Wartime Captivity in the 20th Century

Walter Schmid, a member of Rommel's Afrika Korps, was one of hundreds of thousands of POWs interned in the United States during World War II. Drafted into the German army at twenty, he had fought for only five months when captured in Tunisia in May 1943. Schmid was sent first to POW

camps in Oklahoma (Gruber, Bixby, and McAlester) and was soon transferred to New Mexico in July 1944. Walter Schmid worked in southern New Mexico's Mesilla Valley picking cotton and harvesting melons alongside Mexican-American laborers. He recalls playing trumpet in the camp orchestra and watching Sunday soccer games between the teams of rival POW camps. Based on his diary and the letters he sent home to his German girlfriend, whom he later married, Schmid's memoir was published in Germany in 2000. This abbreviated English translation begins with his capture in North Africa and his voyage to the United States and ends with his work experience in England, where he was transferred after almost three years of captivity in the United States, and his return to Germany in 1947.

Military institutions have everywhere and always shaped the course of history, but women's near universal participation in them has largely gone unnoticed. This volume addresses the changing relationships between women and armed forces from antiquity to the present. The eight chapters in Part I present broad, scholarly reviews of the existing literature to provide a clear understanding of where we stand. An extended picture essay documents visually women's military work since the sixteenth century. The book's second part comprises eight exemplary articles, more narrowly focused than the survey articles but illustrating some of their major themes. Military history will benefit from acknowledging women's participation, as will women's history from recognizing military institutions as major factors in molding women's lives. Contributors include Jorit Wintjes, Mary Elizabeth Ailes, John A. Lynn, Barton C. Hacker, Kimberly Jensen, Margaret Vining, D'Ann M. Campbell, Carol B. Stevens, Jan Noel, Elizabeth Prelinger, Donna Alvah, Karen Hagemann, Yehudit Kol-Inbar, Dorotea Gucciardo and Megan Howatt, and Judith Hicks Stiehm.

From Incarceration to Repatriation explores the lives and memories of the nearly 1.5 million German POWs who were held by the Soviet Union during and after World War II and released in phases through 1956, seven years longer than the prisoners of any other Allied nation. Susan C. I. Grunewald argues that Soviet leadership deliberately kept able-bodied German POWs to supplement their labor force after the end of the war. The Soviet Union lost 27 million citizens and a quarter of its physical assets during the war, motivating Soviet leadership to harness the labor of German POWs for as long as possible. Engaging with recently declassified documents in former Soviet archives, archival material from multiple German governments, as well as innovative use of digital humanities methods and geographic information system (GIS) mapping, Grunewald demonstrates that Soviet authorities detained German POWs primarily for economic rather than punitive reasons. In fact, the GIS mapping of the historical materials makes it clear that most of the four thousand

POW camps across the USSR were strategically located near industrial, infrastructure, and natural resource sites that were critical to postwar economic reconstruction. From Incarceration to Repatriation is the first book to draw together the distinct fields of Soviet and German history to provide a more nuanced and comprehensive understanding of German POW captivity in the USSR during and after World War II. Attending to the ways that the memory of German POWs remains in circulation in both the former Soviet Union and Germany, Grunewald tracks the political repercussions of war commemoration.

Zur Geschichte der deutschen Kriegsgefangenen des Zweiten Weltkrieges Princeton University Press Provides a guide to the extensive literature on the war in the East, including largely unknown Soviet writing on the subject. Sections on policy and strategy, the military campaign, the ideologically motivated war of annihilation in the East, the occupation, and coming to terms with the results of the war offer a wealth of bibliographic citations, and include introductions detailing history of the period and related issues. For military historians, and for scholars who approach this period in history from a socio-economic or cultural perspective. No index. Annotation copyrighted by Book News, Inc., Portland, OR

Stereotypical descriptions showcase West Germany as an "economic miracle" or cast it in the narrow terms of Cold War politics. Such depictions neglect how material hardship preceded success and how a fascist past and communist sibling complicated the country's image as a bastion of democracy. Even more disappointing, they brush over a rich and variegated cultural history. That history is told here by leading scholars of German history, literature, and film in what is destined to become the volume on postwar West German culture and society. In it, we read about the lives of real people--from German children fathered by black Occupation soldiers to communist activists, from surviving Jews to Turkish "guest" workers, from young hoodlums to middle-class mothers. We learn how they experienced and represented the institutions and social forces that shaped their lives and defined the wider culture. We see how two generations of West Germans came to terms not only with war guilt, division from East Germany, and the Angst of nuclear threat, but also with changing gender relations, the Americanization of popular culture, and the rise of conspicuous consumption. Individually, these essays peer into fascinating, overlooked corners of German life. Together, they tell what it really meant to live in West Germany in the 1950s and 1960s. An indispensable reference on concentration camps, death camps, prisoner-of-war camps, and military prisons offering broad historical coverage as well as detailed analysis of the nature of captivity in modern conflict. This comprehensive reference work examines internment, forced labor, and extermination during times of war and genocide, with a focus on the 20th and 21st centuries and particular attention paid to World War II and recent conflicts in the Middle East. It explores internment as it has been used as a weapon and led to crimes against humanity and is ideal for students of global studies, history, and political science as well as politically and socially aware general readers. In addition to entries on such notorious camps as Abu Ghraib, Andersonville,

Auschwitz, and the Hanoi Hilton, the encyclopedia includes profiles of key perpetrators of camp and prison atrocities and more than a dozen curated and contextualized primary source documents that further illuminate the subject. Primary sources include United Nations documents outlining the treatment of prisoners of war, government reports of infamous camp and prison atrocities, and oral histories from survivors of these notorious facilities.

A Century of Italian War Narratives Springer Nature

Long a topic of historical interest, wartime captivity has over the past decade taken on new urgency as an object of study. Transnational by its very nature, captivity's historical significance extends far beyond the front lines, ultimately inextricable from the histories of mobilization, nationalism, colonialism, law, and a host of other related subjects. This wide-ranging volume brings together an international selection of scholars to trace the contours of this evolving research agenda, offering fascinating new perspectives on historical moments that range from the early days of the Great War to the arrival of prisoners at Guantanamo Bay.

Based on archival research in Germany, Great Britain, the USA and Canada, this study provides the first complete examination of the relationship between the Oberkommando der Wehrmacht (German Armed Forces High Command), and Anglo-American prisoners of war. German military policy is compared with reports of almost one thousand visits by Red Cross and Protecting Power inspectors to the camps, allowing the reader to judge how well the policies were actually put into practice, and what their impact was on the lives of the captured soldiers, sailors and airmen.

This is the first comprehensive study on the life and works of Erich Maschke, an NS historian who had a second career following World War II. This life and works of the historian Erich Maschke (1900-1982) were marked by many of the wars, crises, changes and schisms that Germany itself experienced in the 20th century. Maschke was a researcher of Eastern Europe and a historian for the Nazi regime in Königsberg (Kaliningrad), Jena and Leipzig. After returning from a long time in captivity as a POW in the USSR, he moved to Heidelberg where he became one of the pioneers of the social history of that medieval city. This volume illuminates the relationship between history and politics as one of the constants in Maschke's works and influence. The author describes one of rare cases of a successful second career in the field of history.

This book brings together historians from Great Britain, the United States, Germany, France, Canada, Austria, and Latvia who have worked and published on fraternisation between Prisoners of War and local women during either the First or Second World War, providing the first comparative study of this multi-faceted phenomenon in different belligerent countries. By focusing on prisoners

as wartime migrants and studying the nature and impact of their interactions with the local female population, this book expands the existing framework on prisoner of war studies. Its substantial scope and comparative approach make it an important point of reference in the growing research field of POW studies.

Relationships/Beziehungsgeschichten. Austria and the United States in the Twentieth Century BRILL

This volume focuses on acts of courage, defiance, and sacrifice undertaken during World War I and II by individuals that mainstream history has relegated to the sidelines. Drawn from different genres - literary, cinematic, diaristic and historical - the experiences that these 'outsiders' confronted lay bare the intimate, if lacerating, choices that they faced in their struggle for freedom. Ignored by official history, the testimonials that war prisoners, female partisan leaders, spies, deserters, and disillusioned soldiers offer, provide a fresh insight into the social, political, historical, and ethical contradictions that define warfare rhetoric in the twentieth century. The book's ten contributors delve into the conflicts between oppressive authorities and the desire for freedom. With verve and energy, they revive these largely neglected voices and turn them into a provocative medium to discuss, and redefine, issues still relevant today: heroism, pacifism, national pride, gender issues, faith, personal and collective history.

After the breakup of the Habsburg Monarchy, the Austrian-American relationship was characterized by a dwarf confronting a giant. America continued to be a heaven for a better life for many Austrian emigrants. For the growing American preponderant position in the world after World War I, the small Austrian Republic was insignificant. And yet there were times when Austria mattered geopolitically. During the post-World War II occupation of Austria, the U.S. helped reconstruct Austria economically and was the biggest champion of its independence. During the Cold War, the U.S. frequently used Austria as a mediator site of summit meetings. American mass production models, consumerism, and popular culture were adopted by Austrian youth. Americanization and American preponderance also produced anti-Americanism. With the end of the Cold War and Austria's accession to the European Union it once again lost significance for Washington's geopolitics.

Both concise and wide-ranging, this encyclopedia covers massacres, atrocities, war crimes, and genocides, including acts of inhumanity on all continents; and serves as a reminder that lest we forget, history will repeat itself. The 400-plus entries in *Atrocities, Massacres, and War Crimes: An Encyclopedia* provide accessible and concise information on the difficult subject of abject human violence committed on all continents. The entries in this two-volume work describe atrocities, massacres, and war crimes committed in the 20th century, thereby documenting how human beings have repeatedly proven their capability to commit horrific acts of inhumanity even in relatively recent times and within the modern era. The encyclopedia covers countries, treaties, and terms; profiles individuals who had been formally indicted for war crimes as well as those who have committed mass atrocities and gone unpunished; and addresses human rights violations, crimes against humanity, and crimes against peace.

The significant and sustained popular interest in the Second World War is matched by the scale and scope of scholarly engagement in the subject. The articles selected for this volume cover a wide range of topics reflecting the fact that the largest recorded war in history and the most intense period of global instability in the twentieth century, was fought by many different states, large and small, over differing periods of time and for many different reasons. In an area where there is no shortage of material to choose from, the articles presented here are distinguished for their depth of scholarship, stylistic elegance and inter-disciplinary confidence.

Erich Maschke BRILL

For more than a generation after World War II, official government doctrine and many Austrians insisted they had been victims of Nazi aggression in 1938 and, therefore, bore no responsibility for German war crimes. During the past twenty years this myth has been revised to include a more complex past, one with both Austrian perpetrators and victims. Part one describes soldiers from Austria who fought in the German Wehrmacht, a history only recently unearthed. Richard Germann covers units and theaters Austrian fought in, while Thomas Grischan demonstrates how well they fought. Ela Hornung looks at case studies of denunciation of fellow soldiers, while Barbara Stelzl-Marx analyzes Austrian soldiers who were active in resistance at the end of the war. Stefan Karner summarizes POW treatment on the Eastern front. Part two deals with the increasingly difficult life on the Austrian homefront. Fritz Keller takes a look at how Vienna survived growing food shortages. Ingrid Böhler takes a rare look at life in small-town Austria. Andrea Strutz analyzes narratives of Jewish refugees forced to leave for the United States. Peter Ruggenthaler and Philipp Lesiak examine the use of slave laborers. And Brigitte Kepplinger summarizes the Nazi euthanasia program. The third part deals with legacies of the war, particularly postwar restitution and memory issues. Based on new sources from Soviet archives, Nikita Petrov describes the Red Army liberation. Winfried Garscha analyzes postwar war crimes trials against Austrians. Brigitte Bailer-Galanda and Eva Blimlinger

present a survey of postwar restitution of property. And Heidemarie Uhl deals with Austrian memories of the war.

Popular images of post-war women represent them welcoming home the soldiers, but this volume asks, "What happened next?" The contributors use a range of methodological approaches to encourage the reader to question traditional historiography, the nature of the historical evidence, the process of memory, and the disparities between official discourse and personal narrative, and between written, visual and oral accounts.

From Incarceration to Repatriation Bloomsbury Publishing

The Second World War between the European Axis powers and the Allies saw more than twenty million soldiers taken as prisoners of war. While this total is inflated by the unconditional surrender of all German forces in Europe on 8 May 1945, it nonetheless highlights the fact that captivity was one of the most common experiences for all those in uniform - even more common than frontline service. Despite this, and the huge literature on so many aspects of the war, prisoner of war histories have remained a separate and sometimes isolated element in the wider national chronicles of the conflict constructed in the post war era. Prisoners of every nationality had their own narratives of military service and captivity. While it is impossible to encompass their collective histories, let alone the individual experiences of all twenty million prisoners in a single volume, Bob Moore uses a series of case studies to highlight the key elements involved and to introduce, analyse, and refine some of the major debates that have arisen in the existing historiography. The study is divided into three broad sections: captivity in Eastern and Western Europe during the war itself, comparative studies of specific categories of prisoners, and the repatriation and reintegration of prisoners after the war.
