Shortly after the
publication of W.D.
Gann: Divination By
Mathematics:
Harmonic Analysis, I
came across some
material I had not seen
related to the same

subject matter. In addition, there was a connection to Gann, and it seemed to answer some of the questions I had left off with in that publication. Thus, one of the goals of this book is to simply share this additional information along with the ideas that have resulted from its investigation. These new ideas are based on the four factors of Price, Time, Volume, and Velocity. Based on the Gann material in the public domain, it appears that various combinations of these factors are referenced as early as 1933. In fact, Gann states that every investor and trader should know the relationship between Time to Price and Volume. In the majority of instances where

they are mentioned, the Master Time Factor is mentioned along with them. Since knowledge of the relationship between these factors was deemed important by Gann, the main goal of this book is to explore their relationship to each other, and to define what each of them means in the context of Gann's own words. It is my hope that the reader will find something valuable within these pages to further their own research and study. [A Trader's Note on W. D. Truth of the Stock Tape: How to Predict Movements in Stock and Commodity Prices, and Trade on the Markets with Success J W Martin Pub

William Gann, a stocks and commodities trader with ample experience, shares advice to those new to trading on the stock market. As an early work of Gann's, the *Truth of the Stock Tape* advises the reader on how to anticipate and react to various movements in the stock market. The methodology Gann employed in his earlier career is more concerned with the psychology of the market. Gann begins by noting how traders

with patience and nerve - backed up by sound evidence that a company is or imminently will perform well - tend to win out versus the impatient, nervous and flighty investors. Later in life, Gann became famous for supplementing his investment strategies with the use of astrology. He believed that the alignments of the planets influenced how investors behaved on a trading day, and created many courses to demonstrate the effectiveness of his strategy and predictive charts. Gann's charting strategy attracted a following which exists to this day, with computer software mimicking his methods.

When I wrote TRUTH OF THE STOCK TAPE in 1923, it was because there was a demand for a book of that kind. People needed the help that I could give them and the benefit of my experience and knowledge. In that book I gave the best I had and received my reward. People appreciated my efforts. They bought the book then and they are still buying it. They say it is a good book and more than worth the money. That is very gratifying to me. After the 1929 bull market culminated there was a demand for a new book to meet changed conditions under the so-called

“New Era,” so I wrote WALL STREET STOCK SELECTOR in the spring of 1930. I gave freely of my knowledge and the benefit of years of experience. This book helped others to protect their principal and make profits. People who read the book pronounced it one of the best. It is still selling, and again I have been rewarded. No man can learn all there is to know about forecasting the trend of stocks in 3, 5, 10, or 20 years, but if he is a deep student and hard worker, he learns more and knowledge comes easier after years of experience. I knew more about determining the trend of stocks in 1923 than I did in 1911. Seven more years of experience gave me more knowledge and

enabled me to write the WALL STREET STOCK SELECTOR in 1930 and give my readers the benefit of my increased knowledge. Now, after five more years have elapsed, my experience and practical test of new rules have enabled me to learn more of value since 1930. The 1929-1932 panic and what has followed since, gave me valuable experience and I have gained more knowledge about detecting the right stocks to buy and sell. I cannot lose if I pass this knowledge on to those who will appreciate it.

defined a change in trend2) WD Gann meant by "sections"3) WD Gann told the definite confirmation of change of trend4) WD Gann meant by "price ahead time"5) WD Gann referred to on the market actions along with its 45 degree angle6) the above WD Gann terms are related to one another7) WD Gann meant by "squaring time with top or extreme high price"8) WD Gann referred as safe selling pointsin a) today's language and with b) examples in today's marketHowever, this book is not only targeted for beginners, but it is also a guidebook for experienced WD Gann students on how to study WD Gann properly; and this guidebook will force

you to re-think what WD Gann is really about and you should have some new inspirations because of this book. It gives you a correct starting point to study WD Gann, a path guided from an insider. It also describes how the explained WD Gann trading method has helped the author to pocket 2,000+ pips in euro in 2002-2006.

How to Make Profits Trading in Commodities

WWW.TheRichestManInBabylon.org

Most people buy a stock because they hope it will go up and they will make profits. They buy on tips, or what someone else thinks, without any concrete knowledge of their own that the stock will advance. Thus they entered the market wrong and did

not recognize this mistake or attempt to correct it until too late. Finally they sell because they fear the stock will go lower and often they sell out near low levels, getting out at the wrong time, making two mistakes, getting in the market at the wrong time and getting out at the wrong time. One mistake could have been prevented: they could have gotten out right after getting in wrong. They do not realize that operating in Stocks and Commodities is a business or a profession, the same as engineering or the medical profession. Wall Street Stock Selector Lambert Gann Pub 2009 reprint of the 1936 edition. William Delbert Gann (1878 -

1955) also known as W. D. Gann, was a finance trader who developed the technical analysis tool known as Gann angles. Gann market forecasting methods are based on geometry, astrology, and ancient mathematics. Opinions are sharply divided on the value and relevance of his work. Gann wrote a number of books on trading, including the *New Stock Trend Detector*. Gann sold the techniques in this book alone for \$500 to \$1,000 in the 1930's and 1940's. Gann has developed a very faithful group of followers and adherents.

dates from 1921 to
1923, and in the
1920's Sepharial
produced most of his
known Arcana or Keys
to the markets, though
he states in his
advertisements that
these systems had
been in development
since 1898. Professor
Weston represents the
earliest application of
Fourier Sequences to
market analysis, by
breaking down
component cycle
waves and combining
them to produce a
composite model.
Weston was a regular
contributor to Frederick
White's journal, "The
Adept." Weston was
also one of the first to
propose a theory of the
10 year cycle, actually
with two different
versions of the ten

year pattern. The first is his computation based on 50 years of data, of a series composed of 14, 20 and 28 months, called the Venus term and based upon the Heliocentric system. The second is a sequence which divides the Jupiter/Saturn cycle into 10 irregular parts, but follows the Geocentric system. Professor Weston was a great influence on Gann, implied by his manuscript being locked in Gann's safe, and he may have been the one who introduced Gann to Fourier cycle theory, providing Gann with the foundation for his 10 year cycle with its multiples. Extremely scarce content, 47 pp. *Truth of the Stock Tape: How to Predict*

Movements in Stock and Commodity Prices, and Trade on the Markets with Success (Hardcover) Pickle Partners Publishing
 Summary: "The Thirty-Second Jewel gives advanced financial market traders, investors, and analysts the technical analysis skills that evolved over a career by a global leader. This book contains an extensive, long anticipated, major release of W.D. Gann's methods of Price and Time. Includes detailed information about the Law of Vibration with application. The book contains an analysis of Panics - 1800 to 2050. Other topics include: Global Cash flow, Euclid geometry, Harmonic Cycle Analysis, Pythagorean applications, Advanced Fibonacci, Critical

Reasoning and Logic Trees for Decision Analysis. Nothing withheld. (ADVANCED LEVEL)" - provided by the Author/Publisher.

Pattern, Price and Time Cosmological Economics

Investors clearly could do much better if they knew what lies ahead. The stock market, a conclusion coming into being after countless buy or sell activities of investors. but it must conform to the general law of the universe, as investors are part of nature or we called cycle. Importantly, knowing where we currently stand regarding the economic cycle and the market cycle can give us a better idea of what lies ahead. WD Gann Said " If you stand at the right starting point and with

the cycle of reappearing history ready, predicting what will happen in 100 years or even 1,000 years can be as easy as predicting that in 1 or 2 years." "There's no better teacher than history in determining the future." Since the 1900's, economists in western countries have engaged in the study the law of the cycle, and all believed that there was a long-term law in the economic growth or recession. There is noting new thing under the sun. In 1930, the American economist S. Kuznets proposed a business cycle applying to housing construction, with an average length of 20 years. This long-term cycle is known as the "Kuznets" cycle or building cycle. C Juglar, a French economist,

published his *Business Crisis and Cycle in France, Britain, and the United States* in 1862. In this book, he pointed out that the capitalist economy fluctuated every nine to ten years, as generally called "Juglar cycle". Joseph Schumpeter took this as the "medium-term cycle", or the "Juglar cycle". All research prove the economic cycle is existing. In the last few years, I used the name of "SiuLung" to publish my prediction. In Chinese, 'Siu' stands for little and "Lung" stands for dragon. So "Siulung" means modest but powerful and lofty aspirations. After reading this book, you will understand the power of cycle, Gann, Financial Astrology and Siulung's Gann

Reversal Day. *Mastering the Siulung's Gann Reversal Day* reveals how cycles not only coincide with, but also cause, financial market risk and opportunity.

Gann Master Charts Unviewed Lulu.com

This course contains one of two of Gann's greatest courses, the Master Time Factor Course. We know he considered it his most important course, by his original 1939 price being \$2,500.00. This course has remained unavailable since the time Gann sold it himself. Included with it are a number of further rare Stock Forecasting Courses which have been almost unknown until this time.

Health Research Books

2019 Reprint of 1927 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition software. The Tunnel Thru the Air, Or Looking Back from 1940 is a science fiction novel written by market forecaster William Delbert Gann in 1927. In the Foreword, Gann hinted that this book is more than just a novel because it contains a valuable secret, clothed in veiled language. According to Gann, some will find it the first time they read it, others will see it in the second reading, but the greatest number will find the hidden secret when they read it the third time. Some traders believe Gann had encoded some techniques of financial

astrology into this book and some even claim that they have devoted a lifetime to study this text.

liCreateSpace
[The W. D. Gann Stock Market Course](#)

For those traders who have read Gann's books or studied his Trading Courses the name of W.D. Gann and his accomplishments are well known. For the others, a brief outline of his record should prove interesting. Gann is considered to be one of the most successful commodity traders in history. In a career that spanned over 50 years, he is supposed to have taken 50 million dollars out of the stock and commodity markets.

The accuracy of these figures cannot be verified but it is known that Mr. Gann lived quite well for his time. There were several magazine and newspaper articles that described his accomplishments. One observer watched Gann make 286 stock transactions during the month of October 1909. Of those trades, 264 or 92% were profitable. On another occasion, he turned a \$130 account into \$12,000 in less than a month. He had the ability to call a market turn within one day and highs and lows to an eighth of a point. All of these claims are a matter of public record. Gann's trading philosophy can be described in his own words: Through the law of vibration every stock

and commodity in the marketplace moves in its own distinctive sphere of activities, as to intensity, volume and direction; all the essential qualities of its evolution is characterized in its own rate of vibration. Stocks and commodities, like atoms, are really centers of energies, therefore they are controlled mathematically. They create their own field of action and power; power to attract and repel, which explains why certain stocks and commodities at times lead the market and turn dead at other times. Thus to speculate scientifically it is absolutely necessary to obey natural law. Vibration is fundamental; nothing is exempt from

this law; it is universal, therefore applicable to every class of phenomena on the globe. Thus, I affirm, every class of phenomena, whether in nature or in the market, must be subject to the universal laws of causation, harmony and vibration. The purpose of this book is to show you what can be done forecasting the markets via Gann methods through the use of the unique Ganntrader 3.0

program produced by Peter Pich. Gann discovered some valuable but often unbelievable laws that govern the markets. The primary purpose of Ganntrader is to allow you an efficient way to test Gann's discoveries in order to confidently integrate them into your own trading system. The following will go through actual software program setup so you understand the basics of the entire process. Truth of the Stock Tape
