Phoemixx Classics Ebooks

Ian Buruma's spellbinding account of three near-mythic figures—a Dutch fixer, a Manchu princess, and Himmler's masseur—who may have been con artists and collaborators under Japanese and German rule, or true heroes, or something in between. On the face of it, the three characters in this book seem to have little in common—aside from the fact that each committed wartime acts

that led some to see them as national heroes, and others as villains. All three were mythmakers, larger-than-life storytellers, for whom the truth was beside the point. Felix Kersten was a plump Finnish pleasure-seeker who became Heinrich Himmler's indispensable personal masseur—Himmler calling him his "magic Buddha." Kersten presented himself after the war as a resistance hero who convinced Himmler to save countless people from mass murder. Kawashima Yoshiko, a gender-fluid Manchu princess, spied for the Japanese secret police in China, and was mythologized by the Japanese as a heroic combination of Mata Hari and Joan of Arc. Friedrich Weinreb was a Hasidic Jew in Holland who took large amounts

of money from fellow Jews in an imaginary scheme to save them from deportation, while in fact betraying some of them to the German secret police. Sentenced after the war as a con artist, he was regarded by supporters as the "Dutch Dreyfus." All three figures have been vilified and mythologized, out of a never-ending need, Ian Buruma argues, to see history, and particularly war, and above all World War II, as a neat story of angels and devils. *The Collaborators* is a fascinating reconstruction of what in fact we can know about these incredible figures and what will always remain out of reach. What emerges is all the more mesmerizing for being painted in chiaroscuro. In times of life-and-death stakes, the truth quickly gets buried

under lies and self-deception. Now, when demagogues abroad and at home are assaulting the truth once more, the stories of the collaborators and their lessons are indispensable.

The World of Poo Les mains du miracle Admirable reporter à travers le monde, Joseph Kessel nous prouve ici qu'il peut l'être à travers l'Histoire. Il nous fait visiter un continent inconnu qui ne s'appelle pas l'Asie ou l'Océanie, mais l'Allemagne nationale-socialiste. Et ce récit fantastique, c'est l'histoire, absolument authentique, du Dr Kersten. Le Dr Kersten, de nationalité hollandaise, s'était spécialisé avant la guerre dans le massage médical. Il avait suivi des cours à Londres et reçu un enseignement secret venu du Tibet. Sa célébrité en fit le médecin de Himmler, le puissant chef

de la Gestapo, qui devait devenir le second personnage du Reich. Himmler souffrait de douleurs intolérables que seul Kersten parvenait à apaiser. Utilisant ce pouvoir miraculeux, le héros de cette histoire parvint à sauver de très nombreuses victimes politiques, et il empêcha la déportation massive d'une partie du peuple hollandais. Cette aventure passionnante se déroule au milieu d'une Allemagne en folie, dont Joseph Kessel reconstitue les divers aspects. Les Mains du miracle de Joseph Kessel (fiche de lecture et analyse complète de l'oeuvre)

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America,

Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

[The Man With The Miraculous Hands](#)
Coach House Books

A noted French health practitioner who has treated famous patients from Pablo Picasso to Mick Jagger offers this cutting-edge book—already a bestseller in France—on how to stay healthy by keeping one's stomach health in top shape. There is a growing trend in science to think of the stomach as a "second brain" that can impact the health of the entire body. Pierre Pallardy, a well-respected French nutritionist/osteopath has, over the course of 35 years, developed simple, effective methods for preventing illness by creating harmony between the body's two "brains." Now for the first time he shares with the general public his method for improving the healthy functioning of the stomach and, consequently, the health of the entire

body. The book provides a 7-step method for improving stomach health that employs breathing techniques, diet, exercise, massage, and meditation. It also explains how Pallardy's methods can combat a host of afflictions, including allergies, anxiety, asthma, back pain, cancer, colitis, constipation, fatigue, headaches, insomnia, sexual problems, and more.

The Awakener Routledge

If the ancient Chinese are correct and pain is injured Qi, that changes everything, including the way Westerners evaluate and treat pain. If pain is our life force working to heal injuries and infections, then suppressing pain will have tragic consequences, such as chronic debilitating pain and disease. Now is the time for a reevaluation of how

we treat pain by learning more about energy.

The crew of a French reconnaissance plane during WW1 consisted of just two men: a pilot and an observer. Two such men are Jean Herbillon and Claude Maury. Herbillon's dreams of glory as an air ace have been dashed after only a few months at the front; Maury suffers from a broken heart--his only hope is that his exploits as a pilot will win back his lost love. Together the two form one of the best crews in the air, fighting in the first aerial conflict in history--one in which a combatant can count his life expectancy in weeks. The pressure of war forges a strong bond between the two flyers, but can it survive the discovery that they are both in love with the same woman? Joseph Kessel's autobiographical novel is a staggering

tale of courage, brotherhood and loss.

French News Hassell Street Press

Felix Kersten, physician to the high-demon of the Third Reich, Heinrich Himmler could alleviate Himmler's severe stomach pains with his hands using massage and manipulation. In return, Kersten bargained with Himmler to order the release of innocent prisoners condemned to die. It is an amazing story of the good-natured little fat man who looked like a "cross between a Flemish burgomaster and a Buddha of the West," studied the higher curative powers of massage under a lama-doctor Ko, and applied them to Himmler whose excruciating stomach aches were only relieved by Kersten's therapy. During the five years to come, Kersten attended Himmler but was an

alien by birth and sympathies among his entourage, with the one exception of Himmler's private secretary who collaborated with him in drawing up the lists of doomed men—Jehovah's Witnesses, Jews, concentration camp victims of all nationalities. At the close, Kersten was jockeying with Himmler (and when persuasion failed, withholding treatment) to try and secure mass scale liberation of victims first through Sweden, then Switzerland.... Kersten is fascinating to follow-through his circumspect, ambivalent career—even though there may be points in question at its close.—KIRKUS Review

[Sermon prononcé à Faverney le 9 juin 1862, anniversaire du miracle de la sainte hostie](#) Pushkin Collection

The Awakener is Helen Weaver's long

awaited memoir of her adventures with Jack Kerouac, Allen Ginsberg, Lenny Bruce, and other wild characters from the New York City of the fifties and sixties. The sheltered but rebellious daughter of bookish Midwestern parents, Weaver survived a repressive upbringing in the wealthy suburbs of Scarsdale and an early divorce to land in Greenwich Village just in time for the birth of rock 'n' roll—and the counterculture movement known as the Beat Generation. Shortly after her arrival Kerouac, Ginsberg, and company—old friends of her roommate—arrive on their doorstep after a non-stop drive from Mexico. Weaver and Kerouac fall in love on sight, and Kerouac moves in. " ... Weaver] paints a romantic picture of Greenwich Village in the 1950s and '60s,

when she worked in publishing and hung out with Allen Ginsberg and the poet Richard Howard and was wild and loose, getting high and falling into bed almost immediately with her crushes, including Lenny Bruce ... Her descriptions of the Village are evocative, recalling a time when she wore 'long skirts, Capezio ballet shoes and black stockings,' and used to 'sit in the Bagatelle and have sweet vermouth on the rocks with a twist of lemon.' Early on, she quotes Pasternak: 'You in others: this is your soul.' Kerouac's soul lives on through many people—Joyce Johnson, for one—but few have been as adept as Weaver at capturing both him and the New York bohemia of the time. He was lucky to have met her."—Tara McKelvey, The New York Times Book Review "There

is a tendency for memoirs written by women about The Great Man to be self-abnegating exercises in a kind of inverted narcissism—the author seeking to prove her worth as muse, as consort, as chosen one. Not so with Helen Weaver's beautiful, plainspoken elegy for her time spent with Jack Kerouac, who suddenly appeared at her door in the West Village one white, frosty morning with Allen Ginsberg, who knew Weaver's roommate, in tow."—New York Post "Helen Weaver's book was a revelation to me! ... This is the most graphic, honest, shameless, and moving documentary of what the newly liberated women in cities got up to—how they lived, loved, and created. Who knew? It is time they did! And here's how."—Carolyn Cassady "Weaver

recreates the excitement of a time when things were radically changing and shows us what it was like living with an eccentric genius at the turning point of his life. Eventually she asks Jack to leave but they remain friends, and over the years her respect for his writing grows even as Kerouac's reputation undergoes a gradual transition from enfant terrible to American icon. She comes to realize that by writing *On the Road* he woke America up—along with her—from the long dream of the fifties. And the Buddhist philosophy that once struck her as Jack's excuse for doing whatever he liked because 'nothing is real, it's all a dream' eventually becomes her own." "Helen Weaver's memoir is a riveting account of her love affair and friendship with Jack Kerouac. She is both clear-eyed

and passionate about him, and writes with truly amazing grace."—Ann Charters Helen Weaver has translated over fifty books from the French of which one, Antonin Artaud: *Selected Writings* (Farrar, Straus and Giroux) was a Finalist for the National Book Award in translation in 1976. She is co-author and general editor of the Larousse Encyclopedia of Astrology and author of *The Daisy Sutra*, a book on animal communication. She lives in Kingston, New York.

Gut Instinct City Lights Publishers

From Snuff: 'Vimes' prompt arrival got a nod of approval from Sybil, who gingerly handed him a new book to read to Young Sam. Vimes looked at the cover. The title was *The World of Poo*. When his wife was out of eyeshot he carefully leafed through it. Well, okay, you had to accept that the world had moved on and these days fairy stories were probably not going to be about twinkly little things with wings. As he turned page after page, it dawned on him that whoever had written this book, they certainly

knew what would make kids like Young Sam laugh until they were nearly sick. The bit about sailing down the river almost made him smile. But interspersed with the scatology was actually quite interesting stuff about septic tanks and dunnakin divers and gongfermors and how dog muck helped make the very best leather, and other things that you never thought you would need to know, but once heard somehow lodged in your mind.'

The Red and the Black Stendhal - First

published in 1830, *The Red and the*

Black, is widely considered the

masterpiece of 19th century French author Marie-Henri Beyle, known more commonly by his pen name, Stendahl. It follows the ambitions of Julien Sorel, a young man raised in the French countryside who wishes to rise above his provincial station by climbing the social ranks of Parisian society. Through a series of events, Juliens talent and hard work give way to deception and hypocrisy when he realizes the limitations for advancement of a sincere and honest man of humble origins. Although Julien achieves much which he aspires to, ultimately his pride gets the better of him when he commits a violent crime of passion, leading to his tragic downfall. Through the deep psychological introspection of Julien we see Stendhals unique literary genius, the

remarkable way in which he allows readers to live in the minds of his characters. Set against the backdrop of the July Revolution of 1830, The Red and the Black is a narrative which embodies the rich social conflict of that time. This edition is translated with an introduction by Horace B. Samuel.

Pain's Healing Secret Les Editions Du Cenacle

A small-town embalmer's daughter lifts the shroud on the fascinating minutiae of dealing with the dead. Imagine rubbing shoulders with the dead for most of your life. As she picks the brain of her father for the most gruesome and thought-provoking secrets of his embalming career - from the drowned boy whose organs were eaten by eels to how to inject just the right amount of colour into a corpse's skin for that blushing look - the narrator must look her parents'

deaths, and her relationship with them, straight in the eye. Quietly poetic, *The Embalmer* glimpses at something most would rather look away from.

□□□ Penguin

This book is the first systematic study of the relations between German high society and the Nazis. It uses unpublished archival material, private diaries and diplomatic documents to take us into the hidden areas of power where privileges, tax breaks, and stolen property were exchanged. Fabrice D'Almeida begins by examining high society in the Weimar period, dominated by the old imperial aristocracy and a new republican aristocracy of government officials and wealthy businessmen. It was in this group that Hitler made his social debut in the early

1920s through the mediation of conservative friends and artists, including the family of the composer Richard Wagner. By the end of the 1920s, he enjoyed wide support among socialites, who played a significant role in his access to power in 1933. Their adherence to the Nazi regime, and the favors they received in return, continued and even grew until defeat loomed on the horizon. D'Almeida shows how members of German high society sought to outdo each other in showing zealous support for Hitler, how the old elites starting with the Kaiser's sons partied alongside parvenus, and how actors, aristocrats, SS technocrats, and diplomats came together to form a strange imperial court. Women also played a role in this theatre of power;

they were persuaded that they had gained in dignity what they had lost in civil rights. There emerges a fascinating and disturbing picture of a group that allowed nothing - not war, the plundering of Europe, nor the extermination of peoples - to alter their cynical enjoyment of pleasures: hunting, regattas, the opera, balls, dinners and tennis. More than a study of a class or a chronicle, this book lifts the veil that has concealed a society that used secrecy to protect itself. *High Society in the Third Reich* makes an important and unique contribution to the current reevaluation of the extent to which German society, including German high society, was responsible for Hitler's accession to power and the crimes that were committed by his regime.

Hugh Trevor-Roper Oxford University Press

Hugh Trevor-Roper was one of the most gifted historians of the twentieth century. His scholarly interests ranged widely - from the Puritan Revolution to the Scottish Enlightenment. Yet he was also fascinated by the events of his own lifetime and wrote widely on issues of espionage and intelligence, as well as maintaining a fascination with the workings - and personalities - of Nazi Germany. In this volume, a variety of contributors - many of whom knew Trevor-Roper personally - engage with his scholarship and analyse his greatest achievements as an historian. Covering the full range of Trevor-Roper's interests, this volume will be essential for anyone who wishes to better understand this

great historian and his work.
