How to Think Penguin

A.J. Jacobs has received some strange emails over the years, but this note was perhaps the strangest: "You don't know me, but I'm your eighth cousin. And we have over 80,000 relatives of yours in our database." And so begins A.J. Jacobs's quest to build the biggest family tree in history. In an era of us-versus-them thinking, this book is a hilarious, heartfelt and profound exploration of what binds us all - where family begins, how far it goes, and the science that is revolutionizing the way we think about ethnicity, history and the human species. This book is about A.J. Jacobs's family. But it's also about your family. Because it is the same family.

It was a hot afternoon in August 1856 when people in southern Iredell County, North Carolina, gathered for a special event. The train was on its way, bringing officials, a brass band, and the economic future. John Franklin Moore viewed the railroad tracks as an opportunity to fulfill his dream of starting a community and building a town. He knew that trains would bring customers and new citizens and carry freight to and from markets. Moore took a bold step by providing land for a depot and siding and offering land for homes and businesses. Moores Siding prospered and grew, and in 1873,

the village was incorporated and named Mooresville to honor the founder. Generations of Mooresville citizens have taken daring steps into the future, building a community that is more than just a place to call home. This is a story of Mooresville, the Queen of Iredell.

In this indispensable book, urban visionary Jane Jacobs argues that as agrarianism gives way to a technology-based future, we're at risk of cultural collapse. Jacobs—renowned author of *The Death and Life of Great American Cities* and *The Economy of Cities*—pinpoints five pillars of our culture that are in serious decay: community and family; higher education; the effective practice of science; taxation, and government; and the self-regulation of the learned professions. The corrosion of these pillars, Jacobs argues, is linked to societal ills such as environmental crisis, racism, and the growing gulf between rich and poor. But this is a hopeful book as well as a warning. Drawing on a vast frame of reference—from fifteenth-century Chinese shipbuilding to Ireland's cultural rebirth—Jacobs suggests how the cycles of decay can be arrested and our way of life renewed. Invigorating and accessible, *Dark Age Ahead* is not only the crowning achievement of Jane Jacobs' career, but one of the most important works of our time.

Although millions of African American women were held in bondage over the 250 years that slavery was legal in the United States, Harriet Jacobs (1813-97) is the only one known to have left papers testifying to her life. Her autobiography, *Incidents in the Life of a Slave Girl*, holds a central place in the canon of American literature as the most important slave narrative by an African American woman. Born in Edenton, North Carolina, Jacobs

escaped from her owner in her mid-twenties and hid in the cramped attic crawlspace of her grandmother's house for seven years before making her way north as a fugitive slave. In Rochester, New York, she became an active abolitionist, working with all of the major abolitionists, feminists, and literary figures of her day, including Frederick Douglass, Lydia Maria Child, Amy Post, William Lloyd Garrison, Susan B. Anthony, Harriet Beecher Stowe, Fanny Fern, William C. Nell, Charlotte Forten Grimke, and Nathan Parker Willis. Jean Fagan Yellin has devoted much of her professional life to illuminating the remarkable life of Harriet Jacobs. Over three decades of painstaking research, Yellin has discovered more than 900 primary source documents, approximately 300 of which are now collected in two volumes. These letters and papers written by, for, and about Jacobs and her activist brother and daughter provide for the thousands of readers of *Incidents--from scholars to schoolchildren--access to the rich historical context of Jacobs's struggles against slavery, racism, and sexism beyond what she reveals in her pseudonymous narrative. Accompanied by a CD containing a searchable PDF file of the entire contents, this collection is a crucial launching point for future scholarship on Jacobs's life and times.*

A NEW YORKER "ESSENTIAL READ" "Just as awe-inspiring as the Nobel judges claimed." – The Washington Post "Olga Tokarczuk is one of our greatest living fiction writers. . . This could well be a decade-defining book akin to Bolaño's 2666." –AV Club "Sophisticated and ribald and brimming with folk wit. . . The comedy in this novel blends, as it does in life, with genuine tragedy." –Dwight Garner, The New York Times LONGLISTED FOR THE 2022 NATIONAL BOOK AWARD NAMED A BEST BOOK OF THE YEAR BY THE NEW YORK TIMES, THE WALL STREET JOURNAL, TIME, THE NEW YORKER, AND NPR The Nobel Prize-winner's richest, most sweeping and ambitious novel yet follows the comet-like rise and fall of a mysterious, messianic religious leader as he blazes his way across eighteenth-century Europe. In the mid-eighteenth century, as new ideas—and a new unrest—begin to sweep the Continent, a young Jew of mysterious origins arrives in a village in Poland. Before long, he has changed not only his name but his persona; visited by what seem to be ecstatic experiences, Jacob Frank casts a charismatic spell that attracts an increasingly fervent following. In the decade to come, Frank will traverse the Hapsburg and Ottoman empires with throngs of disciples in his thrall as he reinvents himself again and again, converts to Islam and then Catholicism, is pilloried as a heretic and revered as the Messiah, and wreaks havoc on the conventional order, Jewish and Christian alike, with scandalous rumors of his sect's secret rituals and the spread of his increasingly iconoclastic beliefs. The story of Frank—a real historical figure around whom mystery and controversy swirl to this day—is the perfect canvas for the genius and unparalleled reach of Olga Tokarczuk. Narrated through the perspectives of his contemporaries—those who revere him, those who revile him, the friend who betrays him, the lone woman who sees him for what he is—The Books of Jacob captures a world on the cusp of precipitous change, searching for certainty and longing for transcendence. In a nod to books written in Hebrew, The Books of Jacob is paginated in reverse, beginning on p. 955 and ending on p. 1 – but read traditionally, front cover to back.

In recent years, cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books, in the right way. In this book, Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential, and a recent NEA survey reveals an actual uptick in the reading of literary fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence; they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is, first and foremost, good for you--the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much needed advice: read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer Adler's classic *How to Read a Book* (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction, and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices. Invitingly written, with equal measures of wit and erudition, *The Pleasures of Reading in an Age of Distraction* will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children.

In this work Calum Carmichael—a legal scholar who applies a literary approach to the study of the Bible—shows how each law and each narrative in Numbers, the least researched book in the Pentateuch, responds to problems arising in narrative incidents in Genesis. The book continues Carmichael's process of demonstrating how every law in the Pentateuch is a response to a problem arising in a biblical narrative, not to an inferred societal situation.

Jacob Rees-Mogg is one of the most prominent and controversial figures in contemporary British politics. He is a man who divides opinion in his own party, in Parliament and across the country. An arch-Brexiteer with significant business interests and a large personal fortune, he has long been a vocal critic of the European Union and of Prime Minister Theresa May's attempts to negotiate a Brexit deal. As chairman of the powerful anti-EU organisation the European Research Group, he has also been a thorn in the side of those seeking to dilute Brexit. While many people mock him for his impeccable manners and traditional attitudes – he has been dubbed 'the Honourable Member for the eighteenth century' – an equally great number applaud him for his apparent conviction politics. Undoubtedly, Rees-Mogg stands out among the current crop of MPs and his growing influence cannot be ignored. In this wide-ranging unauthorised biography of the Conservative Member of Parliament for North East Somerset, Michael Ashcroft, bestselling author of *Call Me Dave: The Unauthorised Biography of David Cameron*, turns his attention to one of the most intriguing politicians of our time.

How do TV shows, vending machines, Chinese taxi companies, and a former UK prime minister point to a gold bubble that is about to burst? Many investors consider gold a "safe haven" that will shelter them from recessions, falling markets, and the depreciating value of currency. Many fail to realize, however, that investing in gold at these levels is extremely risky. "We Buy Gold" stores line busy streets, gold miners are no longer protecting themselves from a potential drop in prices, and gold is even being sold in vending machines. All this points to one thing: a gold bubble has formed and will collapse very soon, hurting investors, funds, and banks. In *Gold Bubble: Profiting From Gold's Impending Collapse*, Yoni Jacobs looks at how you can protect yourself. Presenting an in-depth analysis of gold dating back over a hundred years, the book explores the structural factors that have allowed gold to form a bubble, why an investor psychology of fear and greed is leading to extremely speculative behavior, why gold will fall during an upcoming recession, what effect the dollar and the stock market will have on the future of gold prices, and how to profit from a gold collapse while the majority of investors lose out. There are plenty of warning signs that gold is about to decline and this book will help you to get ready *Gold Bubble* is the only book to argue that a gold bust is coming, going head-to-head with the herd mentality Filled with practical advice on how to protect yourself and even profit from gold's collapse by being prepared for what's ahead With gold prices up over 2,500 percent since 1970, and more than 600 percent since 1999, a bubble has formed and is on the verge of bursting. But until now, no one has been willing to publicly bet against the universal currency. With *Gold Bubble* you are ready to meet this challenge head on, and take advantage of what other investors won't even acknowledge.
