The definitive history of
the acid house
explosion and its
reverberations across
popular culture,

Adventures In
Wonderland has been
out of print for more
than 20 years. This
new edition has been
updated slightly, with a
new introduction and
final chapter. This is
the acid house and
rave explosion, as told
by the people who
lived it: door staff,
dancers and drug
dealers; gangsters,

bloggers and promoters. From the real stories behind the huge illegal raves of 1989 to insider accounts from DJs such as Norman Jay, Trevor Nelson, Paul Oakenfold, Danny Rampling, Graeme Park, Mike Pickering, Carl Cox, Sasha and John Digweed. But this isn't just a book about the music. It's about being up for it. Out of it. And right in the middle of it. It's about the Paradise Garage in New York, about dancing under the stars in Ibiza or Goa, about the house we built in the UK at Future, Shoom, Spectrum, Clink Street and the Hacienda. It's about Ecstasy and community and a scene that grew with breath-taking speed because we needed to

feel that the world was changing. It's about dodging the police to get the party started, and the joy of dancing all night in the British countryside, with thousands of others on the same high. About Madchester, Blackburn, and a new understanding between rock and dance music. And about what came after, from drum'n'bass to the rise of superclubs such as Ministry of Sound, Renaissance and Cream. But most of all, it's about having the time of your life. And who wouldn't want that? "Adventures In Wonderland is the ultimate, definitive account of the scene. Precise factually and perfectly articulated, it transports the reader to that unique, life-changing period.

Sheryl Garratt was there, reporting from the core energy of the scene that we collectively created." - Danny Rampling

"Gripping and vivid.. Garratt writes with the style and attitude of the feistiest club diva... Her personal memories are wedged between layers of insightful comment and thorough research." - The Times

"She has spoken to everyone involved - from the Chicago DJs of the 80s to the rave promoters and club moguls of the 90s - and shows that it's possible to write popular culture without insulting our intelligence." - Daily Mirror

"The definitive account of contemporary dance culture.. If you weren't at Shoom in '87, then this is the best way to

make up for it." - The Face Long-listed for the 2021 Penderyn Prize for music books.

"Modern Review."

"Neoism, Plagiarism & Praxis" is concerned with what's been happening at the cutting edge of culture since the demise of Fluxus and the Situationists. It provides inside information on the Neoists, Plagiarists, Art Strikers, London Psychogeographical Association, K Foundation, and other groups that are even more obscure. "

Wayne State University Press
Winner of the 2020 Choice Outstanding Academic Title Award
Guy Debord, the Situationist International, and the Revolutionary Spirit presents a history of the two avant-garde groups that French filmmaker and subversive strategist Guy Debord founded and led: the Lettrist International (1952-1957) and the Situationist International (1957-1972). Debord is popularly known for his classic book *The Society of the Spectacle* (1967), but his masterwork is the Situationist International (SI), which he fashioned into an international

revolutionary avant-garde group that orchestrated student protests at the University of Strasbourg in 1966, contributed to student unrest at the University of Nanterre in 1967–1968, and played an important role in the occupations movement that brought French society to a standstill in May of 1968. The book begins with a brief history of the Lettrist International that explores the group’s conceptualization and practice of the critical anti-art practice of détournement, as well as the subversive spatial practices of the dérive, psychogeography, and unitary urbanism. These practices, which became central to the Situationist

International, anticipated many contemporary cultural practices, including culture jamming, critical media literacy, and critical public pedagogy. This book follows up the edited book *Détournement as Pedagogical Praxis* (Sense Publishers, 2014), and together they offer readers, particularly those in the field of Education, an introduction to the history, concepts, and critical practices of a group whose revolutionary spirit permeates contemporary culture, as can be seen in the political actions of Pussy Riot in Russia, the “yellow vest” protesters in France, the #BlackLivesMatter movement, and the striking teachers and student protesters on

campuses throughout the U.S. See inside the book.

"In this frank and gritty memoir, Peter Gatien charts the seismic changes in his personal and professional life and the targeted destruction of his nightclub empire. From

Peter's childhood in a Canadian mill town to the freedom of the 1970s, through the excesses of the 1980s and the ensuing crackdown in the 1990s, *The Club King* chronicles the birth and death of a cultural movement--and the life of the man who was in control of every beat."-

Rave on, with this fabulous collection of memorabilia from the extensive collection of Chelsea Louise Berlin, who lived the rave movement in its entirety. In the late '80s and early '90s, rave exploded--and became a driving force that reverberates today in music, fashion, and art. Chelsea Louise Berlin was there from the

start, attending legendary events from Club Shroom to Energy and beyond. She tells the story of rave through her personal collection of bright, incredible flyers, invitations, posters, and membership cards. Through these indelible artifacts, reminiscences, and quotes, she captures a world of warehouse takeovers, trippy lightshows, Ecstasy, and nonstop dancing. Rave Art paints a picture of what is probably the last significant unplugged youth subculture of modern times.

The second volume of writings by Los Angeles artist Mike Kelley, focusing on his own work. What John C.

Welchman calls the "blazing network of focused confluents" from which Mike Kelley's styles are generated is on display in all its diversity in this second volume of the artist's writings. The first volume, *Foul Perfection*, contained thematic essays and writings about other artists; this collection concentrates on Kelley's own work, ranging from texts in "voices" that grew out of scripts for performance pieces to expository critical and autobiographical writings. *Minor Histories* organizes Kelley's writings into five sections. "Statements" consists of twenty pieces produced between 1984 and 2002 (most of which were written to accompany

exhibitions), including "Ajax," which draws on Homer, Colgate-Palmolive, and Longinus to present its eponymous hero; "Some Aesthetic High Points," an exercise in autobiography that counters the standard artist bio included in catalogs and press releases; and a sequence of "creative writings" that use mass cultural tropes in concert with high art mannerisms—approximating in prose the visual styles that characterize Kelley's artwork. "Video Statements and Proposals" are introductions to videos made by Kelley and other artists, including Paul McCarthy and Bob Flanagan and Sheree Rose. "Image-Texts" offers writings that accompany or are part

of artworks and installations. This section includes "A Stopgap Measure," Kelley's zestful millennial essay in social satire, and "Meet John Doe," a collage of appropriated texts. "Architecture" features an discussion of Kelley's Educational Complex (1995) and an interview in which he reflects on the role of architecture in his work. Finally, "Ufology" considers the aesthetics and sexuality of space as manifested by UFO sightings and abduction scenarios. Neoism, Plagiarism & Praxis Flamant The French writer Nicolas Bourriaud discusses how, since the early nineties, an ever increasing number of artworks have been created on

the basis of preexisting works; more and more artists interpret, reproduce, re-exhibit, or use works made by others or available cultural products. This art of postproduction seems to respond to the proliferating chaos of global culture in the information age, which is characterized by an increase in the supply of works and the art worlds annexation of forms ignored or disdained until now. First published in 2002, this 2nd edition contains a new foreword where the author reflects on how the art of postproduction developed over the last couple of years. Nicolas Bourriaud is the co-director of the Palais de Tokyo in Paris. His previous books include *L'ère tertiaire*

(Flammarion), *Ésthétique relationnelle* (Presses du réel), and *Formes de vie* (Denoël). *Liberation Through Hearing* MIT Press
 Outrageous parties. Brazen drug use. Fantastical costumes. Celebrities. Wannabes. Gender-bending club kids. Pulse-pounding beats. Sinful orgies. Botched police raids. Depraved criminals. Murder. Welcome to the decadent nineties club scene. In 1995, journalist Frank Owen began researching a story on Special K, a designer drug that fueled the after-midnight club scene. He went to buy and sample the drug at the internationally notorious Limelight, a crumbling church converted into a Manhattan disco,

where mesmerizing music, ecstatic dancers, and uninhibited sideshows attracted long lines of hopeful onlookers. Owen discovered a world where reckless hedonism was elevated to an art form, and where the ever-accelerating party finally spun out of control in the hands of notorious club owner Peter Gatien and his minions. In *Clubland*, Owen reveals how a lethal drug ring operated in a lawless, black-lit realm of fantasy, and how, when the lights came up, their excesses left countless victims in their wake. Praised for his risk-taking and exhilarating writing style, Frank Owen has spawned a hybrid of literary nonfiction and true crime, capturing

the zeitgeist of a world that emerged in the spirit of "peace, love, unity and respect," and ended in tragedy. Retromania Little A Beloved columnist and bestselling author Regina Brett offers her special brand of uplifting, yet practical advice to help readers find fulfillment in their work . . . and to deal with unexpected challenges. In this inspiring collection, Brett focuses on how we relate to our work, or lack of work, and the seeking of something deeper and more meaningful in our career and life. With essays like "Every job is as magical as you make it" and "Only you can determine your worth," this book relates tales of discouragement turning into hope, and

persistence paying big dividends. People with challenges in their jobs or job search will find solace and advice.

Overview: Although the most vital and innovative trend in contemporary music, techno is notoriously difficult to define.

What, exactly, is techno? Author Dan Sicko offers an entertaining, informed, and in-depth answer to this question in *Techno Rebels*, the music's authoritative American chronicle and a must-read for all fans of techno popular music, and contemporary culture.

No Sleep Grand Central Publishing

Ecstasy did for house music what LSD did for psychedelic rock. Now, in *Energy Flash*,

journalist Simon Reynolds offers a revved-up and passionate inside chronicle of how MDMA ("ecstasy") and MIDI (the basis for electronica) together spawned the unique rave culture of the 1990s. England, Germany, and Holland began tinkering with imported Detroit techno and Chicago house music in the late 1980s, and when ecstasy was added to the mix in British clubs, a new music subculture was born. A longtime writer on the music beat, Reynolds started watching—and partaking in—the rave scene early on, observing firsthand ecstasy's sense-heightening and serotonin-surgingly effects on the music and the scene. In

telling the story, Reynolds goes way beyond straight music history, mixing social history, interviews with participants and scene-makers, and his own analysis of the sounds with the names of key places, tracks, groups, scenes, and artists. He delves deep into the panoply of rave-worthy drugs and proper rave attitude and etiquette, exposing a nuanced musical phenomenon. Read on, and learn why is nitrous oxide is called “hippy crack.”

club life as told through flyer art. Spanning the late 80s through the late 90s, when nightlife buzz travelled via flyers and word of mouth, No Sleep features a collection of artwork from the personal archives of NYC DJs, promoters, club kids, nightlife impresarios, and the artists themselves. Club flyers, by design, were ephemeral objects distributed on street corners, outside of nightclubs and concert halls, in barbershops and retail shops, and were not intended to be preserved for posterity. Through the 90s, they became both increasingly prevalent and more sophisticated as printing technology evolved. Overnight, however, with the advent of the internet,

the flyer essentially disappeared, despite it being common at one time for promoters to print thousands of flyers for any given event. Recently, these flyers have become sought-after collector's items.

One of The Telegraph's Best Music Books 2011

We live in a pop age gone loco for retro and crazy for commemoration. Band re-formations and reunion tours, expanded reissues of classic albums and outtake-crammed box sets, remakes and sequels, tribute albums and mash-ups . . . But what happens when we run out of past? Are we heading toward a sort of culturalecological catastrophe where the

archival stream of pop history has been exhausted? Simon Reynolds, one of the finest music writers of his generation, argues that we have indeed reached a tipping point, and that although earlier eras had their own obsessions with antiquity—the Renaissance with its admiration for Roman and Greek classicism, the Gothic movement's invocations of medievalism—never has there been a society so obsessed with the cultural artifacts of its own immediate past. *Retromania* is the first book to examine the retro industry and ask the question: Is this retromania a death knell for any originality and distinctiveness of our own?

 Anyone who saw a Midnight Oil show remembers it. As a poster for a show in Montreal (where one writer described them as the most important band in the world) said: They're not punk, they're not pop, they're not kidding. By the mid-1980s, music fans in Australia knew they had the best band in the world. They also knew that the very essence of that band, their loudly trumpeted Australian identity that permeated every note of their music, was the very thing that would ensure the rest of the world would never understand them. They were wrong. More than a dozen US and Canadian tours, nearly as many European tours, and tours of South America and

South Africa are testament to this. And lets not forget the Top 10 albums and singles, and some of the most glowing live reviews ever written. Grab a

large, strong drink, sit or stand in a stable place with something to hang on to, and discover how the world found the power and the passion.
