But Jaxom knew better, knew he could teach his dragon to fly and to destroy the deadly silver Threads that fell from the sky. Disobeying all rules, Jaxom and Ruth trained in secret. Their illicit flights seemed but a minor disobedience - until they found themselves in the path of danger and in a position to prevent the biggest disaster of all.

After a vicious plague swept through the world of Pern, there are no longer enough dragons to fight off the current onslaught of Thread, the deadly spore that falls like rain from the skies and devours everything organic in its path. Pern's last best chance to rebuild the decimated dragon population lies with a group of young dragonriders and their dragons left stranded on an unexplored island. Leadership of these dragons and riders falls to Xhinna, female rider of a blue dragon, who, as the most experienced dragonrider in the new Weyr, must earn the respect of all who follow her, as not everyone is ready to accept a female wingleader. She must solve the problem of how to get sufficient numbers of dragon eggs, although her newfangled ideas, like letting green dragons mate

and lay eggs to hatch new dragons, cause uproar. All the while she must protect her people and baby dragons from the predators and, worse, traitors or all hope for Pern will be lost!

On Dragonwings Random House Digital, Inc.

"When McCaffrey's beloved dragons roar and their riders soar on the beasts' mighty backs . . . fans of Pern will likely be enthralled."—Publishers Weekly For generations, the dragonriders had dedicated their lives to fighting Thread, the dreaded spores that periodically rained from the sky to ravage the land. On the backs of their magnificent telepathic dragons they flew to flame the deadly stuff out of the air before it could reach the planet's surface. But the greatest dream of the dragonriders was to find a way to eradicate Thread completely, so that never again would their beloved Pern be threatened with destruction. Now, for the first time, it looks as if that dream can come true. For when the people of Pern, led by Masterharper Robinton and F'lar and Lessa, Weyrleader and Weyrwoman of Bendon Weyr, excavate the ancient remains of the planet's original settlement, they uncover the colonists' voice-activated artificial intelligence system—which still functions. And the computer has incredible news for them: There is a chance—a good chance—that they can, at long last, annihilate Thread once and for all.

A Gift of Dragons Bantam Press

An enthralling biography of one of the most luminous shining stars of fantasy and science fiction, world builder and dragon master Anne McCaffrey, written by her son, collaborator, and most devoted fan While you've been to Pern . . . you haven't heard the stories behind the stories. I

propose to fix that. When Anne McCaffrey's Hugo Award-winning novella "Weyr Search" appeared in the late 1960s as part of the novel *Dragonflight*, the science fiction universe was gloriously transformed as readers first experienced the exhilarating thrill of soaring with dragons. With the many Pern novels that followed, McCaffrey steadily won the hearts and unwavering devotion of millions of fans, eventually earning a permanent position on the New York Times bestseller list. *Dragonholder* celebrates the birth and growth of McCaffrey's breathtaking literary vision, as well as the momentous events of a life that was in many ways as extraordinary as the worlds and characters that McCaffrey created. No one understands or appreciates McCaffrey's life and work better than her son, Todd, does. In *Dragonholder*, her frequent coauthor and avid fan intimately examines his mother's childhood and early adulthood, the amazing gift of second sight she inherited from her own mother and grandmother, the trials she faced juggling a career and a family during the turbulent sixties, and her rise to literary stardom—and he reveals the events and influences that ultimately gave rise to the myriad wonders of Pern and the other miraculous worlds borne of Anne McCaffrey's unparalleled imagination.
