From one of Germany's

leading young

historians, the first

comprehensive

biography of Eva

Braun, Hitler's devoted

mistress, finally wife,

and the hidden First

Lady of the Third

Reich. In this

groundbreaking

biography of Eva

Braun, German

historian Heike

Görtemaker reveals

Hitler's mistress as

more than just a vapid blonde whose concerns never extended beyond her vanity table. Twenty-three years his junior, Braun first met Hitler when she took a position as an assistant to his personal photographer. Capricious, but uncompromising and fiercely loyal—she married Hitler two days before committing suicide with him in Berlin in 1945—her identity was kept secret by the Third Reich until the final days of the war. Through exhaustive research, newly discovered documentation, and anecdotal accounts, Görtemaker turns preconceptions about Eva Braun and Hitler on their head, and builds a portrait of the little-known Hitler far

from the public eye. *Literary Translation, Reception, and Transfer* Finnish Literature Society “Kirstin Downey’s lively, substantive and—dare I say—inspiring new biography of Perkins . . . not only illuminates Perkins’ career but also deepens the known contradictions of Roosevelt’s character.” —Maureen Corrigan, NPR Fresh Air One of Franklin Delano Roosevelt’s closest friends and the first female secretary of labor, Perkins capitalized on the president’s political savvy and popularity to enact most of the Depression-era programs that are today considered essential parts of the country’s social safety network.

What kind of experiences do children need in order to grow and learn? What kind of knowledge do teachers need in order to facilitate these experiences for children? And what kind of experiences do teachers need to develop this knowledge? *A Good Teacher in Every Classroom* addresses these questions by examining the core concepts and central pedagogies that should be at the heart of any teacher education program—and recommends the policy changes needed to ensure that all teachers gain access to this knowledge. This book is the result of a

Told in an informal, mesmerizing voice, Ouredn'k represents the twentieth century in all its contradictions

and grand illusions, demonstrating that nothing substantial has changed between 1900 and 1999--humanity is still hopeful for the future and still mired in age-old conflicts. As he demonstrates that nothing can be reduced to a single, true viewpoint, Ouredn'k mixes hard facts and idiosyncratic observations, highlighting the horror and absurdity of the twentieth century and the further absurdity of attempting to narrate this history.

The New Spirituality

SAGE Publications

Much attention has been given in recent writings about religion to fundamentalism and the 'religious right'. But less attention has been given to their opposite - the emergence of a new generation of

progressive religious thinkers and organisations on the 'religious left'. "The New Spirituality" is one of the first books to give a comprehensive and authoritative account of this burgeoning progressive religious movement. It offers a clear and engaging analysis of the cultural roots, key ideas and organisational structures of this new faith, assessing its significance in the changing moral and religious landscape of contemporary western society. Gordon Lynch argues that we are witnessing the rise of a new religious ideology which reveres the natural world, connects religious faith with novel scientific theories, and has a forward-looking

agenda for society's transformation. "The New Spirituality" will be essential reading for students attempting to understand the shape of religious belief in the twenty-first century.

I Will Survive is the

story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song,

Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained

by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

Gold and Gods of Peru
Psychology Press

The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents.

Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature

across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across

linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature. Encyclopedia of World Cultures: East and Southeast Asia St. Martin's Press
