentioned, including composers, performers, theoreticians and teachers, as well as piano makers and publishers of music, within the period covered by The Mechanical Muse. There are also entries on figures of importance from outside the period but whose influence is palpably important within it, such as J.S. Bach. As well as biographical information, all these entries contain lists of principal works and a section on further reading so that readers can follow up people and matters of particular interest. Also included in The Companion are entries devoted to particular works and other information of relevance, such as descriptions of musical forms, characteristics of dances and so on, as well as some technical information on music and explanations of technical terms pertaining to keyboard instruments themselves and to ways of playing them. This Companion is not intended to replace existing reference books such as Grove or Musik in Geschichte und Gegenwart, but will be useful for those who desire to know more about a particular topic and do not necessarily have access to more specialist reference works, or time to visit large or specialist libraries. As such it is indispensable to users of The Mechanical Muse.

Six Suites for Violoncello Solo Independently Published (arranged)

Mozart's Music of Friends Ashgate Publishing, Ltd.

The studies for viola by Franz Anton Hoffmeister (1754-1812) can be considered as one of the most important works written for viola players in this period nearly to the 19th century. This urtext edition is made from a complicated source, it is a facsimile of the first edition of the twelve studies that are divided into two books, therefore, this version tries to get as close as possible to the real intentions of Hoffmeister to provide interpretation opportunities to both professional and amateur musicians in a clear and spacious manner, also presents a musical text that is not limited by the philosophy of over-publishing of the 19th century.

Convenient page turns for individual study and some parenthetical suggestions for slurs, dynamics and tempo have been offered by the editor. Los estudios para viola de Franz Anton Hoffmeister (1754-1812) pueden ser considerado como una de las obras más importantes hecha para los ejecutantes de viola en este período cercano al siglo XIX. La presente edición urtext está realizada a partir de una fuente complicada, se trata de un facsímil de la primera edición de los doce estudios que están dividido en dos libros, por lo tanto, esta versión trata de acercarse lo más posible a las intenciones reales de Hoffmeister para brindar oportunidades de interpretación tanto a músicos profesionales como aficionados de una manera clara y espacios, además presenta un texto musical que no está limitado por la filosofía de sobreedición del siglo XIX. Se han proporcionado

pases de páginas cómodas para el estudio individual y algunas sugerencias entre paréntesis de ligaduras, matices y de tempo por el editor.
