R. K. Narayan

(1906—2001) witnessed nearly a century of change in his native India and captured it in fiction of uncommon warmth and vibrancy. Swami and Friends introduces us to Narayan's beloved fictional town of Malgudi, where ten-year-old Swaminathan's excitement about his country's initial stirrings

for independence competes with his ardor for cricket and all other things British. Written during British rule, this novel brings colonial India into intimate focus through the narrative gifts of this master of literary realism.

A special limited edition of nine classic novels produced to coincide with Weidenfeld & Nicolson's 60th anniversary.

Designed by the award-winning advertising agency Fallon with special endpapers commissioned from ground-breaking artists. The endpapers for

this title have been designed by Yehrin Tong. Vikram Seth's novel is at its core a love story, the tale of Lata - and her mother's attempts to find her a suitable husband, through love or through exacting maternal appraisal. Set in post-Independence India and involving the lives of four large families and those who orbit them, it is also a vast panoramic exploration of a whole continent at a crucial hour as a sixth of the world's population faces its first great General Election

and the chance to map its own destiny. 'A SUITABLE BOY may prove to be the most fecund as well as the most prodigious work of the latter half of this century - perhaps even the book to restore the serious reading public's faith in the contemporary novel ... You should make time for it. It will keep you company for the rest of your life' Daniel Johnson, The Times

The Fables of Aesop Ankur Warikoo

This volume brings together articles based on experimental and

theoretical research from teachers working in diverse teaching backgrounds with varying experience, from research scholars to school teachers, from college and university teachers in India to a British native teaching in China. The contributions here provide a mix of global and local teaching scenarios, addressing the need for diagnostic tests, developing need-based material, using the mother tongue to ensure active participation of the masses, and re-examining

the language policies in Asian countries. The papers collected here also explore the implementation of Task-based Language Teaching, the integration of technology in developing language skills, and the use of games and activities to engage the interest of low level learners while teaching both literature and language, further linking them with their culture and society. The book offers a reflection of the changes that have taken place in the

teaching environment in the last two decades, with the introduction of Communicative Language Teaching, and, as such, will be of immense help for policy framers and educators in South-Asian countries and in countries where English is a second or foreign language. Furthermore, the volume offers valuable information for researchers working in the field of English Language Teaching (ELT), which can be used for reviewing literature and exploring the directions in

which the new teaching methods and approaches are leading, and establishing the validity of research.

The Tale of Custard the Dragon Vintage

Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7

August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of *Gitanjali* and its "profoundly sensitive, fresh and beautiful verse", he became the first non-European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry" remain

largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and

Pakistan.

While some try to get out of prison, Soapy, the only character in O. Henry's short story, tries to get into it. Soapy is a homeless guy who prefers

the warm cell to the cold night under the New York sky. He does everything he can think of in order to draw the attention of the police. However without any success. Until he hears a magical organ anthem. How will this story develop? Will Soapy manage to get into jail or he will find another way to sort out his life? "The Cop and the Anthem" is a comical short story with a touch of irony which emphatically presents the lower class and the obstacles man has to face. William Sidney

Porter (1862-1919), known simply as O. Henry, was a prolific American author of humorous literary pieces. His fame came exceptionally quickly and he became a bestselling author of short story collections, among the most famous being "Cabbages and Kings", "The Voice of the City", and "Strictly Business." As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short

stories.

The Grammar of the  
English Tense System  
forms the first volume of a  
four-volume set, The  
Grammar of the English  
Verb Phrase. The other  
volumes, to appear over

the next few years, will  
deal with mood and  
modality, aspect and  
voice. The book aims to  
provide a grammar of  
tense which can be used  
both as an advanced  
reference grammar (for  
example by MA-level or  
postgraduate students of  
English or linguistics) and  
as a scientific study which  
can act as a basis for and  
stimulus to further  
research. It provides not  
only a wealth of data but  
also a unique framework  
for the study of the  
English tense system,  
which achieves great

predictive and  
explanatory power on the  
basis of a limited number  
of relatively simple rules.  
The framework provided  
allows for an analysis of  
the semantics of  
individual tenses which  
reflects the role of tenses  
not only in locating  
situations in time relative  
to speech time but also in  
relating situations in time  
relative to one another to  
form temporally coherent  
discourse. Attention is  
paid to the relations  
between tenses. On the  
one hand, we can identify  
sets of tenses linked to

particular temporal areas such as the past or the future. These sets of tenses provide for the expression of a system of temporal relations in a stretch of discourse in which all the situations are located within the same temporal area. On the other hand, there are many contexts in which speakers might in theory choose between two or more tenses to locate a situation (e.g., when we choose between the past tense and the present perfect to locate a situation before speech

time), and the book examines the difference that a choice of one or the other tense may make within a discourse context. The book moves from a detailed exploration of the meaning and use of individual tenses to a thorough analysis of the way in which tenses can be seen to function together as sets, and finally to a detailed examination of tenses in, and tenses interacting with, temporal adverbials. Original data is used frequently throughout the

book to illustrate the theory discussed.
