BENJAMIN KINGSTON

Bengali Household Tales Taylor & Francis

The stories that have been gathered between the covers of this book are English translations of Bengali folklore. The translator has very credibly reproduced them in English, retaining the authentic flavour of the original. Any sensitive reader would immediately feel wonderfully nostalgic on reading them.

This eighth volume of The Shakespearean International Yearbook presents a special section on 'European Shakespeares', proceeding from the claim that Shakespeare's literary craft was not just native English or British, but was filtered and fashioned through a Renaissance awareness that needs to be recognized as European, and that has had effects and afterlives across the Continent. Guest

editors Ton Hoenselaars and Clara Calvo have constructed this section to highlight both how the spread of 'Shakespeare' throughout Europe has brought together the energies of a wide variety of European cultures across several centuries, and how the inclusion of Shakespeare in European culture has been not only a European but also a world affair. The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies. Contributors to this issue come from the US and the UK, Spain, Switzerland and South Africa, Canada, The Netherlands, India, Portugal, Greece, France, and Hungary. In addition to the section on European Shakespeares, this volume includes essays on the genre of romance, issues of character, and other topics.

Western Influence in Bengali

Literature Edinburgh University Press
 Shakespeare Studies in Colonial Bengal: The Early Phase represents an important direction in the area of historical research on the role of English education in India, particularly with regards to Shakespeare studies at the Hindu College, the first native college of European education in Calcutta, the capital city of British India during the nineteenth century. Focusing on the developments that led to the introduction of English education in India, Dr Dahiya's book highlights the pioneering role that the eminent Shakespeare teachers at Hindu College, namely Henry Derozio, D.L. Richardson and H.M. Percival, played in accelerating the movement of the Bengal Renaissance. Drawing on available information about colonial Bengal, the book exposes both the angular interpretations of Shakespeare by fanatical scholars on both sides of the cultural divide, and the serious limitations of the present-day reductive theory of postcolonialism, emphasizing how in both cases such interpretations led to distorted readings of Shakespeare. Offering a comprehensive account of how English education in India came to be introduced in an atmosphere of clashing ideas and conflicting interests emanating from various forces at work in the early nineteenth century, Shakespeare Studies in Colonial Bengal places, in a normative perspective, the part played by each major actor in this highly-contested historical context, including the Christian missionaries, British orientalis, Macaulay's Minute, the secular duo of Rammohan Roy and David Hare, and, above all, the Shakespeare teachers at Hindu College, the first native institution of European education in India.

Bengali Folk Tales SAGE Publishing India
 Bengali folklore constitutes a considerable portion of Bengali literature. In Bengali society, as with most ancient societies, folk literature became a collective product. It also assumes the traditions, emotions, thoughts and values of the community. Rev. Lal Behari Day was told these 22 Bengali tales by his Gammer Grethel. In turn his Gammer (Grandmother) heard these as a little girl at the knee of her old grandmother, reputed to be a good story-teller. This means these stories have been told and passed down for no less than 5 generations before the author heard them, which takes us back to at least AD1720 - if not earlier. Herein you will find stories like; LIFE'S SECRET, PHAKIR CHAND, THE INDIGENT BRAHMAN, THE STORY OF THE RAKSHASAS, THE STORY OF PRINCE SOBUR, THE ORIGIN OF OPIUM, THE MAN

WHO WISHED TO BE PERFECT, THE STORY OF A BRAHMADAITYA, THE ORIGIN OF RUBIES and many more. Originally narrated in Bengali, at the behest of Richard Temple, to whom this book is dedicated, Rev. Behari Day translated them into English for a Western audience. These stories are further brought to life through the 32 color illustrations by Warrick Goble, adding a welcome dimension to the stories, making it easier to imagine the settings for the characters and stories contained herein. Stories have also been purloined from Brahmins, barbers, servants and other sources. We, therefore, have reason to believe that the stories given in this book are a genuine sample of the old, old stories told by old Bengali women from age to age through a hundred generations.

 In my Peasant Life in Bengal I make the peasant boy Govinda spend some hours every evening in listening to stories told by an old woman, who was called Sambhu's mother, and who was the best story-teller in the village. On reading that passage, Captain R. C. Temple, of the Bengal Staff Corps, son of the distinguished Indian administrator Sir Richard Temple, wrote to me to say how interesting it would be to get a collection of those unwritten stories which old women in India recite to little children in the evenings, and to ask whether I could not make such a collection. As I was no stranger to the Märchen of the Brothers Grimm, to the Norse Tales so admirably told by Dasent, to Arnason's Icelandic Stories translated by Powell, to the Highland Stories done into English by Campbell, and to the fairy stories collected by other writers, and as I believed that the collection suggested would be a contribution, however slight, to that daily increasing literature of folk-lore and comparative mythology which, like comparative philosophy, proves that the swarthy and half-naked peasant on the banks of the Ganges is a cousin, albeit of the hundredth remove, to the fair-skinned and well-dressed Englishman on the banks of the Thames, I readily caught up the idea and cast about for materials. But where was an old story-telling woman to be got? I had myself, when a little boy, heard hundreds-it would be no exaggeration to say thousands-of fairy tales from that same old woman, Sambhu's mother-for she was no fictitious person; she actually lived in the flesh and bore that name; but I had nearly forgotten those stories, at any rate they had all got confused in my head, the tail of one story being joined to the

head of another, and the head of a third to the tail of a fourth. How I wished that poor Sambhu's mother had been alive! But she had gone long, long ago, to that bourne from which no traveller returns, and her son Sambhu, too, had followed her thither. After a great deal of search I found my Gammer Grethel-though not half so old as the Frau Viehmännin of Hesse-Cassel-in the person of a Bengali Christian woman, who, when a little girl and living in her heathen home, had heard many stories from her old grandmother. She was a good story-teller, but her stock was not large; and after I had heard ten from her I had to look about for fresh sources. An old Brahman told me two stories; an old barber, three; an old servant of mine told me two; and the rest I heard from another old Brahman. None of my authorities knew English; they all told the stories in Bengali, and I translated them into English when I came home. I heard many more stories than those contained in the following pages; but I rejected a great many, as they appeared to me to contain spurious additions to the original stories which I had heard when a boy. I have reason to believe that the stories given in this book are a genuine sample of the old old stories told by old Bengali women from age to age through a hundred generations. · This collection is unusual in that the essays are not written from a single perspective and instead cover aspects as diverse as socio-political issues, translation, performance, language and identity, literary analysis. · The style of all the essays is jargon-free and accessible to the lay reader. · Given the fact that the 400th anniversary of Shakespeare's death comes up in 2016, this collection would be in the nature of both a retrospective appraisal as well as an anticipatory homage. · Its approaches are multi-disciplinary - from socio-historical analysis, to political commentary, translation studies, literary criticism and performance studies. · It will interest researchers interested in translation studies and performance studies, and literary critics. The Snake Prince & Other Folk Tales from Bengal Forgotten Books

This volume gives Asia's Shakespeares the critical, theoretical, and political space they demand, offering rich, alternative ways of thinking about Asia, Shakespeare, and Asian Shakespeare based on Asian experiences and histories. Challenging and supplementing the dominant critical and theoretical structures that determine Shakespeare studies today, close analysis

of Shakespeare's Asian journeys, critical encounters, cultural geographies, and the political complexions of these negotiations reveal perspectives different to the European. Exploring what Shakespeare has done to Asia along with what Asia has done with Shakespeare, this book demonstrates how Shakespeare helps articulate Asianess, unfolding Asia's past, reflecting Asia's present, and projecting Asia's future. This is achieved by forgoing the myth of the Bard's universality, bypassing the authenticity test, avoiding merely descriptive or even ethnographic accounts, and using caution when applying Western theoretical frameworks. Many of the productions studied in this volume are brought to critical attention for the first time, offering new methodologies and approaches across disciplines including history, philosophy, sociology, geopolitics, religion, postcolonial studies, psychology, translation theory, film studies, and others. The volume explores a range of examples, from exquisite productions infused with ancient aesthetic traditions to popular teen manga and television drama, from state-dictated appropriations to radical political commentaries in areas including Japan, India, Taiwan, Korea, Indonesia, China, and the Philippines. This book goes beyond a showcasing of Asian adaptations in various languages, styles, and theatre traditions, and beyond introductory essays intended to help an unknowing audience appreciate Asian performances, developing a more inflected interpretative dialogue with other areas of Shakespeare studies.

A collection of Bengali folk tales with 32 color illustrations by Warwick Goble. *Bengal Fairy Tales* Scholar's Choice All cities are multilingual, but there are some where language relations have a special importance. These are cities where more than one historically rooted language community lays claim to the territory of the city. This book focuses on four such linguistically divided cities: Calcutta, Trieste, Barcelona, and Montreal. Though living with the ever-present threat of conflict, these cities offer the possibility of creative interaction across competing languages and this book examines the dynamics of translation in its many forms. By focusing on a category of cities which has received little attention, this study contributes to our understanding of the kinds of language relations that sustain the diversity of urban life. Illustrated with photos and maps, *Cities in Translation* is both an engaging read for a wide-ranging audience and an important text in advancing theory and methodology in translation studies.

Shakespeare Studies in Colonial Bengal
Wentworth Press

Shakespeare in the World traces the reception histories and adaptations of Shakespeare in the nineteenth century, when his works became well-known to non-Anglophone communities in both Europe and colonial India. Sen provides thorough and searching examinations of nineteenth-century theatrical, operatic, novelistic, and prose adaptations that are still read and performed, in order to argue

that, crucial to the transmission and appeal of Shakespeare's plays were the adaptations they generated in a wide range of media. These adaptations, in turn, made the absorption of the plays into different "national" cultural traditions possible, contributing to the development of "nationalist cosmopolitanisms" in the receiving cultures. Sen challenges the customary reading of Shakespeare reception in terms of "hegemony" and "mimicry," showing instead important parallels in the practices of Shakespeare adaptation in Europe and colonial India. *Shakespeare in the World* strikes a fine balance between the Bard's iconicity and his colonial and post-colonial afterlives, and is an important contribution to Shakespeare studies.
