**A History of South Africa** Random House

Nelson Mandela, who emerged from twenty-six years of political imprisonment to lead South Africa out of apartheid and into democracy, is perhaps the world’s most admired leader, a man whose life has been led with exemplary courage and inspired conviction. Now Anthony Sampson, who has known Mandela since 1951 and has been a close observer of South Africa’s political life for the last fifty years, has produced the first authorized biography, the most informed and comprehensive portrait to date of a man whose dazzling image has been difficult to penetrate. With unprecedented access to Mandela’s private papers (including his prison memoir, long thought to have been lost), meticulous research, and hundreds of interviews—from Mandela himself to prison warders on Robben Island, from Walter Sisulu and Oliver Tambo to Winnie Mandela and F. W. de Klerk, and many others intimately connected to Mandela’s story—Sampson has composed an enlightening and necessary story of the man behind the myth.

From the heart and soul of visionary Nobel Peace Prize winner Nelson Mandela, a collection of his most uplifting, time-honored quotes that have inspired our world and offer a path for peace. “The book that you hold in your hands is nothing short of a miracle.” —Desmond Tutu, from the Introduction Notes to the Future is the definitive book of quotations from one of the great leaders of our time. This collection—gathered from privileged access to Mandela’s vast personal archive of private papers, speeches, correspondence, and audio recordings—features more than three hundred quotations spanning more than sixty years and includes his Nobel Peace Prize acceptance speech. These inspirational quotations, organized into four sections—Struggle, Victory, Wisdom, and Future—are both universal and deeply personal. We see Mandela’s sense of humor, his loneliness

and despair, his thoughts on fatherhood, and the reluctant leader who had no choice but to become the man history demanded. “A good pen can also remind us of the happiest moments in our lives, bring noble ideas into our dens, our blood and our souls. It can turn tragedy into hope and victory” (from a letter to Zindzi Mandela, written on Robben Island, February 10, 1980).

**Nelson Mandela: From Prisoner to President, Biography of Nelson Mandela** Little, Brown

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she’s showing us how to put those ideas into practice so we can step up and lead. Don’t miss the five-part Max docuseries Brené Brown: Atlas of the Heart! ONE OF BLOOMBERG’S BEST BOOKS OF THE YEAR Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don’t pretend to have the right answers; we stay curious and ask the right questions. We don’t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don’t avoid difficult conversations and situations; we lean into vulnerability when it’s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we’re choosing not to invest in developing the hearts and minds of leaders at the exact same time as we’re scrambling to figure out what we have to offer that machines and AI can’t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In Dare to Lead, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It’s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It’s why we’re here.” Whether you’ve read Daring Greatly and Rising Strong or you’re new to Brené Brown’s work, this book is for anyone who wants to step up and into brave leadership.

The first-ever insider account of Camp David, the president’s private retreat, on the seventy-fifth anniversary of its inception. Never before have the gates of Camp David been opened to the public. Intensely private and completely secluded, the president’s personal campground is situated deep in the woods, up miles of unmarked roads that are practically invisible to the untrained eye. Now, for the first time, we are allowed to travel along the mountain route and directly into the fascinating and intimate complex of rustic residential cabins, wildlife trails, and athletic courses that make up the presidential family room. For seventy-five years, Camp David has served as the president’s private retreat. A home away from the hustle and bustle of Washington, this historic site is the ideal place for the First Family to relax, unwind, and, perhaps most important, escape from the incessant gaze of the media and the public. It has hosted decades of family gatherings for thirteen presidents, from Franklin D. Roosevelt to Barack Obama, including holiday celebrations, reunions, and even a wedding. But more than just a weekend getaway, Camp David has also been the site of private meetings and high-level summits with foreign leaders to foster diplomacy. Former Camp David commander Rear Admiral Michael Giorgione, CEC, USN (Ret.), takes us deep into this enigmatic and revered sanctuary. Combining fascinating first-person anecdotes of the presidents and their families with storied history and interviews with commanders both past and present, he reveals the intimate connection felt by the First Families with this historic retreat.

Our Long Walk to Economic Freedom is an entertaining and engaging guide to global economic history told for the first time from an African perspective. In thirty-five short chapters Johan Fourie tells the story of 100,000 years of human history spanning humankind’s migration out of Africa to the Covid-19 pandemic. His unique account reveals just how much we can learn by asking unexpected questions such as ‘How could a movie

embarrass Stalin?’, ‘Why do the Japanese play rugby?’ and ‘What do an Indonesian volcano, Frankenstein and Shaka Zulu have in common?’. The book sheds new light on urgent debates about the roots and reasons for prosperity, the march of opportunity versus the crushing boot of exploitation, and why it is the builders of society – rather than the burglars –who ultimately win out.

*The Long Walk to Freedom* Little, Brown

In 1906 when the Creek Indian Chitto Harjo was protesting the United States government’s liquidation of his tribe’s lands, he began his argument with an account of Indian history from the time of Columbus, “for, of course, a thing has to have a root before it can grow.” Yet even today most intelligent non-Indian Americans have little knowledge of Indian history and affairs those lessons have not taken root. This book is an in-depth historical survey of the Indians of the United States, including the Eskimos and Aleuts of Alaska, which isolates and analyzes the problems which have beset these people since their first contacts with Europeans. Only in the light of this knowledge, the author points out, can an intelligent Indian policy be formulated. In the book are described the first meetings of Indians with explorers, the dispossession of the Indians by colonial expansion, their involvement in imperial rivalries, their beginning relations with the new American republic, and the ensuing century of war and encroachment. The most recent aspects of government Indian policy are also detailed the good and bad administrative practices and measures to which the Indians have been subjected and their present situation. Miss Debo’s style is objective, and throughout the book the distinct social environment of the Indians is emphasized—an environment that is foreign to the experience of most white men. Through ignorance of that culture and life style the results of non-Indian policy toward Indians have been centuries of blundering and tragedy. In response to Indian history, an enlightened policy must be formulated: protection of Indian land, vocational and educational training, voluntary relocation, encouragement of tribal organization, recognition of Indians’ social groupings, and reliance on Indians’ abilities to direct their own lives. The result of this new policy would be a chance for Indians to live now, whether on their own land or as adjusted members of white society. Indian history is usually highly specialized and is never recorded in books of general history. This book unifies the many specialized volumes which have been written about their history and culture. It has been written not only for persons who work with Indians or for students of Indian culture, but for all Americans of good will.

The extraordinary life of Priscilla Joyner and her quest—along with other formerly enslaved people—to define freedom after the Civil War. Priscilla Joyner was born into the world of slavery in 1858 North Carolina and came of age at the dawn of emancipation. Raised by a white slaveholding woman, Joyner never knew the truth about her parentage. She grew up isolated and unsure of who she was and where she belonged—feelings that no emancipation proclamation could assuage. Her life story—candidly recounted in an oral history for the Federal Writers’ Project—captures the intimate nature of freedom. Using Joyner’s interview and the interviews of other formerly enslaved people, historian Carole Emberton uncovers the deeply personal, emotional journeys of freedom’s charter generation—the people born into slavery who walked into a new world of freedom during the Civil War. From the seemingly mundane to the most vital, emancipation opened up a myriad of new possibilities: what to wear and where to live, what jobs to take and who to love. Although Joyner was educated at a Freedmen’s Bureau school and married a man she loved, slavery cast a long shadow. Uncertainty about her parentage haunted her life, and as Jim Crow took hold throughout the South, segregation, disfranchisement, and racial violence threatened the loving home she made for her family. But through it all, she found beauty in the world and added to it where she could. Weaving together illuminating voices from the charter generation, *To Walk About in Freedom* gives us a kaleidoscopic look at the lived experiences of emancipation and challenges us to think anew about the consequences of failing to reckon with the afterlife of slavery.

Biography of Nelson Mandela - From Prisoner to President When Nelson Mandela was released from prison after 27 years on 11 February 1990, the eyes of the world were on South Africa. He was the most iconic figure in the fight against apartheid, the political regime established in 1948 which institutionalized racial segregation in all aspects of life in South Africa. Images of his release were broadcast across the world and inspired hope of a better future for the country. When he left prison, his fist raised in a victory salute and welcomed by an enthusiastic crowd. His last speech before he was sentenced was at the forefront of everyone’s minds. After his release, he played an important role in the negotiations between his party, the ANC, and the South African regime, which resulted in the dismantling of apartheid and the organization of the country’s first democratic elections. When he was elected president of the new "Rainbow Nation" in 1994, he faced the difficult task of leading South Africa down the long and bumpy road to reconciliation, assuaging the fears of the country’s white citizens and fulfilling the hopes of its black citizens.
