The complete guide to the commercial,
medicinal and psychotropic.

Designed to Perform Brewers Publications
Published on the occasion of an exhibition
held at the Walker Art Center, Minneapolis,
Minn. and four other institutions between
Oct. 22, 2011 and Dec. 2013.

The Great Book of Hemp Taunton Press
From the co-founders of Havenly comes “a
perfect read for anyone looking to infuse
more personality and style into their
space—on their own time and budget, and
in their own unique way” (Rachel Zoe).
“Not only do Lee and Emily unpack all
their tips for creating a space that looks as
good as it feels, but they do it in a way
that is made for real-life
application.”—Bobby Berk, design expert
and host of Netflix’s *Queer Eye* Interior
design can be daunting, and as a result,
many of us never even attempt to design

our own homes. In *Design the Home You
Love*, Havenly founders Lee Mayer and
Emily Motayed break down the ambiguous
world of home design. First you learn how
to identify your own style (whether you’re
a fan of Parisian Modern or California
Casual) and then how to incorporate
furniture that matches your style and fits
your budget. *Design the Home You Love*
takes you step-by-step and room-by-room
through each part of the house to help you
fulfill your home’s potential. Whether
you’re looking to give your home a
complete makeover, spruce up your rental

apartment, or merely take your living room from blah to fab, Lee and Emily bring fresh ideas, advice, and inspiration to the table. Illustrated with eye-catching photography and livable inspiration from real-life clients, this is the interior design book that finally makes it possible for us all to achieve our design goals.

The Natural Building Companion New Society Pub

Jerry Hodge has two passions in life: baseball and pharmacy. It didn't take long before he realized he wasn't going to have a career as Major League Baseball player, so he focused his efforts on pharmacy by working in local drug stores in high school and college. After graduating college and becoming a pharmacist in 1965, Jerry cobbled together \$20,000 in loans to purchase Maxor, an Amarillo, Texas, drug store and become a business owner at the age of 23. But soon after he made the deal, he lost 95 percent of his prescription business when three local physicians either died, retired or moved their office. At the same time, he and his wife were expecting their first child and he was summoned to appear before the draft board for possible deployment to Vietnam.

Let Me Tell Ya chronicles how Hodge recovered from business and personal setbacks to become a successful business and family man who turned Maxor into a multi-million dollar national business. Jerry also chronicles how he dealt with personal challenges including two divorces, a diagnosis of terminal cancer and the death of a grandson. He may be the only person to go toe-to-toe with Oprah Winfrey and Boone Pickens ... and survive. Let Me Tell Ya shares the life and business lessons Jerry's learned along the way in what has been an incredible life.

Swimming Back to Trout River Bloomsbury Publishing

Learn to create stylish hemp jewelry with 20 irresistible projects. Step-by-step color photos make it easy to learn.

The Hempcrete Book Ryland Peters & Small

How does one teach architecture and construction in the first year of studies; and how does one handle pre-existing experience and the different potential of the prospective architects? Annette Spiro, architect and ETH Professor, has dealt intensively with these questions over many years. A glossary addresses

important key ideas and theses in architecture, while the logbook presents accompanying events and publications that contribute in shaping the first year of studies.

The Art of Natural Building Die Gestalten Verlag-DGV

Design your own sustainable home Many people dream of building a beautiful, environmentally friendly home. But until now there has been no systematic guide to help potential builders work through the complete process of imagining, planning, designing, and building their ideal, sustainable home. Essential Sustainable Home Design walks potential homebuilders through the process starting with key concepts, principles, and a project vision that will guide the house to completion. Coverage includes: How to clarify your ideas and create a practical pathway to achieving your dream A criteria matrix to guide design, material, and systems decisions Creating a strong, integrated design team and working with professionals and code officials to keep the project on track from start to finish. Key building science concepts that make for a high-performance, durable building

Primer on building logistics, material sourcing, and protocols to ensure that the initial vision for the project comes to fruition. One-page summaries and ratings of popular sustainable building materials and system options. Ideal for owner-builders and sustainable building contractors working with clients aiming to design and build a sustainable home. Chris Magwood has designed and built some of the most innovative, sustainable buildings in North America, including the first off-grid, straw bale home in Ontario. He is co-founder and director the Endeavour Centre for Innovative Building and Living and co-editor of the Sustainable Building Essentials series. Chris is the author of Essential Prefab Straw Bale Construction, Essential Hempcrete Construction, Straw Bale Details, More Straw Bale Building , and Making Better Buildings .

Hemp Masters Getting Knotty Cooper Hewitt

“All of the essential knowledge for completing a successful rammed earth project. Written by a geo-technical engineer with experience ramming earth.” —Kelly Hart, author, Essential Earthbag Construction Everything you need to know

to build with rammed earth in warm and cold climates. Rammed earth—sand, gravel, and clay or lime/cement binder packed into forms—is a low-energy, high-performance building method, yielding beautiful, sustainable results. It’s thermally stable and can be insulated, can actively modulate humidity, provides a healthy indoor environment, and allows site materials to be used for major structural and building envelope elements. Essential Rammed Earth Construction covers design, building science, tools, and step-by-step building methods for any climate, with a special emphasis on building in cold climates of the northern US, Canada, and northern Europe. Coverage includes: Overview of earthen building Appropriate use of rammed earth walls Stabilized versus raw rammed earth Design considerations, including structural, insulation, and building envelope details Special considerations for cold and freeze-thaw climates Construction drawings, with step-by-step building instructions Tools and labor covering industrial methods, low-tech techniques, formwork options, mix design, budgets, and schedules Codes,

inspections, and permits. This guide is an essential resource for experienced builders, DIY home owners, designers, engineers, and architects. “A much-needed and science-based update to a North American audience of designers, engineers and builders.” —Bruce King.

P.E., author, *The New Carbon Architecture*

“ A great book for anyone who wants to deepen their technical knowledge of rammed earth walls systems. It’s very helpful to have a book on rammed earth that is more focused on engineered rammed earth walls for cold climates.”

—Clifton Schooley, Clifton Schooley & Associates, *Rammed Earth Designers and Builders*

[Plumbing a House](#) IMM Lifestyle Books Discover how to use CBD oil in homemade natural beauty products to harness its powerful antioxidant and anti-inflammatory effects to help with acne, ageing and much more. CBD (cannabidiol) has become hugely popular as a beauty ingredient, especially when combined with other wonderful botanical ingredients. CBD is one of the most powerful parts of the cannabis and hemp plant and is immensely helpful for skincare needs

including acne, ageing and skin irritation. CBD has no psychoactive activity, unlike THC which is the psychoactive chemical element of the plant. This means you can benefit from the therapeutic effects of CBD without any other effects. Not only a medicinal aid, CBD can also be used in an oil within your beauty products and treatments since it is rich in antioxidants as well as having brilliant anti-inflammatory properties. The CBD Beauty Book shows you how to incorporate CBD oil into a range of homemade beauty products for your face, body and hair, all made with natural, vegan and nut-free ingredients which are kinder to your skin and to the environment. Recipes include an anti-ageing rosehip face oil, a honey and cinnamon anti-inflammatory face mask, divine orange and cocoa body butter and a body balm to relieve aches and pains.

Essential Rammed Earth Construction

Penguin

The highly anticipated cookbook from the immensely popular food blog Minimalist Baker, featuring 101 all-new simple, vegan recipes that all require 10 ingredients or less, 1 bowl or 1 pot, or 30 minutes or less to prepare Dana Shultz founded the Minimalist Baker blog in 2012 to share her passion for simple cooking and quickly gained a devoted worldwide following. Now, in this long-awaited debut cookbook, Dana shares 101 vibrant, simple recipes that are entirely plant-based, mostly gluten-free, and 100% delicious. Packed with gorgeous photography, this practical but inspiring cookbook includes: • Recipes that each require 10 ingredients or less, can be made in one bowl, or require 30 minutes or less to prepare. • Delicious options for hearty entrées, easy sides, nourishing breakfasts, and decadent desserts—all on the table in a snap • Essential plant-based pantry and equipment tips • Easy-to-follow, step-by-step recipes with standard and metric ingredient measurements Minimalist Baker's Everyday Cooking is a totally no-fuss approach to cooking for anyone who loves delicious food that happens to be

healthy too.

Straw Bale Details New Society Publishers
Sustainable building from the ground up - the pros and cons of the latest green and natural materials and technologies
Happy Homemade: Sew Chic Chelsea Green Publishing

Ramming earth has been a method of construction for centuries in many parts of the world and the technique can produce buildings that are strong, durable, safe and desirable. Because earth is an abundant and cheap resource, rammed earth buildings are often very economical. To achieve the best results the right techniques for the selection and testing of soils must be used to protect walls from water damage and shrinkage. This book aims to show how high standards can be achieved and the criteria on which rammed earth structures and building techniques can be judged. Since the first edition of this book was published, the standards described in Rammed Earth Structures has been adopted as a Building Standard in Zimbabwe. Further progress is being made extending the use of rammed earth as an officially sanctioned building material across all SADC countries. This

book is now therefore becoming an important guide and resource for those wishing to employ this economical and low-carbon building material in the construction of public as well as private buildings in Africa and elsewhere. This book aims to show how high standards can be achieved and the criteria on which rammed earth structures and building techniques can be judged. An important guide and resource for those wishing to employ this economical and low-carbon building material in the construction of public as well as private buildings in Africa and elsewhere.
