This volume illustrates the research not
only of French accountants (Colasse,
Durand, Jouanique, Lemarchand, Nikitin,
Richard, Tessier) but also the work of
Belgian authors writing in French

(Stevelinck, Haulotte) and of French non-accountants (de Swarte, Durdilly, Sauvy). The work of British and North American academics, writing in English on French accounting history is also illustrated from the 1930s (Howard, Edwards), through to the 1960s (Parker) and the more recent research of Standish, Fortin and Bhimani. The contributions to this volume have been arranged both chronologically and thematically as follows: the earliest business accounting records; the first French accounting authors; Colbert, Savbary and the Ordonnance de Commerce; the eighteenth and nineteenth centuries; cost accounting; the national accounting plan; national income accounting; government accounting and accounting theory. An

abstract of each contribution is given in both English and French.

Union Boot and Shoe Worker Summary of Proceedings

"A contemporary chivalric verse-life lies at the base of all subsequent biographies, but this book brings together for the first time the wealth of archival evidence relating to his career, making available the full range of diplomatic, administrative and financial evidence for his public and private life found in more than fifty archives in western Europe. It offers a corrective to views on Du Guesclin that have traditionally been derived too exclusively, and often uncritically, from literary sources."--BOOK JACKET.

This international encyclopedia documents and surveys, for the first time, the entire complex of translation as well as the operations and

phenomena associated with it. Structured along systematic, historical and geographic lines, it offers a comprehensive and critical account of the current state of knowledge and of international research. The Encyclopedia (1) offers an overview of the different types and branches of translation studies; (2) covers translation phenomena - including the entire range of interlingual, intralingual, and intersemiotic transfer and transformation - in their social, material, linguistic, intellectual, and cultural diversity from diachronic, synchronic, and systematic perspectives, (3) documents and elucidates the most important results of the study of translation to the present day, as well as the current debates, taking into account

theoretical assumptions and methodological implications; (4) identifies, where possible, lacunae in existing research, listing priorities and desiderata for further research. The languages of publication are German, English, and French

Conspiração vniuersal. Combatem os sete vicios matadores com as sete virtudes contrarias sobre a posse da alma ... Vai ordenada em dezenoue discursos predicauéis, etc Martinus Nijhoff Publishers

The age-old tradition of pictorial illusionism known as trompe l'oeil ("deceive the eye") employs visual tricks that confound the viewer's perception of reality and fiction, truth and falsehood. This radically new take on Cubism shows how Pablo Picasso, Georges Braque, and Juan Gris both parodied and paid homage to classic trompe l'oeil themes and motifs. The authors connect Cubist works to trompe l'oeil specialists of earlier centuries by juxtaposing more than one hundred Cubist paintings, drawings, and collages with related compositions by old masters. The informed and engaging texts trace the changing status of trompe l'oeil over the centuries, reveal Braque's training in artisanal trompe l'oeil techniques as an integral part of his Cubist practice,

examine the material used in Gris's collages, and discuss the previously unstudied trompe l'oeil iconography within Cubist still lifes.
