Youth participation is not an end in itself, but a means of achieving positive changes in young people's lives and of building better democratic societies. Participation is a fundamental human right recognised, among others, in the Universal Declaration of Human Rights and the Convention on the Rights of the Child. Participation is also

a core principle of human rights and is a condition for effective democratic citizenship for all people. The aim of the Council of Europe's youth policy is to provide young people with equal opportunities and experience which enable them to develop the knowledge, skills and competencies to play a full part in all aspects of society. Youth participation is at the core of youth policy in the Council of Europe, which includes co-management as a form of sharing power with youth representatives. Youth participation is promoted across the various sectors of the

Council of Europe. The revised European Charter on the Participation of Young People in Local and Regional Life, adopted in May 2003 by the Congress of Local and Regional Authorities of the Council of Europe, is a standard-setting instrument for youth participation. It supports young people, youth workers, youth organisations and local authorities in promoting and enhancing meaningful youth participation at local and regional level across Europe. The manual "Have your say!" was produced to support local and regional authorities, youth

organisations and young people who want to give young people a real say for a meaningful democratic youth participation. According to the Charter, participation is about having the right, the means, the space and the opportunity and, where necessary, the support to participate in and influence decisions and engage in actions and activities so as to contribute to building of a better society. The manual "Have your say!" is an educational and practical tool to support all those committed to making that right a reality for more young people in the Council of Europe member states.

Dario Fo demonstrates his comedic skills to a live audience. Filmed at the Teatro Argentina in Rome in 1984.

Da Capo Heinle & Heinle Publishers

A new edition of a comprehensive text, updated throughout, with new material on behavioral economics, international taxation, cost-benefit analysis, and the economics of climate policy. Public economics studies how government taxing and spending activities affect the economy—economic efficiency and the distribution of income and wealth. This comprehensive text on public economics covers the core topics of market failure and taxation as well as recent developments in both policy and the academic literature. It is unique not only in its broad scope but in its balance between public finance and public choice and its combination of theory and relevant empirical evidence. The book covers the theory and methodology of public economics; presents a historical and theoretical overview of the public sector; and discusses such topics as departures from efficiency (including imperfect

competition and asymmetric information), issues in political economy, equity, taxation, fiscal federalism, and tax competition among independent jurisdictions. Suggestions for further reading, from classic papers to recent research, appear in each chapter, as do exercises. The mathematics has been kept to a minimum without sacrificing intellectual rigor; the book remains analytical rather than discursive. This second edition has been thoroughly updated throughout. It offers new chapters on behavioral economics, limits to redistribution, international taxation, cost-benefit analysis, and the economics of climate policy. Additional exercises have been added and many sections revised in response to advice from readers of the first edition.

Diritto civile. Manuale breve. Tutto il programma d'esame con domande e risposte commentate. Giuffrè Editore

This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate

post-World War II period to the turn of the twenty-first century. Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.

Capovolgere il mondo per rimetterlo in piedi Routledge

Il lusso è un fenomeno antico legato alla storia delle culture e dei costumi, allo sviluppo dei sistemi economici e all'evoluzione del pensiero filosofico. Considerato a lungo fattore di corruzione e di disequilibri sociali, di instabilità politica e degrado morale, il lusso diventa, nell'età moderna, fattore decisivo e strategico del capitalismo e, nel contempo, oggetto di accese polemiche filosofiche circa l'utilità del superfluo e la sua giustificazione morale. Questo libro parte da un'analisi genealogica del concetto di lusso attraverso un dialogo con i molti autori che lo hanno analizzato per concentrarsi poi sull'esperienza del lusso nelle sue mutevoli pratiche e performance,

ponendosi dal punto di vista dei grandi marchi – soprattutto della moda – che creano e maneggiano il lusso e soffermandosi in particolare sulla formazione dei “lavoratori” del lusso.

Manuale della politica estera italiana Ugo Mursia Editore

The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of “islands” both distinct and connected. Though drawing on philosophers of Europe’s past, Cacciari calls not to resist Europe’s sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today’s politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

The Architecture of Pica Ciamarra

Associati Verso Books

Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati (www.pcaint.eu) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d'architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements, combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have

the aim of becoming absorbed within a context as 'informed fragments'. This monograph is the result of an intensive period of work and consists of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice. Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlight the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embracing innovation and tradition to an

equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical thought and a thriving cultural life. *Gazzetta ufficiale della Repubblica italiana. A History of China Giuffrè Editore

Living among other people, in their families and communities, children become aware from a very early age of questions related to justice, and they

search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Compasito manual on human rights education for children' is for. 'Compasito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a sense of justice, and help them learn how to take action to contribute to the betterment of their school or community. The manual also gives practical tips on how it can be used in various formal and non-formal educational settings.

The Open Door EDT srl

This rich and absorbing history of China from earliest times to the present covers the country's complex political and economic structures and culture in a concise yet nuanced manner. For this new edition, Roberts has developed his analysis of recent interpretations of Chinese history, especially those relating to prehistory and early history, intellectual and cultural trends, China's relationships with her neighbours and the wider world, the rise of the Communists and the role of women in Chinese society.

The Catcher in the Rye EDT srl

The theorists of art and film commonly depict the modern audience as aesthetically and politically passive. In response, both artists and thinkers have sought to transform the spectator into an active agent and the spectacle into a communal performance. In this follow-up to the acclaimed *The Future of the Image*, Rancière takes a radically different approach to this attempted emancipation. First asking exactly what we mean by political art or the politics of art, he goes on to look at what the tradition of critical art, and the desire to insert art into life,

has achieved. Has the militant critique of the consumption of images and commodities become, ironically, a sad affirmation of its omnipotence?

Compasito Edizioni Scientifiche Italiane
From King Lear to the Tragedy of Carmen, from Marat/Sade to the epic Mahabharata, Peter Brook has reinvented modern theatre, not once but again and again. In

The Open Door the visionary director and theorist offers a lucid, comprehensive exposition of the philosophy that underlies his work. It is a philosophy of paradoxes: We come to the theatre to find life, but that life must be different from the life we find outside. Actors have to prepare painstakingly yet be willing to sacrifice the results of their preparation. The director's most reliable tool may be his capacity to

be bored. Brook illustrates these principles with anecdotes that span his entire career and that demonstrate his familiarity with Shakespeare, Chekhov, and the indigenous theatres of India and Iran. The result is an unparalleled look at what happens both onstage and behind the scenes, fresh in its insights and elegant in its prose.
