 James Blish, in his incarnation as 'William Atheling, Jr' has written more than his share of the most incisive criticism of contemporary science fiction. Following on

form The Issue at Hand, this new volume of Atheling's critical writings skewers literary malefactors of many kinds, including some well-known authors whose great popularity is all the more puzzling because there seems to be so little reason for it. Atheling does not stint on praise where it is due, but in other cases, the sins and errors of the filed are dispatched with his trademark rapier-like incisiveness.

These 17 essays from the seventh annual J. Lloyd Eaton Conference examine the relationship between fantasy and science fiction. They propose that fantasy and science fiction are not isolated commercial literary forms, but instead are literary forms worthy of the recognition reserved for traditional literature. Discussion of genre identification ranges from the standard forms of literary criticism embodied in Aristotle's mimesis and poesis to innovative and possibly controversial points of view such as a theory of humor, a philosophy of time, and a detailed analysis of Dr. Seuss's *Cat in the Hat*. The essays provide not only a detailed study of literary elements but also the historical treatment of the material, its commercial use, and its relationship to similar literary forms such as the gothic tale and horror fiction. While few of the essayists agree with one another, they all contribute creative insights to the debate. *Red Square, Black Square* Open Road Media

Bringing together the Soviet historical experience and Stalin-era art in novels, films, poems, songs, painting, photography, architecture and advertising, Dobrenko examines Stalinism's representational strategies and demonstrates how real socialism was begotten of Socialist Realism.

Journey to the World Under Ground
Rowman & Littlefield

Two destinies intersect in this novel -- that of Gjorg, a young mountaineer who has just killed a man in order to avenge the death of his older brother, and who expects to be killed himself in keeping with the code of the highlands; and that of a young couple who have come to study the age-old customs, including the blood feud.

Trapped in the mine and surrounded by radioactive gas, Rogers falls into a state of suspended animation . . . for nearly five hundred years. Waking in the year 2419, he first saves the beautiful Wilma Deering from attack and then discovers what has befallen his country: The United States has descended into chaos after Asian powers conquered the world with advanced weaponry centuries before. Science-fiction, the Early Years

From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust

kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The *Siege* tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, *The Siege* is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

H. G. Wells wasn't the only nineteenth-century writer to dream of a time machine. The Spanish playwright Enrique Gaspar published *El anacronópete*—"He who flies against time"—eight years before Wells's influential work appeared. The novel begins at the 1878 Paris Exposition, where Dr. Don Sindulfo unveils his new invention—which looks like a giant sailing vessel. Soon the doctor embarks on a voyage back in time, accompanied by a motley crew of French prostitutes and Spanish soldiers. The purpose of his expedition is to track down the imprisoned wife of a third-century Chinese emperor, believed to possess the secret to immortality. A classic tale of obsession, high adventure, and star-crossed love, *The Time Ship* includes intricately drawn illustrations from the original 1887 edition, and a critical introduction that argues persuasively for *The Time Ship*'s historical importance to science fiction and world literature.

The Siege Wesleyan University Press
This book builds a new vision of the development of Russian revolutionary culture, bringing together fiction, criticism, utopian projects, manifestos, performance and film theory, religious philosophy, and the imaginary space of communism

centered around the Mummy of Lenin. Revolution and modernization are two main issues of the book. The author argues that in Modernism the work of art was conceived as a miniature of the world to come; thus, art was meant to make projects, not master-pieces. He analyzes the genre of the manifesto as a special rhetorical device of modernist discourse and shows how projects of biological and social engineering elaborate a vision of a future human type apt to exist under unprecedented conditions. Red Square, Black Square traces the process of totalitarian reduction of the modernist impulse into a rigid party doctrine. It follows the turbulent development of Russian Modernism through its categorical arrest under the official doctrine of "socialist realism." Moscow's Red Square is examined as a primal communist space that manifests the symbolism of power. Viewing communism as an aesthetically, not economically, motivated society, the book enacts "political aesthetics" as a discipline that provides the fundamental tool for an adequate and thorough understanding of communism. Todorov concludes by discussing the rise of nationalism in Eastern Europe as a post-communist condition, and the new mission of the intellectuals.

Works of science fiction and fantasy increasingly explore gender issues, feature women as central characters, and are written by women writers. This book

examines women's contributions to science fiction and fantasy across a range of media and genres, such as fiction, nonfiction, film, television, art, comics, graphic novels, and music. The first volume offers survey essays on major topics, such as sexual identities, fandom, women's writing groups, and feminist spirituality; the second provides alphabetically arranged entries on more specific subjects, such as Hindu mythology, Toni Morrison, magical realism, and Margaret Atwood. Entries are written by expert contributors and cite works for further reading, and the set closes with a selected, general bibliography. Students and general readers love science fiction and fantasy. And science fiction and fantasy works increasingly explore gender issues, feature women as central characters, and are written by women writers. Older works demonstrate attitudes toward women in times past, while more recent works grapple with contemporary social issues. This book helps students use science fiction and fantasy to understand the contributions of women writers, the representation of women in the media, and the experiences of women in society. **رسالة الكاملة في السيرة النبوية** Walter de Gruyter

Masterful in its simplicity, Chronicle in Stone is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His

sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.
