*The Poetry of Shaaban Robert* Nordic Africa Institute  
First edition of Bell's (1774-1842) important study of the anatomy and physiology of facial expression. The expressions, attitudes, and movements of the human body had always interested scientists as well as artists, but never before had they been treated with such depth and conciseness. The work reflects

Bell's brilliance as both artist and anatomist, and inspired Darwin's own *Expression of the Emotions* (1872), which he described Bell as one of the founders of the subject as a branch of science. Reynolds, 404, Wellcome, II, p.135, B & L Rootenberg, 1987  
*Biological Exuberance* Oxford, Clarendon P  
*Devil on the Cross* tells the tragic story of Wariinga, a young woman who emigrated from her small rural town to the city of Nairobi only to be exploited by her boss and later a corrupt businessman.  
*Parent-Child Relations: A Guide to Raising*

*Children (Revised Edition)* Institute of Kiswahili Research University of Dar Es Salaam

This is an extraordinary first novel by a Tanzanian women writer. The central character, Doreen, tells her story in the first person narrative. Born into a women headed household in a rural area, her inner life and development mirror her life's passage: education, career, the town, marriage and motherhood. Whilst not didactic nor impinging on beautifully crafted writing, the novel deals with gender politics from a local level rather

than a western oriented feminist stance. Both fatalism and seperatism are rejected and the book is imbued with insights and touchstones about the female condition. Kamusi Ya Tashbihi, Vitendawili, Milio Na Mishangao National Academies Press

Los presupuestos sexistas acerca de la vida familiar y el papel de la mujer se han introducido dentro del diseño de los edificios y las ciudades (inclusive en las construcciones mas modernas). Siete arquitectas y constructoras critican el entorno ambiental creado por los profesionales masculinos y muestran como las diseñadoras y consumidoras pueden trabajar juntas. Hablan de sus luchas para lograr un reconocimiento profesional, los intentos por mejorar el diseño de las casas para las clases trabajadoras en el periodo de entreguerras y de los experimentos, tales como restaurantes comunales durante la segunda guerra mundial, que pusieron en cuestion la convencion de que el lugar de la mujer esta en el hogar. Capitalist Nigger World Bank Publications

This paper on the social gains from female education is part of a series, prepared by the World Bank, on the benefits of

improving opportunities for women. The paper suggests that expanding women's opportunities enhances their productivity and earning potential and thus contributes to better economic performance and poverty alleviation. Education raises the productivity and earnings of both men and women. Over time female education also contributes to slower population growth and healthier families. The Bank believes that in efforts to expand women's opportunities, priority should be given to education through the secondary level, reproductive health, agriculture, private entrepreneurship, and the wage labor force. This paper is concerned with the estimation of these social gains from female education at the secondary level. The paper examines the role of female education, measured by gross enrollment rates at the secondary level, relative to, and or in combination with, some health and family planning services that influence fertility and infant mortality. It uses reduced form estimation of the total fertility rate and infant mortality rate. The paper presents cross country regressions based on data drawn from 72 developing countries. The analysis in this paper

generally shows that female secondary education, family planning, and health programs all affect fertility and mortality, and the effect of female secondary education appears to be very strong. Results suggest that family planning will reduce fertility more when combined with female education, especially in countries that now have low female secondary enrollment levels. (DK).

*A History of Tanzania* E&d Limited

The Social Security Administration (SSA) uses a screening tool called the Listing of Impairments to identify claimants who are so severely impaired that they cannot work at all and thus qualify for disability benefits. In this report, the Institute of Medicine (IOM) makes several recommendations for improving SSA's capacity for determining disability benefits more accurately and quickly using the HIV Infection Listings.

*Crusade for Liberation* St. Martin's Press

This is a comprehensive manual intended to teach students the basics of communicating in Swahili at an elementary level. It is designed to teach major communicative skills such as speaking, listening, reading, and writing.

Moreover, the text strives to impart fundamental knowledge about East African and Swahili culture.

Parched Earth Heinemann

This comprehensive volume seeks out ways in which those who are typically marginalized by, or excluded from, tourism can be brought into the industry in ways that directly benefit them. It addresses the central questions asked by an inclusive tourism approach: Who is included? On what terms? With what significance? Tourism is often understood and experienced as an exclusive activity, accessible only to the relatively wealthy. This volume seeks to counter that tendency by exploring how marginalized groups can gain more control over tourism. The book starts by defining the concept of inclusive tourism and discussing seven different elements which might indicate inclusivity in tourism. Research from a wide range of geographical contexts - from Cambodia to Australia, Sweden, Turkey and Spain - have been drawn upon to illustrate the need for more inclusive tourism. The examples encompass the actions of a multinational tour operator, hotel owners,

and social enterprises, while also examining how to ensure tourism is accessible for those with disabilities.

Inclusive tourism is offered here as both an analytical concept and an aspirational ideal. The authors hope that this book inspires a restless quest to find ways to include new actors and new places in tourism on terms that are equitable and sustainable. The chapters were originally published as a special issue of the journal *Tourism Geographies*.

**Swahili Poetry** Heinle & Heinle Publishers

The "Washington consensus" which ushered in neo-liberal policies in Africa is over. It was buried at the G20 meeting in London in early April, 2009. The world capitalist system is in shambles. The champions of capitalism in the global North are rewriting the rules of the game to save it. The crisis creates an opening for the global South, in particular Africa, to refuse to play the capitalist-imperialist game, whatever the rules. It is time to rethink and revisit the development direction and strategies on the continent. This is the central message of this intensely argued book. Issa Shivji demonstrates the need to go back to the

basics of radical political economy and ask fundamental questions: who produces the society's surplus product, who appropriates and accumulates it and how is this done. What is the character of accumulation and what is the social agency of change? The book provides an alternative theoretical framework to help African researchers and intellectuals to understand their societies better and contribute towards changing them in the interest of the working people.

A powerful collection of short stories set in Southern Africa.

*Kinjeketile* International Institute of Islamic Thought (IIIT)

A Publishers Weekly Best Book One of the New York Public Library's "25 Books to Remember" for 1999 Lavishly illustrated and meticulously researched, filled with fascinating facts and astonishing descriptions of animal behavior, Bruce Bagemihl's *Biological Exuberance* is a landmark book that will change forever how we look at nature. Homosexuality in its myriad forms has been scientifically documented in more than 450 species of

mammals, birds, reptiles, insects, and other animals worldwide. *Biological Exuberance* is the first comprehensive account of the subject, bringing together accurate, accessible, and nonsensationalized information. Drawing upon a rich body of zoological research spanning more than two centuries, Bagemihl shows that animals engage in all types of nonreproductive sexual behavior. Sexual and gender expression in the animal world displays exuberant variety, including same-sex courtship, pair-bonding, sex, and co-parenting—even instances of lifelong homosexual bonding in species that do not have lifelong heterosexual bonding. Part 1, "A Polysexual, Polygendered World," begins with a survey of homosexuality, transgender, and nonreproductive heterosexuality in animals and then delves into the broader implications of these findings, including a valuable perspective on human diversity. Bagemihl also examines the hidden assumptions behind the way biologists look at natural systems and suggests a fresh perspective based on the synthesis of contemporary scientific insights with traditional knowledge from

indigenous cultures. Part 2, "A Wondrous Bestiary," profiles more than 190 species in which scientific observers have noted homosexual or transgender behavior. Each profile is a verbal and visual "snapshot" of one or more closely related bird or mammal species, containing all the documentation required to support the author's often controversial conclusions. [On Literature and Art](#) Oxford University Press, USA

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other

communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

[Daily Christian Advocate](#) Routledge

This story unfolds amidst the traditional

social and cultural life of the people inhabiting Ukerewe in northern Tanzania. It tells of the lives of Mr Mr Myombekere and his wife Bugonoka whose love survives despite their failure to conceive children in a polygamous society where sterility is stigmatised, bearing children is a central source of meaning in life, and a man is expected to marry additional women until he produces a child. This couple remain committed only to one another and search for a cure to their ailment. Their actions strengthen their relationship, and they become an exemplary couple in their society, finally rewarded by the birth of a son and daughter. The genesis and evolution of Kitereza's epic novel and its context is as perhaps as remarkable as the work itself. Kitereza was born in Ukerewe in 1896 and wrote at the height of colonial rule, in part to preserve a culture threatened with extinction. He wished to keep alive the relationships of a people with one another and the land, and the spirit of cooperation on which their social life was based. He chose to write in his native Kikerewe because 'above all, I wanted this to be a way of preserving the language of our

ancestors, by showing the reader how beautifully they spoke to each other'. This classic Tanzanian story was written in Kikerewe in 1945, but to this day, remains unpublished in this language. Failure to find a publisher for the Kikerewe work persuaded Kitereza to translate his work into Swahili in 1969, which was then published in 1980 and widely acclaimed. Previously only available in the author's own Kiswahili translation, this is the first complete translation into English. The translator, Gabriel Ruhumbika is a writer, professor of literature and descendant of Kitereza. He had unique access to the author's manuscripts and diaries. Ruhumbika also provides a comprehensive introduction and explanatory notes on the text.

*Essays on the Anatomy of Expression in Painting* Dar Es Salaam University Press  
Modern families face challenges unprecedented in human history. The time, attention and vigilance required of parents is exhausting and consuming family life. Parents are required to balance complex schedules, be technology aware, social media informed, constantly monitor children's screen time and media

communication, cope with academic problems, shield them from the dangers of immorality, find inventive ways to overcome their boredom, organize extracurricular activities, and handle everything within financially constrained circumstances that increasingly require both to be working. Little wonder that anxiety is on the rise and parents are increasingly fearing for their children's future. The authors in this book attempt to address parents' concerns and equip them with the confidence and tools necessary to work towards understanding and addressing the real needs of both themselves and their children, to nurture the child's character, self-confidence, life skills, moral boundaries, spiritual development and much more. There is no quick-fix. Myths are debunked, and practical tips offered throughout which can be implemented immediately, with fun activities outlined at the end of each chapter with the aim of improving parent-child relationships through bonding, love, patience, openness, respect and communication.

[The Dark Side of Islam](#) African Writers Series

This massive authoritative Swahili dictionary, is the most definitive and comprehensive in existence. It has taken a team of lexicographers and academics fourteen years to prepare, with the support of the Institute of Kiswahili Research in Dar es Salaam. The last comparable edition was in 1939, and was primarily intended to help the user to comprehend English texts. The dictionary records new words and meanings of words which the language has acquired since

1939; and provides lexicographical information needed by current dictionary users. There are more than 50,000 entries, with an attempt to give every English word an equivalent in Swahili, or otherwise a phrase; and the vocabulary covers both general and specialized language. Guidance is provided on use and connotation, word formation and syntax, and derivatives and compounds of a headword are explicitly shown in each

entry. The full information and arrangement given for each entry is: headword, homographs, wordclass, alternative spelling of a headword, cross-reference, gloss, definition, subject label, usage label, regional label, senses separated by numbers, illustrative examples, compounds, derivatives, and adjectival complementation.
