Written during an important stage in Rilke's artistic development, these letters contain many of the themes that later appeared in his best works. Essential reading for scholars and poetry lovers.

Love Letter to the Earth John Wiley & Sons

For more than eighty years the Jewish Daily Forward's legendary advice column, "A Bintel Brief" ("a bundle of letters") dispensed shrewd, practical, and fair-minded advice to its readers. Created in 1906 to help bewildered Eastern European immigrants learn about their new country, the column also gave them a forum for seeking advice and support in the face of problems ranging from wrenching spiritual dilemmas to petty family squabbles to the sometimes hilarious predicaments that result when Old World meets New. Isaac Metzker's beloved selection of these letters and responses has become for today's readers a remarkable oral record not only of the varied problems of Jewish immigrant life in America but also of the catastrophic events of the first half of our century. World-renowned Zen monk Thich Nhat Hanh champions a more mindful, spiritual approach to protecting nature and limiting climate change—one that recognizes people and planet as one and the same. While many experts point to the enormous complexity in addressing issues ranging from the destruction of ecosystems to the loss of millions of species, Thich Nhat Hanh identifies one key issue as having the potential to create a tipping point. He believes that we need to move beyond the concept of the "environment," as it leads people to experience themselves and Earth as two separate entities and to see the planet only in terms of what it can do for them. Here, Thich Nhat Hanh points to the lack of meaning and connection in peoples' lives as being the cause of our addiction to consumerism. He deems it vital that we recognize and respond to the stress we are putting on the Earth if civilization is to survive. Rejecting the conventional economic approach, Thich Nhat Hanh shows that mindfulness and a spiritual revolution are needed to protect nature and limit climate change. *Love Letter to the Earth* is a hopeful book that gives us a path to follow by showing that change is possible only with the recognition that people and the planet are ultimately one and the same.

That God loves us is the most profound truth in the universe. Experiencing this love has the potential to answer every question, solve every problem, and satisfy the deepest yearnings of the heart. So why are many people who believe this still unable to fully utilize the power of God's love in their personal lives? In this

probing book, Dr. David Jeremiah reveals that not fully understanding and appreciating every critical dimension of God's love can lead to missed opportunities to experience His love. He explains how even the so-called negative dimension of God's actions—hell, prohibitive commandments, pain and suffering in the world—can only be rightly understood by viewing them in light of God's true love. GOD LOVES YOU will enable readers to know God in a way that will consciously connect them with the healing power of His grace so they can experience the life of love they were created to enjoy.

The Mystery of Love, Courtship and Marriage Explained Crossway

On Good Friday 1907, in the German university town of Halle, a young couple sealed their secret engagement with a kiss - and a vow to follow God wherever he led them. Circumstance (and scandalized parents) kept them separated for most of the next three years. But that separation bore its own fruit: an intense flurry of letters.

Almost all verbs in Slovene (one of the least researched Slavic languages) have two aspectually different forms, the perfective (PF) and the imperfective (IF). But in institutional settings or settings strongly marked with social hierarchy, only the second, the imperfective form, is used by Slovene speakers in a performative sense. Why is that? And what, in fact, has a Slovene speaker said if (s)he has used the imperfective verb in "performative circumstances"? No doubt that (s)he may be in the process of accomplishing such an act. But at the same time, having the possibility of choosing between the PF and the IF form, (s)he may have also indicated that this act hasn't been accomplished (yet): as long as we are only promising (IF), we have not really promised anything yet, and if we are only promising (IF), we cannot take anything as having been really

promised. That was how Stanislav Škrabec, the 19th century Slovene linguist and the central figure of this book, saw the role of verbal aspect within language use. Being caught in such a dilemma, a question inevitably arises: how do we accomplish an act of promise (or any other performative act) in Slovene? That dilemma - whether to use the perfective or imperfective aspect when accomplishing performative acts - may seem more than artificial at first, but it was very much alive among Slovene linguists at the end of the 19th century. And it was that very dilemma that quite unexpectedly gave rise to the foundations of performativity in Slovene, half a century before Austin! In the present book, the authors try to shed light on this controversy that involved different Slovene scholars for about thirty years, and propose a delocutive hypothesis as a solution for the performative dilemma this controversy unveiled.

The Life and Letters of Father Bertrand Wilberforce of the Order of Preachers HarperCollins

This volume investigates the form of love letters and erotic letters in Greek and Latin up to the 7th Century CE, encompassing both literary and documentary letters (the latter inscribed and on papyrus), and prose and poetry. The potential for, and utility of treating this large and diverse corpus as a 'genre' is examined. To this end, approaches from ancient literary criticism and modern theory of genre are made; mutual influences between the documentary and the literary form are sought; and origins in proto-epistolary poetic texts are examined. In order to examine the boundaries of a form, limit cases, which might have less claim to the label 'love letter', are compared with more clear-cut examples. A series of case studies focuses on individual letters and letter-collections. Some case studies situate their subjects

within the history and literary evolution of the love letter, using both intertextuality and comparative approaches; others placing them in their cultural and historical contexts, particularly uncovering the contribution of epistolarity to erotic discourse, and to the history of sexuality and gender in diverse eras and locations within Classical to Late Antiquity.

[The Letters of Abelard and Heloise](#) Princeton University Press "[A] long, beautiful, heart-breaking love letter to potential and possibilities and hope, to the pain we survive in youth and carry with us into adulthood."—NPR Book Reviews One week. That's all Jessie said. A one-week break to get some perspective before graduation, before she and her boyfriend, Chris, would have to make all the big, scary decisions about their future -- decisions they had been fighting about for weeks. Then, Chris vanishes. The police think he's run away, but Jessie doesn't believe it. Chris is popular and good-looking, about to head off to college on a full-ride baseball scholarship. And he disappeared while going for a run along the river -- the same place where some boys from the

rival high school beat him up just three weeks ago. Chris is one of the only black kids in a depressed paper mill town, and Jessie is terrified of what might have happened. As the police are spurred to reluctant action, Jessie and others speak up about the harassment Chris experienced and the danger he could be in. But there are people in Jessie's town who are infuriated by the suggestion that a boy like Chris would be a target of violence.

They smear Chris's character and Jessie begins receiving frightening threats. Every Friday since they started dating, Chris has written Jessie a love letter. Now Jessie is writing Chris a letter of her own to tell him everything that's happening while he's gone. As Jessie searches for answers, she must face her fears, her guilt, and a past more complicated than she would like to admit.
