"Micrographia" by Robert Hooke. Published by Good Press. Good Press publishes a

wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Modern History Letts and Lonsdale

This volume contains everything students need to know for Key Stage 3 foundation science. The text is laid out in 'sound bite' boxes to aid recollection, with clearly labelled diagrams to add visual clarity and further demonstrate the subject matter.

Key Stage Three Science Letts and Lonsdale

The GCSE Mindset: 40 activities for transforming student commitment, motivation and productivity, written by Steve Oakes and Martin Griffin, offers a wealth of concrete, practical and applicable tools designed to supercharge GCSE students' resilience, positivity, organisation and determination. At a time when GCSE teaching can feel like a conveyor belt of micromanaged lessons and last-ditch interventions, Steve and Martin acclaimed authors of The A Level Mindset suggest a different approach, underpinned by their VESPA model of essential life skills: vision, effort, systems, practice and attitude. These five non-cognitive characteristics beat cognition

hands down as predictors of academic success, and in *The GCSE Mindset* Steve and Martin take this simple model as their starting point and present a user-friendly month-by-month programme of activities, resources and strategies that will help students break through barriers, build resilience, better manage their workload and ultimately release their potential both in the classroom and beyond. The book's forty activities, while categorised thematically under the VESPA umbrella, have been sequenced chronologically by month in order to better chart the student's journey through the academic year and to help them navigate the psychological terrain ahead. Each activity can be delivered one-to-one, to a tutor group or to a whole cohort, has been designed to take fifteen to twenty minutes to complete, and has been written with a pupil audience in mind. However, to complement the tasks' practical utility, the authors also explore the underpinning research and theory including the pioneering work of Angela Duckworth, Dr Steve Bull and Carol Dweck in more detail in the introduction to each section. Informed by the authors' collective thirty-plus years of teaching and coaching, this essential handbook for GCSE success also suggests key coaching questions and interventions for use with pupils and includes expert guidance on how schools can implement and audit the core components and outcomes of the VESPA approach in their own settings. Additionally and indeed pertinently in the present educational environment where empirical data is valued so highly the book features a chapter dedicated to the measurement of mindset, written by guest contributors Dr Neil Dagnall and Dr Andrew Denovan from Manchester Metropolitan University. They present the twenty-eight-item VESPA questionnaire, which they helped Steve and Martin to design, and take the reader through the research process behind its origins before going on to describe how it can be used to identify areas for development and to measure the impact of interventions. Suitable for teachers, tutors and parents who want to boost 14 to 16-year-olds' academic outcomes and equip them with powerful tools and techniques in preparation for further education and employment

Year 7 Science Letts and Lonsdale These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and

practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

A Frequency Dictionary of French Letts and Lonsdale

Presented in a clear and accessible way, the 'Key Stage 3 Success Workbooks' cover everything students need to know for Key Stage 3, providing different styles of questions to test students' knowledge on any given subject.

New KS3 Maths HarperCollins UK

A Frequency Dictionary of French is an invaluable tool for all learners of French, providing a list of the 5000 most frequently used words in the language. Based on a 23-million-word corpus of French which includes written and spoken material both from France and overseas, this dictionary provides the user with detailed information for each of the 5000 entries, including English equivalents, a sample sentence, its English translation, usage statistics, and an indication of register variation. Users can access the top 5000 words either through the main frequency listing or through an alphabetical index. Throughout the frequency listing there are thematically-organized lists of the top words from a variety of key topics such as sports, weather, clothing, and family terms. An engaging and highly useful resource, the Frequency Dictionary of French will enable students of all levels to get the most out of their study of French vocabulary. Former CD content is now available to access at www.routledge.com/9780415775311 as support material. Designed for use by corpus and computational linguists it provides the full text in a format that researchers can process and turn into suitable lists for their own research work. Deryle Lonsdale is Associate Professor in the Linguistics and English Language Department at Brigham Young University (Provo, Utah). Yvon Le Bras is Associate Professor of French and Department Chair of the French and Italian Department at Brigham Young University (Provo, Utah). *Science Directions* Letts and Lonsdale Covers the topics needed for KS3 Science levels 5-7.

KS3 Revision Science Routledge

In line with the Key State 3 curriculum changes, these books provide full coverage of the new programme of study. Every topic within each book comprises a clear overview of all the key concepts and ideas, followed by pages of practice material to reinforce learning, test understanding and help develop skills. *Year 7 Maths* Letts and Lonsdale Containing activities, as well as a host of useful features, this book intends to aid

understanding and an appreciation of the French language and culture. It is accompanied by an audio CD that provides listening activities and helps students with their pronunciation. It includes progress checks, practice questions and a mock Key Stage 3 exam. This is a revised, updated and reformatted edition of our long-standing "French Study Guide" to be brought in line with other revised editions in the "Study Guide" series. The book is pumped full of activities, as well as a host of useful features, intended to aid understanding and a fuller appreciation of the French language and culture. An accompanying audio CD provides listening activities and helps students with their pronunciation. Knowledge is tested throughout, with progress checks at the end of every chapter, practice questions at the end of each section and a mock Key Stage 3 exam at the end of the book.
