*2nd Grade Basic Math Success Workbook* Sylvan Learning Publishing

Lively autobiographical comics take us through an exploration of queerness and what it means to a woman of color.

**3rd Grade Reading Comprehension Success Workbook** Sylvan Learning Publishing

Workbook Features: • Ages 6-8, Grades 1-2 • 160 pages, about 8 inches x 10 1/2 inches • Reading, writing, math, science, social studies, and more • Includes fun fitness activities • Flash cards, stickers, completion certificate, and answer key included Hands-On Summer Learning: Summer Bridge Activities Workbook helps first—second graders keep their skills sharp during the summer months to prevent summer learning loss through fun practice pages and activities, engaging fitness activities, and more. What's Included: This book covers all subjects, focusing on writing skills, vowels, parts of speech, adding, subtracting, social studies, science experiments, fitness activities, and more. Includes flash cards, stickers, and a completion certificate. How It Works: Each page is numbered by day so kids and parents can track progress and reach monthly learning goals. Each activity features clear, step-by-step instructions and practice pages to help sharpen students' skills for the school year ahead. Just 15 Minutes A Day: Two months of learning loss occurs during the summer, with the highest losses being in math and spelling. This activity book is designed to prevent summer learning loss in just 15 minutes per day through hands-on activities. Why Summer Bridge: Award-winning Summer Bridge Activities® engage

children's creativity and learning potential and keep kids mentally and physically active to prevent summer learning loss and pave the way for a successful new school year ahead.

Python for beginners - you'll learn how to build amazing graphics, fun games, and useful apps using Python, an easy yet powerful free programming language available for download. A perfect introduction to Python coding for kids ages 10 and over who are ready to take the next step after Scratch -

all they need is a desktop or laptop, and an internet connection to download Python 3. Using fun graphics and easy-to-follow instructions, this straightforward, visual guide shows young learners how to build their own computer projects using Python. Step-by-step instructions teach essential coding basics like loops and conditionals, and outline 14 fun and exciting projects. Included is a script that cracks secret codes, a quiz to challenge family and friends, a matching game, and more. When they feel more confident, kids can think creatively and use the tips and tricks provided to personalize and adapt each project. The simple, logical steps in Coding Projects in Python are fully illustrated with fun pixel art and build on the basics of coding. Kids will eventually have the skills to build whatever kind of project they can dream up - the only limit is your imagination! Create, Remix and Customize! Create crazy games, crack fiendish codes, and compose crafty quizzes with this amazing collection of Python projects. Suitable for beginners and experts alike, Coding Projects in Python has everything enthusiastic coders need. Follow the simple steps to learn how to write code in this popular programming language and improve your programming skills, while you learn to create, remix, and customize your own projects. The material in this educational book is example based and the colors and humor keep children engaged while they learn to code. If your child is ready for the next step after mastering Scratch, this is the book to get! Inside this guide, you will learn about: - Starting with Python and first steps - Creating cool graphics and playful apps - Getting acquainted with games in Python Supporting STEM education initiatives, computer coding teaches kids how to think creatively, work collaboratively, and reason systematically, and is quickly becoming a necessary and sought-after skill. DK's computer coding books for kids are full of fun exercises with step-by-step guidance, making them the perfect introductory tools for building vital skills in computer programming. Coding Projects in Python is the third in an awesome coding book series for kids. Add Coding Projects in Scratch and Coding Games in Scratch to your collection.

**2nd Grade Reading Skill Builders Workbook** Sylvan Learning Publishing

Do you feel happy? Sad? Silly? Angry? This simple book helps children and parents talk about feelings, and includes a Feelings Faces Poster! With simple, sparse language, and bright, expressive illustrations, Lizzy Rockwell introduces very young readers to a wide range of emotions. Detailed art encourages identification and discussion of the different characters' emotional reactions, and serves as a springboard for discussion on emotional intelligence, self-regulation, and coping skills. The playground is the perfect place to witness lots of different feelings! A girl is happy when playing with a puppy. Another girl is angry when a boy knocks over her drink. And the boy is sorry. Readers will learn to identify feelings in themselves and in others in this simple, but clever book by a prominent preschool nonfiction author-illustrator. Beautiful, detailed spreads show panoramic views of the playground action, while close-ups focus on specific incidents, body language, and facial expressions. The sparse text encourages children to describe the action and tell the story themselves, using context clues in the art and their own understanding of the emotions portrayed. Turn the dust jacket around for a beautiful Feelings Faces poster, which collects the emotions portrayed in the book in one long spread!
