On Being Awesome

Penguin

#1 international bestseller Publishers Weekly bestseller The Globe and Mail (Toronto) The Toronto Star bestseller The Vancouver Sun bestseller From Neil Pasricha—New York Times, million-copy bestselling author of The Book of Awesome series and The Happiness Equation, thought leader for the next generation, and one of the most popular TED speakers in the world—comes a revelatory and inspiring book that will change the way we

view failure and help us build resilience. We are lucky. For most of us, famine, plague, economic depression, and other life-threatening catastrophes are the stuff of history books. We're living in an era with the highest-ever rates of longevity, education, and wealth. Cars drive us home as our phones entertain us before we arrive to food delivered to the front door. We have it all! But there's just one side effect. We no longer have the tools to handle failure...or even perceived failure. When we fall, we lie on the sidewalk crying. When we spill, we splatter. When we crack, we shatter. We are turning into an army of porcelain dolls. A rude email from the boss means calling in

sick. Only two likes on our post means we don't have friends. Cell phones show us we're never good enough. Yesterday's butterflies are tomorrow's panic attacks. Record numbers of students have clinical anxiety. And what about depression, loneliness, and suicide? All rising! What do we desperately need to learn? RESILIENCE. And we need to learn it fast. Read *You Are Awesome* to learn:

- The single word that keeps your options open after failure
- What every commencement speech gets wrong
- 3 ways to dramatically accelerate your ability to learn and adapt
- The 2-minute morning practice that helps eliminate worry
- Why you need an

Untouchable Day (and how to get one) • and much, much more...

Because the truth is, you really are awesome.

 What kind of awesome will you be? Jess Hitchman's joyful, playful picture book, *All Kinds of Awesome*, celebrates children finding their passions and embracing their own awesomeness, and is paired with adorable illustrations by Vivienne To of a diverse and multicultural group of kids, all coming together on the final line of: "You will always be awesome to me." With a message of acceptance and inspiration at the heart of this story, *All Kinds of Awesome* shows how amazing kids are

today and how they can grow their interests and passions into something even cooler.

An Incomplete Book of Awesome Things

Simon and Schuster's *Awesome Man* can shoot positronic rays out of his eyeballs, fly as straight as an arrow, and hug mutant Jell-O! Even villains like Professor Von Evil and the Flaming Eyeball are no match for this caped crusader. But *Awesome Man* also has a secret. . . . Can you guess what it is? The first picture book from Pulitzer Prize-winning novelist Michael Chabon perfectly captures the fantasy life of young superhero fans.

[The Totally Awesome Book of Useless Information](#) Harper Collins

The #1 international bestseller from the author of *The Book of Awesome* that “reveals how all of us can live happier lives” (Gretchen Rubin). What is the formula for a happy life? Neil Pasricha is a Harvard MBA, a New York Times–bestselling author, a Walmart executive, a father, a husband. After selling more than a million copies of the *Book of Awesome* series, wherein he observed the everyday things he thought were awesome, he now shifts his focus to the practicalities of living an awesome life. In his new book *The Happiness Equation*, Pasricha illustrates how to want nothing and do anything in order to have everything. If that sounds like a

contradiction in terms, you simply have yet to unlock the 9 Secrets to Happiness. Each secret takes a piece out of the core of common sense, turns it on its head to present it in a completely new light, and then provides practical and specific guidelines for how to apply this new outlook to lead a fulfilling life. Once you've unlocked Pasricha's 9 Secrets, you will understand counter intuitive concepts such as: Success Does Not Lead to Happiness, Never Take Advice, and Retirement Is a Broken Theory. You will learn and then master three brand-new fundamental life tests: the Saturday Morning Test, The Bench Test, and the Five People Test. You will know the difference between

external goals and internal goals and how to make more money than a Harvard MBA (hint: it has nothing to do with your annual salary). You will discover that true wealth has nothing to do with money, multitasking is a myth, and the elimination of options leads to more choice. The Happiness Equation is a book that will change how you think about pretty much everything—your time, your career, your relationships, your family, and, ultimately, of course, your happiness.

The Mammoth Book of Awesome Comic Fantasy

Candlewick Press
Artist and author Caleb Neelon (SONIK) began his graffiti career like anyone else, but the Cambridge,

Massachusetts native took a hard right and caught a flight out of town. Deliberately ignoring the obvious global centers of New York, Los Angeles, and London, Caleb painted subject matter close to his heart while making a street presence in places like Kathmandu, Sao Paulo, and Tegucigalpa. Across, around, and in between five continents, indoors and out, Caleb has pulled off some unique, colorful, and heartfelt work both alongside collaborators like Os Gemeos and Andrew Schoultz, as well as in streets where he is the first foreigner let alone street painter to wander in quite some time. Featuring heartfelt travel stories going beyond the artwork to the socio-

political situations that surround them, as well as the large-scale gallery installations of Calebs from venues such as the Boston Center for the Arts, Caleb Neelons Book of Awesome provides an overview of the work of this diverse and distinctive artist 365 Days of Awesome Simon and Schuster Weird and amazing facts for curious minds of all kinds Looking for fascinating facts and trivia that readers of all ages can enjoy? You'll find all this and more in this amazing collection of useless information. You Are Awesome Penguin The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best

way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every

aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.
