"Tabby may not be the plus-sized beauty that she was two years ago, but for sure, heavy pa rin sa sa ganda. Now that she's a commercial model, wala nang doubt dapat sa puso niya na maganda siya at karapat-dapat siyang mahalina. At wala na rin doubt dapat si Kei sa ganda ni Tabby. At least 'yon ang ine-expect ni Tabby nang makita niyang muli si Kei two years after siyang nawala na lang bigla sa buhay niya. He's acting like nothing special happened between them in the past. In fact, he's acting like he doesn't remember her at all. And Tabby is just not having it. Hindi man siya bigatin sa timbang ngayon, but she's still the same sassy, maldita XL Beauty whom Kei once fell in love with."

The Weight of Images explores the ways in which media images can train their viewers' bodies. Proposing a shift away from an understanding of spectatorship as being constituted by acts of the mind, this book favours a theorization of relations between bodies and images as visceral, affective engagements that shape our body image - with close attention to one particularly charged bodily characteristic in contemporary western culture: fat. The first mapping of the ways in which fat, gendered bodies are represented across a variety of media forms and genres, from reality television to Hollywood movies, from TV sitcoms to documentaries, from print magazine and news media to online pornography, The Weight of Images contends that media images of fat bodies are never only about fat; rather, they are about our relation to corporeal vulnerability overall. A ground-breaking volume, engaging with a rich variety of media and cultural texts, whilst examining the possibilities of critical auto-ethnography to unravel how body images take shape affectively between bodies and images, this book will appeal to scholars and students of sociology, media, cultural and gender studies, with interests in embodiment and affect.

Originally published between 1909 and 1917 under the name "Harvard Classics," this stupendous 51-volume set-a collection of the greatest writings from literature, philosophy, history, and mythology-was assembled by American academic CHARLES WILLIAM ELIOT (1834-1926), Harvard University's longest-serving president. Also known as "Dr. Eliot's Five Foot Shelf," it represented Eliot's belief that a basic liberal education could be gleaned by reading from an anthology of works that could fit on five feet of bookshelf. Volume L features Eliot's introduction, a reader's guide, and the complete indexes for the entire collection: an index to the first lines of every piece of verse, a general index, and a chronological index.

"[Beauty Sick] will blow the top off the body image movement...provocative and necessary." —Rebellious Magazine An award-winning psychology professor reveals how the cultural obsession with women's appearance is an epidemic that harms women's ability to get ahead and to live happy,

meaningful lives, in this powerful, eye-opening work in the vein of Peggy Orenstein and Sheryl Sandberg. Today's young women face a bewildering set of contradictions when it comes to beauty. They don't want to be Barbie dolls but, like generations of women before them, are told they must look like them. They're angry about the media's treatment of women but hungrily consume the outlets that belittle them. They mock modern culture's absurd beauty ideal and make videos exposing Photoshopping tricks, but feel pressured to emulate the same images they criticize by posing with a "skinny arm." They understand that what they see isn't real but still download apps to airbrush their selfies. Yet these same young women are fierce fighters for the issues they care about. They are ready to fight back against their beauty-sick culture and create a different world for themselves, but they need a way forward. In *Beauty Sick*, Dr. Renee Engeln, whose TEDx talk on beauty sickness has received more than 250,000 views, reveals the shocking consequences of our obsession with girls' appearance on their emotional and physical health and their wallets and ambitions, including depression, eating disorders, disruptions in cognitive processing, and lost money and time. Combining scientific studies with the voices of real women of all ages, she makes clear that to truly fulfill their potential, we must break free from cultural forces that feed destructive desires, attitudes, and words—from fat-shaming to denigrating commentary about other women. She provides inspiration and workable solutions to help girls and women overcome negative attitudes and embrace their whole selves, to transform their lives, claim the futures they deserve, and, ultimately, change their world.

The *Being of the Beautiful* collects Plato's three dialogues, the *Theaetetus*, *Sophist*, and *Statesmen*, in which Socrates formulates his conception of philosophy while preparing for trial. Renowned classicist Seth Benardete's careful translations clearly illuminate the dramatic and philosophical unity of these dialogues and highlight Plato's subtle interplay of language and structure. Extensive notes and commentaries, furthermore, underscore the trilogy's motifs and relationships. "The translations are masterpieces of literalness. . . . They are honest, accurate, and give the reader a wonderful sense of the Greek."—Drew A. Hyland, *Review of Metaphysics* *Computerworld* Cosimo, Inc.

This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.
