From the creator of the popular blog *The Monsters Know What They're Doing* comes a compilation of villainous battle plans for Dungeon Masters. In the course of a Dungeons & Dragons game, a Dungeon Master has to make one decision after another in response to player behavior—and the better the players, the more unpredictable their behavior! It's easy for even an experienced DM to get bogged down in on-the-spot decision-making or to let combat devolve into a boring slugfest, with enemies running directly at the player characters and biting, bashing, and slashing away. In *The Monsters Know What They're Doing*, Keith Ammann lightens the DM's burden by helping you understand your monsters' abilities and develop battle plans before your fifth edition D&D game session begins. Just as soldiers don't whip out their field manuals for the first time when they're already under fire, a DM shouldn't wait until the PCs have just encountered a dozen bullywugs to figure out how they advance, fight, and retreat. Easy to read and apply, *The Monsters Know What They're Doing* is essential reading for every DM.

Building the Devil's Empire is the first comprehensive history of New Orleans's early years, tracing the town's development from its origins in 1718 to

its revolt against Spanish rule in 1768. Shannon Lee Dawdy's picaresque account of New Orleans's wild youth features a cast of strong-willed captives, thin-skinned nobles, sharp-tongued women, and carousing travelers. But she also widens her lens to reveal the port city's global significance, examining its role in the French Empire and the Caribbean, and she concludes that by exemplifying a kind of rogue colonialism—where governments, outlaws, and capitalism become entwined—New Orleans should prompt us to reconsider our notions of how colonialism works. "[A] penetrating study of the colony's founding."—*Nation* "A brilliant and spirited reinterpretation of the emergence of French New Orleans. Dawdy leads us deep into the daily life of the city, and along the many paths that connected it to France, the North American interior, and the Greater Caribbean. A major contribution to our understanding of the history of the Americas and of the French Atlantic, the work is also a model of interdisciplinary research and analysis, skillfully bringing together archival research, archaeology, and literary analysis."—Laurent Dubois, Duke University

Twenty years ago, in a series of mysterious, incandescent writings, David Seabrook told of the places he knew best: the declining resort towns of the Kent coast. The pieces were no advert for the local tourist board. Here, the ghosts of murderers and mad artists crawl the streets. Septuagenarian rent boys recall the good old days and Carry On stars go to seed. Clandestine fascist networks emerge. And all the time, there is Seabrook himself - desperate perhaps, and in danger. Dark, strange and immediate, this is a classic work of sui generis British literature. There are devils here, and the reader will remember them.

Tunnell's memoir is the history of one Soldier's and one unit's experience in Operation Iraqi Freedom. Personal accounts of war are a critical aspect of understanding that immensely complex phenomenon. Using a journal which he kept during the war, then reflecting on his experiences while recovering from the wounds he suffered, LTC Tunnell tells the story of the 1st Battalion, 508th Parachute Infantry Regiment in Northern Iraq. The story of the Red Devils covers that crucial period of time from early 2003 when the Army prepared for war, through the end of so called 'major combat operations', and into the start of the insurgency and counterinsurgency. This is a first hand account of Operation Iraqi Freedom's earliest period.
