GRIFFITH DICKSON

Imagined Communities East African
Educational Publishers
New York Times bestselling author
Catherine Anderson takes readers to a
quaint wilderness town, where a man and
a woman find a second chance at life—and
love... Determined to give her son Jeremy
the childhood he deserves, Chloe Evans
has left a tough past behind and is starting
fresh in the charming resort town of Jack

Pine, Oregon. But protecting Jeremy
becomes a dicey proposition when he
seeks out the most dangerous man in
town to heal his sick puppy. Chloe has
been warned to stay away from Ben
Longtree. But there's something about the
gentle, untamed loner that intrigues her...
Long ago, Ben accepted his role as town
outcast. Rumored to have once killed a
man, he lives in splendid isolation with his
forgetful mother, secretly employing his
skills as a veterinarian to heal the
wounded animals that mysteriously come
to him. Now, Chloe's sunny warmth and

brave tenacity arouse desires he has long
denied. And although Ben is notorious for
his healing touch, it is Chloe's hands—and
heart—that have the power to save his
battered soul.

The role of English in the global arena has
prompted official language-in-education
policy makers to adopt language
education policies to enable its citizens to
be proficient in English and to access
knowledge. Local educational contexts in
different countries have implemented
English education in their own ways with

different pedagogical goals, motivations, features and pedagogies. While much of the research cited in English language planning policy has focused on macro level language policy and planning, there is an increasing interest in micro planning, in particular teacher agency in policy response. Individual teacher agency is a multifaceted amalgam, not only of teachers' individual histories, professional training, personal values and instructional beliefs, but also of how these interact with local interpretations and appropriations of policy. *Teacher Agency and Policy Response in English Language Teaching* examines the agency of the teacher in negotiating educational reforms and policy changes at the local and national levels. Chapters in the book include: English language teaching in China: teacher agency in response to curricular innovations Incorporating academic skills into EFL curriculum: teacher agency in response to global mobility challenge Teacher agency, the native/nonnative dichotomy, and "English Classes in English" in Japanese high Schools Teacher-designed high stakes English language testing: washback and impact This book

will appeal to researcher across all sectors of education, in particular key stakeholders in curriculum and language planning. Those interested in the latest development of English language teaching will also find this book a valuable resource. *English Composition* W. W. Norton & Company
The groundbreaking National Book Award Finalist and Michael L. Printz Honor Book with more than 3.5 million copies sold, *Speak* is a bestselling modern classic about consent, healing, and finding your voice. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big lie, part of the nonsense of high school. She is friendless, an outcast, because she busted an end-of-summer party by calling the cops. Now nobody will talk to her, let alone listen to her. As time passes, Melinda becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy

who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back—and refuses to be silent. From Astrid Lindgren Memorial Award laureate Laurie Halse Anderson comes the extraordinary landmark novel that has spoken to millions of readers. Powerful and utterly unforgettable, *Speak* has been translated into 35 languages, was the basis for the major motion picture starring Kristen Stewart, and is now a stunning graphic novel adapted by Laurie Halse Anderson herself, with artwork from Eisner-Award winner Emily Carroll. This book is among the first to combine a historical view of media texts with a critical look at their textual diversity today.

The thirteen chapters cover corpora of early news-papers and pamphlets, present-day news stories and commentaries, TV talk shows and commercials as well as internet presentations. The studies focus on the wide range of text types in 18th century newspapers and the interpersonal strategies of pamphlets; they pursue the development of the persuasive potential of headlines and advertisements right down to the sophisticated postmodernist and multilingual examples of today. Other topics are the definition and structure of news stories and commentaries, the interpersonal and multi-modal aspects of talkshows, and more radically, the questioning of the journalist's role in the age of the internet. Generally the stress is on the attention-getting side of media texts rather than on the manipulative qualities investigated by critical discourse analysis.

The Cambridge Handbook of English Corpus Linguistics Academic Press

The Cambridge Handbook of English Corpus Linguistics (CHECL) surveys the breadth of corpus-based linguistic research on English, including chapters on

collocations, phraseology, grammatical variation, historical change, and the description of registers and dialects. The most innovative aspects of the CHECL are its emphasis on critical discussion, its explicit evaluation of the state of the art in each sub-discipline, and the inclusion of empirical case studies. While each chapter includes a broad survey of previous research, the primary focus is on a detailed description of the most important corpus-based studies in this area, with discussion of what those studies found, and why they are important. Each chapter also includes a critical discussion of the corpus-based methods employed for research in this area, as well as an explicit summary of new findings and discoveries.

TEACH YOUR STUDENTS TO READ WITH PRECISION AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key

to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, *Reading Reconsidered* takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of *Reading Reconsidered* reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. *Reading Reconsidered* breaks an overly broad issue

into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com)

It's been a decade since Lynne Dorfman and Rose Cappelli wrote the first edition of *Mentor Texts* and helped teachers across the country make the most of high-quality children's literature in their writing instruction. In the second edition of this important book Lynne and Rose show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the gradual release of responsibility model, offering

suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Lynne and Rose offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. Rose and Lynne write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

Interaction and Knowledge Construction in Online English Teaching McFarland Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of

English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers are so often neglected by literature on teaching methodology.

Identity crises, consumerism, and star-crossed teenage love in a futuristic society where people connect to the Internet via feeds implanted in their brains. Winner of the LA Times Book Prize. For Titus and his friends, it started out like any ordinary trip to the moon - a chance to party during spring break and play around with some stupid low-grav at the Ricochet Lounge. But that was before the crazy hacker caused all their feeds to malfunction, sending them to the hospital to lie around with nothing inside their heads for days. And it was before Titus met Violet, a beautiful, brainy teenage girl who knows something about what it's like to live without the feed-and about resisting its omnipresent ability to categorize human thoughts and desires. Following in the footsteps of George Orwell, Anthony Burgess, and Kurt Vonnegut, Jr., M. T. Anderson has created a brave new world - and a hilarious new lingo - sure to appeal to anyone who appreciates smart satire, futuristic fiction laced with humor, or any story featuring skin lesions as a fashion statement.

Judith H. Anderson conceives the intertext as a relation between or among texts that encompasses both Kristevan intertextuality and traditional relationships of influence, imitation, allusion, and citation. Like the Internet, the intertext is a state, or place, of potential expressed in ways ranging from deliberate emulation to linguistic free play. Relatedly, the intertext is also a convenient fiction that enables examination of individual agency and sociocultural determinism. Anderson's intertext is allegorical because Spenser's Faerie Queene is pivotal to her study and because allegory, understood as continued or moving metaphor, encapsulates, even as it magnifies, the process of signification. Her title signals the variousness of an intertext extending from Chaucer through Shakespeare to Milton and the breadth of allegory itself. Literary allegory, in Anderson's view, is at once a

mimetic form and a psychic one—a process thinking that combines mind with matter, emblem with narrative, abstraction with history. Anderson's first section focuses on relations between Chaucer's Canterbury Tales and Spenser's The Faerie Queene, including the role of the narrator, the nature of the textual source, the dynamics of influence, and the bearing of allegorical narrative on lyric vision. The second centers on agency and cultural influence in a variety of Spenserian and medieval texts. Allegorical form, a recurrent concern throughout, becomes the pressing issue of section three. This section treats plays and poems of Shakespeare and Milton and includes two intertextually relevant essays on Spenser. How Paradise Lost or Shakespeare's plays participate in allegorical form is controversial. Spenser's experiments with allegory revise its form, and this intervention is largely what Shakespeare and Milton find in his poetry and develop. Anderson's book, the result of decades of teaching and writing about allegory, especially Spenserian allegory, will reorient thinking about fundamental critical issues and the landmark texts in

which they play themselves out. *Teaching Readers of English* Deepublish

The use of large, computerized bodies of text for linguistic analysis and description has emerged in recent years as one of the most significant and rapidly-developing fields of activity in the study of language. This book provides a comprehensive introduction and guide to Corpus Linguistics. All aspects of the field are explored, from the various types of electronic corpora that are available to instructions on how to design and compile a corpus. Graeme Kennedy surveys the development of corpora for use in linguistic research, looking back to the pre-electronic age as well as to the massive growth of computer corpora in the electronic age.

Benedict Anderson, professor at Cornell and specialist in Southeast Asian studies,

is best known for his book *Imagined Communities: Reflections on the Origin and Spread of Nationalism* (1991). It is no understatement to say that this is one of the most influential books of the last twenty years. Widely read both by social scientists and humanists, it has become an unavoidable document. For people in the humanities, Anderson is particularly interesting because he explores the rise of nationalism in connection with the rise of the novel.
