A wickedly funny collection of personal essays from popular NPR personality Sarah Vowell. Hailed by Newsweek as a "cranky stylist with talent to burn," Vowell has an irresistible voice -- caustic and sympathetic, insightful and double-edged -- that has attracted a loyal following for her magazine writing and

radio monologues on *This American Life*. While tackling subjects such as identity, politics, religion, art, and history, these autobiographical tales are written with a biting humor, placing Vowell solidly in the tradition of Mark Twain and Dorothy Parker. Vowell searches the streets of Hoboken for traces of the town's favorite son, Frank Sinatra. She goes under cover of heavy makeup in an investigation of goth culture, blasts cannonballs into a hillside on a father-daughter outing, and maps her family's haunted history on a road trip down the Trail of Tears. *Take the Cannoli* is an eclectic tour of the New World, a collection of alternately hilarious and heartbreaking essays and autobiographical yarns.

*The Way to Rainy Mountain* EduGorilla Contains the first printing of Sartor

resartus, as well as other works by Thomas Carlyle.

A New York Times Book Review Notable Book • Named a Best Book of the Year by New York Magazine and The Progressive "A deeply honest and brave portrait of of an individual sensibility

reckoning with her country's violent role in the world." —Hisham Matar, The New York Times Book Review In the wake of the September 11 attacks and the U.S.-led invasion of Iraq, Suzy Hansen, who grew up in an insular conservative town in New Jersey, was enjoying early success as a journalist for a high-profile New York newspaper. Increasingly, though, the disconnect between the chaos of world events and the response at home took on pressing urgency for her. Seeking to understand the Muslim world that had been reduced to scaremongering headlines, she moved to Istanbul. Hansen arrived in Istanbul with romantic ideas about a mythical city perched between East and West, and with a naïve sense of the Islamic world beyond. Over the course of her many

years of living in Turkey and traveling in Greece, Egypt, Afghanistan, and Iran, she learned a great deal about these countries and their cultures and histories and politics. But the greatest, most unsettling surprise would be what she learned about her own country—and herself, an American abroad in the era of American decline. It would take leaving her home to discover what she came to think of as the two Americas: the country and its people, and the experience of American power around the world. She came to understand that anti-Americanism is not a violent pathology. It is, Hansen writes, “a broken heart . . . A one-hundred-year-old relationship.” Blending memoir, journalism, and history, and deeply attuned to the voices of those she met on her travels, Notes

on a Foreign Country is a moving reflection on America’s place in the world. It is a powerful journey of self-discovery and revelation—a profound reckoning with what it means to be American in a moment of grave national and global turmoil.

First published in paperback by UNM Press in 1976, *The Way to Rainy Mountain* has sold over 200,000 copies. “The paperback edition of *The Way to Rainy Mountain* was first published twenty-five years ago. One should not be surprised, I suppose, that it has remained vital, and immediate, for that is the nature of story. And this is particularly true of the oral tradition, which exists in a dimension of

timelessness. I was first told these stories by my father when I was a child. I do not know how long they had existed before I heard them. They seem to proceed from a place of origin as old as the earth. "The stories in *The Way to Rainy Mountain* are told in three voices. The first voice is the voice of my father, the ancestral voice, and the voice of the Kiowa oral tradition. The second is the voice of historical commentary. And the third is that of personal reminiscence, my own voice. There is a turning and returning of myth, history, and memoir throughout, a narrative wheel that is as sacred as language itself."--from the new Preface

While writing skills are integral to the ICSE curriculum, many students have difficulty mastering them. Understanding the context, format, guidelines, and practicing relevant topics are critical to learning the art of effective writing. The most important thing is to learn how to organise ideas before you write, and this book will help you do just that.

Furthermore, this book contains many new fully solved topics, select ICSE School's pre-board topics, and previous year's board exam questions.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider

selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre.

This book discusses how to approach critical literacy in English as a Foreign Language (EFL) contexts. It responds to the concerns of educators who get enthusiastic about teaching critical literacy, but become perplexed when they start reading about its theories. This causes some to avoid it altogether and leads others to argue for practicing it without theory. The book argues that both positions should be reconsidered and capitalizes on the notion of praxis, a notion introduced by Freire to explicate the various subtle connections between theory and practice. The book instills the theoretical assumptions of critical literacy with as little jargon as possible, with many practical illustrations. It will be of interest to graduate and undergraduate students, language

teachers, program and material developers, researchers, and educational policy makers.

This book brings together critical essays on time, history and narrativity and the explorations of these concepts in philosophy, music, art and literature. The volume provides a comprehensive introduction to narrative theories as well as philosophical discourses on time, memory and the self. Drawing insights from western and eastern philosophy, it discusses themes such as subjectivity and identity in historical narratives, theorization of time in cinema and other arts and the relationship between the understandings of existence, consciousness and concepts such as

Kala, Aion, and yugas. The book also looks at the narrativization of history across cultures by exploring modern fiction from China and India, murals of martyrs in Northern Ireland, music and films set against the canvas of the Second World War and the Holocaust, as well as diasporic cultural histories. This book will be an interesting read for scholars and researchers of comparative literature, history, philosophy of history, cultural studies and post-colonial studies.

A timely and moving collection from the renowned inaugural poet on issues facing our country and people—immigration, gun violence, racism, LGBTQ issues, and more. Through an oracular yet intimate and accessible voice, Richard Blanco addresses the complexities and contradictions of our nationhood and the unresolved sociopolitical matters that affect us all. Blanco digs deep into the very marrow of our nation through poems that interrogate our past and present, grieve our injustices, and note our flaws, but also remember to celebrate our ideals and cling to our

hopes. Charged with the utopian idea that no single narrative is more important than another, this book asserts that America could and ought someday to be a country where all narratives converge into one, a country we can all be proud to love and where we can all truly thrive. The poems form a mosaic of seemingly varied topics: the Pulse nightclub massacre; an unexpected encounter on a visit to Cuba; the forced exile of 8,500 Navajos in 1868; a lynching in Alabama; the arrival of a young Chinese woman at Angel Island in 1938; the incarceration of a gifted writer; and the poet's abiding love for his partner, who he is finally allowed to wed as a gay man. But despite each poem's unique concern or occasion, all are fundamentally struggling with the

overwhelming question of how to love this country.

To the sound of machine gun fire and the smell of burning flesh, award-winning author In Koli Jean Bofane leads readers on a perilous, satirical journey through the civil conflict and political instability that have been the logical outcome of generations of rapacious multinational corporate activity, corrupt governance, widespread civil conflict, human rights abuses, and environmental degradation in Africa. Isookanga, a Congolese Pygmy, grows up in a small village with big dreams of becoming rich. His vision of the world is shaped by his exploits in Raging Trade, an online game

where he seizes control of the world's natural resources by any means possible: high-tech weaponry, slavery, and even genocide. Iookanga leaves his sleepy village to make his fortune in the pulsating capital Kinshasa, where he joins forces with street children, warlords, and a Chinese victim of globalization in this blistering novel about capitalism, colonialism, and the world haunted by the ghosts of Bismarck and Leopold II. Told with just enough levity to make it truly heartbreaking, Congo Inc. is a searing tale about ecological, political, and economic failure.

George Orwell set out 'to make political

writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly

under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a

vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times
