The e-book edition does not include the audio CD that's included with the paperback edition. The most authoritative guide on cantillation. Joshua Jacobson's masterpiece?the comprehensive 1000-page guide to cantillation?is now available in this e-book edition. It is an ideal instructional guide for adult and young-adult students of Torah, for b'nai mitzvah students, and for cantors, rabbis, and Jewish educators of all denominations. Like the original edition, it includes an explanation of the tradition and a description of the practice of chanting, with all its regional variations and grammatical rules. There is detailed instruction, with musical notation, on chanting of Torah, and shorter instructions for chanting the haftarah, the megillot, and readings for the High Holy Days. Joshua Jacobson, professor of music and conductor of the acclaimed Boston-based Zamir Chorale, has been Torah chanting since he was 10 years old. That life-long experience, combined with an unquenchable desire to reconnect the art of cantillation with the most convincing and accurate treatment of the ancient text possible, led him to create this indispensable teaching tool. Using Jacobson's highly acclaimed approach, the ancient words come alive in a new, deeply emotional and most accurate way.

This comparative study looks at the laws concerning the murder of slaves by their masters and at how these laws were implemented. Andrew T. Fede cites a wide range of cases--across time, place, and circumstance--to illuminate legal, judicial, and other complexities surrounding this regrettably common occurrence. These laws had evolved to limit in different ways the masters' rights to severely punish and even kill their slaves while

protecting valuable enslaved people, understood as "property," from wanton destruction by hirers, overseers, and poor whites who did not own slaves. To explore the conflicts of masters' rights with state and colonial laws, Fede shows how slave homicide law evolved and was enforced not only in the United States but also in ancient Roman, Visigoth, Spanish, Portuguese, French, and British jurisdictions. His comparative approach reveals how legal reforms regarding slave homicide in antebellum times, like past reforms dictated by emperors and kings, were the products of changing perceptions of the interests of the public; of the individual slave owners; and of the slave owners' families, heirs, and creditors. Although some slave murders came to be regarded as capital offenses, the laws consistently reinforced the second-class status of slaves. This influence, Fede concludes, flowed over into the application of law to free African Americans and would even make itself felt in the legal attitudes that underlay the Jim Crow era.

It has become widely accepted among musicologists that medieval music is most profitably studied from interdisciplinary perspectives that situate it within broad cultural contexts. The origins of this consensus lie in a decisive reorientation of the field that began approximately four decades ago. For much of the twentieth century, research on medieval music had focused on the discovery and evaluation of musical and theoretical sources. The 1970s and 1980s, by contrast, witnessed calls for broader methodologies and more fully contextual approaches that in turn anticipated the emergence of the so-called 'New Musicology'. The fifteen essays in the present collection explore three interrelated areas of inquiry that proved particularly significant: the liturgy, sources (musical and archival), and musical symbolism. In so doing, these essays not only acknowledge past achievements but also illustrate how this broad, interdisciplinary approach remains a source for scholarly innovation.

The Getty Museum's large and exceptional collection of oriental porcelain embellished with Parisian gilt bronze or silver is comprehensively illustrated in this revised catalogue. The

European practice of mounting exotic objects such as oriental porcelain dates from the Middle Ages and found its height of expression during the seventeenth and eighteenth centuries, when Chinese and Japanese porcelains reached the West in considerable quantities. To meet the growing taste for such objects in fashionable Parisian society, marchands-merciers—guild members who combined the functions of the modern interior decorator, antique dealer, and picture dealer—devised ingenious settings in silver and gilt bronze for oriental porcelains, adapting their exotic character to the French interiors of the period. With the publication of this catalogue, the beauty and rarity with which buyers of these pieces were so enamored is vividly brought to life.

This is an engaging and comprehensive study of property-owning women in the colony of Tidewater, VA during the 17th & 18th centuries. It examines the social restrictions on women's behaviour and speech, opportunities and difficulties these women encountered in the legal system, the economic and discretionary authority they enjoyed, the roles they played in the family business, their roles in the later, trans-Atlantic trading framework, and the imperial context within which these colonial women lived, making this a welcome addition to both colonial and women's history.

Heda's Banquet Piece, Frans Hals' Willem Coymans, and Rembrandt's Lucretia. Paintings by these and other masters attracted the American collectors P. A. B. Widener, his son Joseph, and Andrew W. Mellon, whose bequests form the heart of the National Gallery's distinguished and remarkably cohesive

collection of ninety-one Dutch paintings.

 Crossroads in Time: An Illustrated History of Syracuse is the most ambitious publication in the Onondaga Historical Association's 145-year history. Most of the images—many in color—are taken from OHA's collection, and several have never been published before. This book provides the engaging story of Syracuse's expansion and development over the past 200 years. Beyond its chronological narrative, this volume is filled with sidebars detailing unique locations, characters and events, which collectively give Syracuse its distinctive identity.

The Spanish Armada conjures up images of age-old rivalries, bravery and treachery. However the same Spanish monarch who sent the Armada to invade England in 1588 was, just a few years previously, the King of England and husband of Mary Tudor. This important new book sheds new light on Philip II of Spain, England's forgotten sovereign. Previous accounts of Mary's brief reign have focused on the martyrdom of Protestant dissenters, the loss of English territory, as well as Mary's infamous personality, meaning that her husband Philip has remained in the shadows. In this book, Harry Kelsey uncovers Philip's life - from his childhood and education in Spain, to his marriage to Mary and the political manoeuvrings involved in the marriage contract, to the tumultuous aftermath of Mary's death which ultimately led to

hostile relations between Queen Elizabeth and Philip, culminating in the Armada. Focusing especially on the period of Philip's marriage to Mary, Kelsey shows that Philip was, in fact, an active King of England and took a keen interest in the rule of his wife's kingdom. Casting fresh light on both Mary and Philip, as well as European history more generally, this book will be essential reading for anyone interested in the Tudor era.

One of a series of systematic catalogues of the National Gallery of Art's collection, this comprehensive volume discusses in detail 310 objects that comprise one of the world's outstanding repositories of American naive paintings. Works by renowned folk artists such as Edward Hicks, Erastus Salisbury Field, and Ammi Phillips are represented in depth and placed in stylistic as well as historical context. This catalogue is an indispensable tool for historians of American painting and folk art, and for students of American life and culture. Thorough documentation and commentary are provided for the first time on some of the most intriguing images produced in America in the past two hundred years.

The energy and optimism of the new nation are abundantly apparent in this catalogue. It features some of the icons of American art, such as John Singleton Copley's The Copley Family and Gilbert Stuart's portraits of the first five presidents. Numerous paintings, including Benjamin West's Colonel Guy Johnson and Karonghyontye (Captain David Hill), are discussed from a new perspective, the result of information culled from letters, wills, and other previously unpublished documents. The author offers new interpretations of some works, among them Charles Willson Peale's portrait of the Baltimore couple Benjamin and Eleanor Ridgely Laming. The volume is richly illustrated, with carefully selected comparative illustrations.
