In his twenty-five years as a homoeopathic lecturer, Vinton McCabe has taught thousands of medical professionals and laypersons alike both the philosophy and practice of homoeopathic medicine. Through his books on the subject, he has reached many more, giving his readers both the tenets of homoeopathy as put forth originally by Samuel Hahnemann more than two hundred years ago and his own unique viewpoint on the subject of homoeopathic healing. With *The Healing Enigma*, McCabe makes use of his full experience of homoeopathy to give a fully rounded assessment of the principles of homoeopathy and the manner in which it is practised today.

Things You Save in a Fire Rodale Books

"If the Saint calls you, if you have an open road, then you don't feel the fire as if it were your enemy," says one of the participants in the Anastenaria. This compelling work evokes and contrasts two forms of firewalking and religious healing: first, the Anastenaria, a northern Greek ritual in which people who are possessed by Saint Constantine dance dramatically over red-hot coals, and, second, American firewalking, one of the more spectacular activities of New Age psychology. Loring Danforth not only analyzes these rituals in light of the most recent work in medical and symbolic anthropology but also describes in detail the lives of individual firewalkers, involving the reader personally in their experiences: he views ritual therapy as a process of transformation and empowerment through which people are metaphorically moved from a state of illness to a state of health. Danforth shows that the Anastenaria and the songs accompanying it allow people to express and resolve conflict-laden family relationships that may lead to certain kinds of illnesses. He also demonstrates how women use the ritual to gain a sense of power and control over their lives without actually challenging the ideology of male dominance that pervades Greek culture. Comparing the Anastenaria with American firewalking, Danforth includes a gripping account of his own participation in a firewalk in rural Maine. Finally he examines the place of

anthropology in a postmodern world in which the boundaries between cultures are becoming increasingly blurred.

INDIE NEXT PICK FOR AUGUST **AN AUGUST 2019 LIBRARYREADS SELECTION** **BOOK OF THE MONTH PICK FOR JULY** **AN AMAZON EDITOR'S PICK FOR AUGUST** "Center gives readers a sharp and witty exploration of love and forgiveness that is at once insightful, entertaining, and thoroughly addictive." — KIRKUS, STARRED REVIEW "An appealing heroine, a compelling love story, a tearjerking twist, and a thoroughly absorbing story. Another winner from Center." — BOOKLIST, STARRED REVIEW "A spirited, independent heroine meets a smoking-hot fireman in Center's smart romance... If you enjoyed 'The Kiss Quotient,' by Helen Hoang, read *Things You Save in a Fire*" — THE WASHINGTON POST From the New York Times bestselling author of *How to Walk Away* comes a stunning new novel about courage, hope, and learning to love against all odds. Cassie Hanwell was born for emergencies. As one of the only female firefighters in her Texas firehouse, she's seen her fair share of them, and she's a total pro at other people's tragedies. But when her estranged and ailing mother asks her to give up her whole life and move to Boston, Cassie suddenly has an emergency of her own. The tough, old-school Boston firehouse is as different from Cassie's old job as it could possibly be. Hazing, a lack of funding, and poor facilities mean that the firemen aren't exactly thrilled to have a "lady" on the crew—even one as competent and smart as Cassie. Except for the infatuation-inspiring rookie, who doesn't seem to mind having Cassie around. But she can't think about that. Because love is girly, and it's not her thing. And don't forget the advice her old captain gave her: Never date firefighters. Cassie can feel her resolve slipping...and it means risking it all—the only job she's ever loved, and the hero she's worked like hell to become. Katherine Center's *Things You Save in a Fire* is a heartfelt and healing tour-de-force about the strength of vulnerability, the nourishing magic of forgiveness, and the life-changing power of defining courage, at last, for yourself.

 A bold account of the development of human consciousness and spirituality over the ages and an examination of the dynamic global transformation of attitudes about healing. For more than fifteen years, Caroline Myss has studied why some people heal, while others do not. In her previous book, *Anatomy of the Spirit*, Dr. Myss illuminated the hidden interactions of belief and body, soul and cell to show how, as she inimitably puts it, "your

biography becomes your biology." In *Why People Don't Heal and How They Can*, she builds on her earlier teachings of the seven different energy centers of the body to provide a vital self-healing program for physical and spiritual disorders. With her characteristic no-nonsense style and high-voltage storytelling, she exposes and explodes the five myths about healing, explains the cultural and individual contexts in which people become physically and spiritually ill and invested in "woundology," and teaches new methods of working with the challenges that the seven energy centers embody. To help you get and stay on the path to wellness, Dr. Myss provides rituals and prayers for gaining a symbolic perspective on your life issues; for bolstering your personal power; and for connecting with a universal divine energy. Dr. Myss's breakthrough views on energy medicine and her active approach to healing life issues and physical illness will help you overcome the mental blocks that keep you from becoming well.

Firewalking and Religious Healing Princeton University Press
In 1995, Jim Bedard, a martial artist and Zen student, was diagnosed with acute myeloid leukemia and given ten days to live. This is the story of how he used his spiritual strength to bring himself into full contact with a death sentence as well as with painful medical treatment, including chemotherapy and a bone marrow transplant. It is also the inspiring story of how the faith of his family, Zen teacher, close friends, and the Buddhist community helped him. Bedard's story introduces us to Zen practices that can help us cope with emotional turmoil and physical pain. His words on compassion, on karma, on gratitude, on impermanence and the inevitability of death—all from a nonsmoking, meditating, aerobically fit vegetarian who became suddenly and "terminally" ill—are inspiring and sometimes funny. He explores, too, the fundamental question of suffering, its cause, and how the teachings of karma can help us accept illness, ultimately using it as an opportunity to deepen our spiritual lives.

On the outside, Ben Short looks like he has it all - a successful career in advertising, a flat in a trendy area of London, an expensive motorbike. But inside, he's a wreck. Years of suffering with an anxiety disorder and depression have broken him, and his 'creative' career has become sterile and suffocating. A drastic change is needed. Like his neighbour's rescue hawk, he acts on instinct and escapes the city. For a time, he takes on odd jobs - gardening, hedge-laying and labouring in the Cambridgeshire Fens and in the Devon countryside, trying to find somewhere he belongs. That is until he feels the call of the furnace: a glowing charcoal kiln in the West Dorset woods, where he can re-forge his thoughts, put the years of suffering behind him and start afresh by immersing himself in the ancient ways of woods and fire. He lives in huts and old wagons in the woods, hauling water from wells and foraging for his supper. But this is no idyll - the road is hard, the work back-breaking, the woods dark and brimming with powerful energies.

The Racial Healing Handbook Oxford University Press

A profound offering and call to action—collective stories, testimonials, and incantations for renewing political and spiritual liberation grounded in Black, Indigenous, People of Color, and Queer and Trans healing justice lineages We reclaim the power, resilience, and innovation of our ancestors through this book. To embody their wisdom across centuries and generations is to continue their legacy of liberation and healing. In this anthology, Black Queer Feminist editors Cara Page and Erica Woodland guide readers through the history, legacies, and liberatory practices of healing justice—a political strategy of collective care and safety that intervenes on generational trauma from systemic violence and oppression. They call forth the ancestral medicines and healing practices that have sustained communities who have survived genocide and oppression, while radically imagining what comes next. Anti-capitalist, Black feminist, and abolitionist, *Healing Justice Lineages* is a profound and urgent call to embrace community and survivor-led care strategies as models that push beyond commodified self-care, the policing of the medical industrial complex, and the surveillance of the public health system. Centering disability, reproductive, environmental, and transformative justice and harm reduction, this collection elevates and archives an ongoing tradition of liberation and survival—one that has been largely left out of our history books, but continues to this day. In the first section, "Past: Reckoning with Roots and Lineage," Page and Woodland remember and reclaim generations-long healing justice and community care work, asking critical questions like: How did our ancestors transform trauma and violence in their liberation work? What were our ancestors reckoning with—and what did they imagine? The next sections, "Origins of Healing Justice" and "Alchemy: Theory + Praxis," explore regional stories of healing justice in response to the current political and cultural landscape. The last section, "Political + Spiritual Imperatives for the Future," imagines a future rooted in lessons of the past; addresses the ways healing justice is being co-opted and commodified; and uplifts emergent work that's building infrastructure for care, safety, healing, and political liberation.
