 A compelling and evocative novel with an unsettling question at its heart, *The Golden Hour* from acclaimed author T. Greenwood explores the power of art to connect, to heal, and to reveal... On a spring afternoon long ago, thirteen-year-old Wyn Davies took a shortcut through the woods in her New Hampshire hometown and became a cautionary tale. Now, twenty years later, she lives in New York, on the opposite side of a duplex from her ex, with their four-year-old daughter shuttling between them. Wyn makes her living painting commissioned canvases of birch trees to match her clients' furnishings. But the nagging sense that she has sold her artistic soul is soon eclipsed by a greater fear. Robby Rousseau, who has spent the past two decades in prison for a terrible crime against her, may be released based on new DNA evidence—unless Wyn breaks her silence about that afternoon. To clear her head, refocus her painting, and escape an even more present threat, Wyn agrees to be temporary caretaker for a friend's new property on a remote Maine island. The house has been empty for years, and in the basement Wyn discovers a box of film canisters labeled "Epitaphs and Prophecies." Like time capsules, the photographs help her piece together the life of the

house's former owner, an artistic young mother, much like Wyn. But there is a mystery behind the images too, and unraveling it will force Wyn to finally confront what happened in those woods—and perhaps escape them at last.

Reviewing how we the people became sovereigns, this book encourages citizens to become peaceful activists to supplement representative government. The author declares seventy-five grievances against the United States government. He proposes or endorses remedies in the forms of constitutional amendments or ordinary statutory law, some of them of popular initiative and referendum. Much of this entails transfer of powers from the national government back to the people or to local, state, or transnational governments. The proposals include reforms at the United Nations and measures to end world poverty, spread health care and education, and manage resources for a sustainable environment.

"A superb book." THE HOUSTON CHRONICLE When quiet, shy Amelia Jones reads a desperate message that has fallen out of a barrel organ in the antique shop she just bought, she can't forget the words, "They're going to kill me soon..." Armed only with the woman's first name and the note written years before, Amelia begins a journey into the past, a search that takes her from the protective cocoon she's wrapped herself in to a precarious world where nothing is the way it seems, where fear is second nature, and dark secrets just might uncover murder--her own....

No one is prepared for the loss of a child. No one. It feels completely unnatural for children to predecease their parents. Although it is not widely known, each year there are over 135,000 under 40-year-old deaths in the U.S. alone. And, according to one study, 19% of parents outlive their children—often carrying the weight of horrendous grief to their own graves. "Isolated and alone" is how parents often describe the grief process. Well-meaning friends and family members usually rush to their side... in the beginning. Once the floral arrangements have wilted, and the dinners from caring friends diminish, there isn't really much that can be said to bring comfort to a suffering parent, especially if those friends haven't experienced it themselves. Unfortunately, when these caring friends do bring up the loss, quite often they say the wrong things. *Loss, Survive, Thrive* offers a lifeline of hope. Each chapter is an inspirational story written by a parent who also experienced the agony of losing a child, reclaimed his/her vitality, and is now living a fulfilling life. Every story is authentic and heartfelt, designed to uplift and inspire. The collective authors reach out through the pages to virtually hold

hands with those who are suffering. We, the contributors, have all been there. We know their pain, and we know about survival. And now, through our stories, we offer comfort and support in helping them get through the toughest time of their lives. Bereaved parents share an unspeakable bond. And *Loss, Survive, Thrive* imparts insight from what's likely the only voices that grieving parents can hear—others who have walked in their shoes. This book is a giant step toward healing the grieving heart.

"Letters for Logan" is the heartfelt story of a mother's timeless love for her son, and the legacy she is compelled to leave her grandson. Air Force Capt. Derek Argel, 28, was larger-than-life--athletic, loving, dedicated, loyal and above all, a son to Debbie, husband to Wendy and father to Logan. Within days of his tragic death in the line of duty on Memorial Day of 2005 in Iraq, the first letter to Logan arrived. Then another came, and they kept coming, from friends, colleagues, warriors and family. They still arrive, even years after the Combat Controller's death, each one weaving an enduring portrait for a little boy of his fallen father, gone too soon. Proceeds from this book will go to the Special Operations Warrior Foundation, rated as a four-star charity by Charity Navigator. The foundation provides full scholarship grants, educational and family counseling to the surviving children of special operations personnel who die in operational or training missions, and immediate financial assistance to severely wounded special operations personnel and their families. The family of Capt. Derek Argel believes wholeheartedly in the mission of the foundation. "First there, That Others may Live" Nora Wallace

"An authentic page turner.... Rogers [vividly] captures this era of Elvis records and small-town Maine fishing life." —Down East In 1963, twelve-year-old Florine Gilham enjoys an idyllic childhood in small-town Maine—until her beloved mother vanishes. Untethered and adrift in the wake of her disappearance, Florine finds her once-cherished joys—watching her father's lobster boat come into port, baking bread with her grandmother, and causing mischief with the summer folk—suddenly ring hollow. When a figure from her father's past comes calling, Florine must find the courage to lay down roots of her own. Set against the gorgeous backdrop of the Maine coast, *Red Ruby Heart in a Cold Blue Sea* is an extraordinary snapshot of a bygone America as seen through the eyes of an iconic New England girl.
