The Company of Critics provides a fascinating survey of the terrain of social criticism in the last century. Organizing the book as a series of eleven intellectual biographies, Michael Walzer tells not just the dramatic story of the cultural and political radical but also the more personal story of the meaning of criticism to the critic. By looking at the life and work of Julien Benda, Randolph Bourne, Martin Buber, Antonio Gramsci, Ignazio Silone, George Orwell, Albert Camus, Simone de Beauvoir, Herbert Marcuse, Michel Foucault, and Breyten Breytenbach, Walzer explains the role of the public intellectual in the context of what he identifies as "the triumphs and catastrophes of our time: the two world wars, the struggles of the working class, national liberation, feminism, totalitarian politics."The new edition, featuring a new preface, contains Walzer's thoughts on his own role as a public intellectual and, most important, the challenges that lie ahead for the engaged social critic. With its unique emphasis on life as a proving ground for thought, The Company of Critics is a necessary addition to the literature of social and political engagement both within and outside of the academy.

Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world.From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising

skepticism towards Europe as an integrated cultural and intellectual region.

Of Human Bondage (1915) is a novel by W. Somerset Maugham. Inspired by his experiences as an orphan and young student, Maugham composed his masterpiece. Adapted several times for film, Of Human Bondage is a story of tragedy, perseverance, and the eternal search for happiness which drives us as much as it haunts our every move. Orphaned as a boy, Philip Carey is raised in an affectionless household by his aunt and uncle.

Although his Aunt Louisa tries to make him feel welcome, William proves an uncaring, vindictive man. Left to fend for himself most days, Philip finds solace in the family's substantial collection of books, which serve as an escape for the imaginative boy. Sent to study at a prestigious boarding school, Philip struggles to fit in with his peers, who abuse him for his intelligence and club foot. Despite his struggles, he perseveres in his studies and chooses his own path in life, moving to Heidelberg, Germany and denying his uncle's wish that he attend Oxford. As he struggles to become a professional artist, Philip learns that one's dreams are often unsubstantiated in the world of the living. Of Human Bondage is a tale of desire, disappointment, and romance by a master stylist with a keen sense of the complications inherent to human nature. With a beautifully designed cover and professionally typeset manuscript, this edition of W. Somerset Maugham's Of Human Bondage is a classic work of British literature reimagined for modern readers.

Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem Come Away after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection That Winter (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

One of Thomas Hardy's most powerful works, The Return of the Native centers famously on Egdon Heath, the wild, haunted Wessex moor that D. H. Lawrence called 'the real stuff of tragedy.' The heath's changing face mirrors the fortunes of the farmers, inn-keepers, sons, mothers, and lovers who populate the novel. The 'native' is Clym Yeobright, who comes home from a cosmopolitan life in Paris. He; his cousin Thomasin; her fiancé, Damon Wildeve; and the willful Eustacia Vye are the protagonists in a tale of doomed love, passion, alienation, and melancholy as Hardy brilliantly explores that theme so familiar throughout his fiction: the diabolical role of chance in determining the course of a life.

This expanded fourth edition defines and cross-references 9,040 homophones and 2,133 homographs (up from 7,870 and 1,554 in the 3rd ed.). As the most comprehensive compilation of American homophones (words that sound alike) and homographs (look-alikes), this latest edition serves well where even the most modern spell-checkers and word processors fail--although rain, reign, and rein may be spelled correctly, the context in which these words may appropriately be used is not obvious to a computer.

The illegitimate son of a fortune teller, Ezio Comparoni (1920-52) never knew his father, rarely left his home town, and admitted no one to his home. His deliberate obscurity was compounded by his use of many pseudonyms, including Silvio d'Arzo, under which he wrote the remarkable novella and three stories collected in The House of Others. The novella The House of Others is among the rare perfect works of twentieth century fiction. In a desolate mountain village an old woman visits the parish priest, ostensibly to ask about dissolving a marriage. Gradually, as she probes for information on "special cases"--cases in which what is obviously wrong can also be irrefutably right--it becomes clear her true question is whether or not she might take her own life. The question is metaphysical, involving not only the woman's life but the priest's; and to it he has no answer.

Among Shakespeare's many biographers none brings to his subject more passion and feeling for the creative act than Anthony Burgess. He breathes life into Shakespeare the man and invigorates his times. His portrait of the age builds upon an almost personal tenderness for Shakespeare and his contemporaries (especially Ben Jonson), and on a profound sense of literary and theatrical history. Anthony Burgess's well-known delight in language infuses his own writing about Shakespeare's works. And in the verve of his biography he conveys the energy of the Elizabethan age.

This book is the first complete study of the translations of Machiavelli's Prince made in Europe and the Mediterranean countries during the period from the sixteenth to the first half of the nineteenth century: the first, unpublished French translation by Jacques de Vintimille (1546), the first Latin translation by Silvestro Tegli (1560), as well as the first translations in Dutch (1615), German (1692), Swedish (1757) and Arabic (1824). The first translation produced in Spain - dated somewhere between the end of the sixteenth and the early seventeenth century - remained in manuscript form, while there was a second vernacular Spanish version around 1680. The situation in Great Britain was different from the rest of Europe, as it could boast four manuscript translations by the end of the sixteenth century.

This Top Five Classics illustrated edition of Edgar Allan Poe's The Raven includes: • All 25 illustrations by Gustave Doré for Harper & Brothers' 1884 edition • An informative Introduction • A detailed Biography of Edgar Allan Poe • The illustrated version and text-only version of the full poem No poem has ever received the kind of immediate and overwhelming response that Poe's "The Raven" did when it first appeared in the New York Evening Mirror on January 29, 1845. It made Poe an overnight sensation (though his great fame never brought him much wealth) and the poem, a powerfully haunting elegy to lost love, remains one of the most beloved and recognizable verses in the English language. The illustrations that accompany this Top Five Classics edition are reproductions of the renowned French artist Gustave Doré's steel-plate engravings created for Harper & Brothers' 1884 release of The Raven. It would be Doré's last commission as he died shortly after completing the 25 illustrations in January 1883. His illustrations would become famous in their own right, evoking as they do the lyrical and mystical air of Poe's masterpiece.

Artists, teachers, army officers, housewives, elderly people, parents, and children with vision problems write about their experiences with the Bates Method and giving up their glasses in Better Eyesight. Major eye conditions (myopia, astigmatism, farsightedness, presbyopia, amblyopia, strabismus, cataract, glaucoma, blindness) are discussed by Bates, other ophthalmologists, the medical community, and readers. The significance of this literature is both historical and immediate. For the first time, the connection between eyestrain to shoulder and neck pain, headaches, and other muscular tension is discussed.
