Que Sam Morgan ait immédiatement envie de sentir le corps de Sarah Cantrell contre le sien, rien d'étonnant à cela : la jeune productrice de télé est une tentation faite femme, et Sam, après des mois passés dans l'isolement de son chalet de montagne, a bien l'intention d'y céder ! Mais que Sarah ne puisse soutenir le regard de Sam sans être aussitôt envahie par des bouffées de désir, voilà qui est plus surprenant : en partant à la recherche du montagnard, elle s'attendait plutôt à rencontrer un vieil ours bourru, et non cet homme beau comme un dieu qui lui fait tourner la tête. Mais comme Sam n'a pas l'air disposé à lui accorder l'interview qu'elle est venue chercher, Sarah doit absolument trouver un moyen de le faire changer d'avis. Quelles que soient ses conditions, même les plus inattendues, ou les plus provocantes... Roman réédité

Every March 10th, from 1961 until 2011, in commemoration of the greatest uprising of the Tibetan people against the Chinese military occupation, the Dalai Lama delivered an appeal to the world on behalf of his people. Each statement is a heartfelt call to recognize the truth and the factual reality of Tibet's history and situation; a cry for help, a plea for justice, and a pledge of determination to withstand the worst and to overcome. In these annual addresses, he began to articulate and fully express his overarching appeal to humanity. All of the Dalai Lama's March 10th speeches, at their most poignant and eloquent, are collected here, introduced and historically contextualized by Sofia Stril-Rever, an author and scholar of Tibetan history and culture and Buddhist spirituality who has long served as his French translator. Here in this book is his appeal to us all. The people of all nations have heard it and have tried to help, but their governments still have not dared to stand up effectively for justice on behalf of the Tibetan people and for recognition of the basic human rights to which we all are entitled. --Publisher's description.

Agnes married Egerton Castle and co-authored many novels with her husband, including this book

which explores English society at the turn of the 20th century. Following a family of high society members, this novel explores luxury and what was considered normal and expected for both men and women. That's especially the case when one finds themselves being pulled in a different direction. *Cultures of Natural History* Bouquino

Le Théâtre du Soleil traces the company's history from a group of young, barely trained actors, directors, and designers struggling to match their political commitment to a creative strategy, to their grappling with the concerns of migration, separation and exile in the early decades of the twenty-first century. Béatrice Picon-Vallin recounts how, in the 55 years since its founding, the Théâtre du Soleil has established itself as one of the foremost names in modern theatre. Ariane Mnouchkine and her collaborators have developed a unique and ever-evolving style that combines a piercing richness of shape, color, and texture with precision choreography, innovative musical accompaniment, and multi-layered, metaphorical dreamscapes. This rich, storied history is illustrated by a wealth of spectacular rehearsal and production photos from the company's own archive and interviews with dozens of past and present members, including Mnouchkine herself. Judith G. Miller's timely translation of the first comprehensive history and analysis of a remarkable, award-winning company is a compelling read for both students and teachers of Drama and Theatre Studies.

This copiously illustrated volume is the first systematic general work to do justice to the fruits of recent scholarship in the history of natural history. Public interest in this lively field has been stimulated by environmental concerns and through links with the histories of art, collecting and gardening. The centrality of the development of natural history for other branches of history - medical, colonial, gender, economic, ecological - is increasingly recognized. Twenty-four specially commissioned essays cover the period from the sixteenth century, when the first institutions of natural history were created, to its late nineteenth-century transformation by practitioners of the new biological sciences. An introduction discusses novel approaches that have made this a major focus for research in cultural history. The essays, which include suggestions for further reading, offer a coherent and accessible overview of a fascinating subject. An epilogue highlights the relevance of this wide-ranging survey for current debates on museum practice, the display of ecological diversity and concerns about the environment.

Le 7 octobre 1950, l'Armée populaire de libération franchit le Yangtsé et anéantit les défenses tibétaines. À Lhasa, le gouvernement minimise l'invasion dans l'espoir de négocier avec la Chine de Mao, puis fait appel à l'ONU. Soutenu par un seul pays - le Salvador - sa demande d'inscrire la « question tibétaine » aux débats du Conseil de sécurité est ajournée. Voici la réédition de l'ouvrage de référence sur le destin politique du Tibet qui manquait au public francophone. L'auteur ne se contente pas de retracer les grandes étapes de l'histoire du Toit du monde et de montrer comment, depuis le Ve siècle jusqu'à l'occupation par la Chine communiste, le Tibet a toujours su préserver un équilibre entre ses puissants voisins. Il lève le voile sur les véritables raisons de la chute du Tibet.

Les chapitres sur le rôle du Premier ministre indien, Nehru, et sur les atermoiements des pays occidentaux sont particulièrement éclairants. Grâce à ses recherches dans des archives indiennes, russes et américaines récemment ouvertes aux chercheurs, à ses nombreuses relations dans le monde diplomatique et militaire indien, grâce aussi à ses contacts tibétains – en particulier une longue amitié avec le dalaï-lama –, Claude Arpi nous livre la face cachée d'un drame toujours tragiquement d'actualité.

Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also

provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.

Le Feu sous la neige Encyclopedia of French Film Directors

Billions have died in the thousands of years since human beings first developed language, but we do not have a single credible account of the subjective experience of dying and the afterlife. This is why death continues to be an immense mystery and a subject of eternal fascination. In *Death and Dying*, scholars and intellectuals illumine the major issues raised by the inevitable ending to life. The range is wide: from the dread that accompanies all notions of mortality to the objective evidence for the existence of an afterlife; from an exploration of the spiritual dimensions of mourning to analyses of how death was perceived and interpreted by geniuses like John Keats, Rabindranath Tagore and Carl Jung. Utterly compelling, these essays prompt us to question our fears and notions of death while enabling us to perceive this phenomenon with greater understanding and intelligence.
