Oxford  
University  
Press  
Fourteen  
papers  
explore a  
variety of  
inter-  
disciplinary  
approaches to  
understanding  
the Viking  
past, both in  
Scandinavia  
and in the  
Viking  
diaspora.  
Contributions  
employ both

traditional  
inter- or multi-  
disciplinary  
perspectives  
such as using  
historical  
sources,  
Icelandic  
sagas and  
Eddic poetry  
and also  
specialised  
methodologies  
and/or  
empirical  
studies, place-  
name  
research, the  
history of  
religion and  
technological  
advancements  
, such as  
isotope  
analysis.  
Together

these  
generate new  
insights into  
the  
technology,  
social  
organisation  
and mentality  
of the worlds  
of the Vikings.  
Geographically,  
contributions  
range from  
Iceland  
through  
Scandinavia to  
the Continent.  
Scandinavian,  
British and  
Continental  
Viking  
scholars come  
together to  
challenge  
established

truths, present new definitions and discuss old themes from new angles. Topics discussed include personal and communal identity; gender relations between people, artefacts, and places/spaces; rules and regulations within different social arenas; processes of production, trade and exchange, and transmission of knowledge within both past Viking-age societies

and present-day research. Displaying thematic breadth as well as geographic and academic diversity, the articles may foreshadow up-and-coming themes for Viking Age research. Rooted in different traditions, using diverse methods and exploring eclectic material – Viking Worlds will provide the reader with a sense of current and forthcoming issues, debates and

topics in Viking studies, and give insight into a new generation of ideas and approaches which will mark the years to come.

**Ideen ueber die Politik, den Verkehr und den Handel der vornehmsten Voelker der alten Welt**

Oxbow Books

The well-respected historian Manfred Rauchensteiner analyses the outbreak of World War I, Emperor Franz Joseph's role in the conflict,

and how the various nationalities of the Habsburg Monarchy reacted to the disintegration of this 640-yearold empire in 1918. After Archduke Franz Ferdinand's assassination in Sarajevo in 1914, war was inevitable. Emperor Franz Joseph intended it, and everyone in Vienna expected it. How the war began and how Austria-Hungary managed to avoid capitulation only weeks

later with the help of German troops reads like a thriller. Manfred Rauchensteiner's book is based on decades of research and is a fascinating read to the very end, even though the final outcome, the collapse of the Austro-Hungarian Dual Monarchy, is already known. Originally published in German in 2013 by Böhlau, this standard work is now

available in English.  
**Comprehending Antisemitism through the Ages: A Historical Perspective**  
Walter de Gruyter GmbH & Co KG  
In The Logistic Revolution, Richard Vahrenkamp discusses the political and economic factors which have led to the rise of logistics in Europe in the context of the mass consumption society. Not only does he show the ascent of truck

transport in the 1920s to satisfy consumer needs and the importance of the European motorway infrastructure for the development of modern logistics, he also sheds light on the dimension that freight transport has acquired in Europe and on the organizations that have been created in Europe to enable and facilitate cross border goods transports. Other than in the US, the national

transport markets in Europe were initially uncoordinated . It was only in the process of European unification that transport markets for truck freight and associated logistics systems became Europe wide. This change was accompanied by the struggle between rail and truck. *Anmerkungen über die Geschichte der Reichs-Städte vornehmlich der*

*Schwäbischen ...* Campus Verlag Thomas Kaufmann, the leading European scholar of the Reformation, argues that the main motivations behind the Reformation rest in religion itself. The Reformation began far from Europe's traditional political, economic, and cultural power centres, and yet it threw the whole continent into turmoil. There has been intense speculation over the last

century focusing on the political and social causes that lay at the root of this revolution. Thomas Kaufmann, one of the world's leading experts on the Reformation, sees the most important drivers for what happened in religion itself. The reformers were principally concerned with the question of salvation. It could all have ended with the pope's condemnation

of Luther and his teaching. But Luther believed the pope was condemned to eternal damnation, and this was the root cause of the great split to come. Hatred of the damned drove people to take up arms, while countless numbers left their homes far behind and carried the Reformation message to the furthest corners of the earth in the hope of salvation. In The Saved and the Damned, Thomas

Kaufmann presents a dramatic overview of how Europe was transformed by the seismic shock of the Reformation--and of how its aftershocks reverberate right down to the present day. *Universallexikon; oder, Vollständiges encyclopädisches wörterbuch* BRILL South Africa, the power house of the African continent, as well as Germany, Europe's largest

economic power, are faced with an intricate maze of international obligations, whether related to the United Nations, the World Trade Organization, the African Union or the European Union (EU), international human rights law, international humanitarian law, or any other sub-regime of international law. The two countries are in a different position when facing the implementation

n of this maze of obligations. South Africa is a developing economy that faces various capacity challenges which, at times, also impact the manner and extent to which it implements its international treaty obligations. Germany, on the other hand, benefits from comparatively well-funded institutes of international law and a well-trained academic community, which have contributed to

the successful implementation of much of international law. But as the relevant chapters in this volume show, the German case is not without its own complexities. As a result, an exchange of ideas and experiences pertaining to the implementation of international obligations can prove fruitful for both countries. Moreover, such an exchange could also serve as a

useful point of departure for other countries in Southern Africa that face similar challenges in relation to implementation. The current book explores suitable techniques of implementation of international law, by comparing South Africa with Germany. After a general overview of the status of international law within Germany and South Africa respectively, it focuses on the implementation

n of international instruments pertaining to key sub-areas of international law in the two countries. These include the United Nations Charter (peace and security), the international law of the sea, international economic law, international environmental law, international human rights law, international criminal law, regional integration, and the status of international

judicial decisions before domestic courts. The Law and Practice of the United Nations Walter de Gruyter GmbH & Co KG Particularly in the humanities and social sciences, festschrifts are a popular forum for discussion. The IJBF provides quick and easy general access to these important resources for scholars and students. The festschrifts are located in

state and regional libraries and their bibliographic details are recorded. Since 1983, more than 659,000 articles from more than 30,500 festschrifts, published between 1977 and 2011, have been catalogued.

Routledge  
This work is a comparative study of

domestic implementation of Security Council mandatory sanctions taken under Article 41, Chapter VII of the UN Charter, including the establishment of the two international criminal tribunals, the ICTY and ICTR, and recent resolutions on the combating of the financing of terrorism. The book examines implementation in 16 select States in Europe, America, Asia, the Middle

East and Africa, underlining also the particular problems arising from sanctions implementation by the European Union, by a permanently neutral and former non-Member State - Switzerland - and by States confronted with special economic problems within the meaning of Article 50 of the UN Charter. Three interrelated themes are addressed. The first, of a theoretical

nature, concerns the question of whether implementation of Security Council resolutions, particularly where perceived to be in fulfilment of community objectives, poses problems which are in some way distinct from those raised by the implementation of other conventional international law obligations, thereby shedding a different light on the

traditional relationship between international and municipal law. The second concerns the effectiveness of the decisions of the Security Council viewed from the perspective of the effective oeuvre of these decisions in national law. The third theme concerns the legitimacy of Security Council resolutions as seen from the viewpoint of domestic legal

systems, that is the extent to which Security Council decisions encroach on internationally or constitutionally protected individual rights and the potential role played by domestic courts in reviewing the decisions of the Security Council. The latter has assumed particular importance in the framework of the combating of the financing of terrorism. This work, which brings

together the research results of 29 academics and experts, is the second publication within the framework of a project on Security Council sanctions carried out under the auspices of the Graduate Institute of International Studies. The first, which looked at a broad set of issues, was entitled "United Nations Sanctions and International Law" and was published by Kluwer Law

International in 2001. Germany and the Holy Roman Empire Oxford University Press  
The aim of EUROPEAN RETAIL RESEARCH is to publish interesting manuscripts of high quality and innovativeness with a focus on retail researchers, retail lecturers, retail students and retail executives. As it has always been, retail executives are part of the target group and the

knowledge transfer between retail research and retail management remains a part of the publication's concept. Hitler's Salon Springer Science & Business Media  
The Law and Practice of the United Nations examines the law of the United Nations through an analysis of the Organization's practice from its inception until the present, in particular to the transformation s the UN has

undergone since the end of the Cold War. Special consideration is given to Chapter VII of the UN Charter and its interpretation, the United Nations' membership and organs' competences, along with the peaceful settlement of disputes, and coercive action for the maintenance of international peace and security. In addition, this important new edition explores such areas as

economic sanctions, peacekeeping, authorizations of the Security Council, territorial administration, self-determination, human rights, financing of the Organization, acts adoptable by the UN organs, and a review of their legality. Offering a fully revised and updated analysis of the main legal issues surrounding the United Nations' practice, The Law and Practice of the United Nations

will be of interest to all those involved with legal issues surrounding the United Nations, the analysis of said issues, and their impacts on international practice

Als einer der weltweit größten Emittenten von Treibhausgasen zählt die Europäische Union zu den Hauptverursachern des Klimawandels.

Sie sieht sich daher in der Verantwortung, der globalen Klimaänderung entgegenzuwirken, und strebt in der internationalen Klimaschutzpolitik eine Führungsrolle an. Inwieweit sie hier tatsächlich als Vorreiter aufgetreten ist, hinterfragt Alexandra Lindenthal mithilfe einer politiktheoretischen Aufbereitung des Begriffs »Leadership«.

**The Saved and the Damned**

Böhlau Wien  
 This is the first book to survey in comparative form the transmission of imperial ideas to the public in six European countries in the nineteenth and twentieth centuries. The chapters, focusing on France, Britain, the Netherlands, Belgium, Germany and Italy, provide parallel studies of the manner in which colonial ambitions and events in the respective European empires were

given wider popular visibility. The international group of contributors, who are all scholars working at the cutting edge of these fields, place their work in the context of governmental policies, the economic bases of imperial expansion, major events such as wars of conquest, the emergence of myths of heroic action in exotic contexts, religious and missionary impulses, as

well as the new media which facilitated such popular dissemination. Among these media were the press, international exhibitions, popular literature, educational institutions and methods, ceremonies, church sermons and lectures, monuments, paintings and much else. *Függetlenség és rögtönzés* Manchester University Press Biografie van de Duitse keizer Maximilian II

(1527-1576). **The implementation of international law in Germany and South Africa** Peter Lang This book brings together the fruits of different traditions in legal philosophy and draws on them to develop a systematic thesis on the concept of law. The work uses a legal model to explore the underlying question of how the current

phenomena of transnational law are best understood, in combination with an examination of the traditions of Jürgen Habermas's critical theory and H.L.A. Hart's analytic jurisprudence. This leads the author to conclude that the key to a fruitful dialogue and comprehensive understanding is to appreciate that the concept of law is not state-centered and must reflect relationships

to other legal systems.  
National Implementation of United Nations Sanctions  
 Routledge  
 This volume traces the history of antisemitism from antiquity through contemporary manifestations of the discrimination of Jews. It documents the religious, sociological, political and economic contexts in which antisemitism thrived and thrives and shows how such circumstances

served as support and reinforcement for a curtailment of the Jews' social status. The volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against antisemitism. *The Concept of Law from a Transnational Perspective*  
 Bloomsbury Publishing  
 The fourth edition of this well established and highly regarded work on EU law

maintains its character by combining comprehensive yet accessible coverage with in-depth analysis of the law and student-friendly pedagogy. It is fully up to date so encompassing critical examination of new important judgments of EU and national courts and developments in institutional, constitutional and substantive EU Law. The book keeps its

unique style in that it is both a textbook and a casebook. Case summaries are highlighted in colour-tinted boxes for ease of reference, and are accompanied by key facts and critical analysis, often in the light of subsequent developments. The student-friendly approach is enhanced by market-driven pedagogical features, including: Concise outlines, at the beginning of each chapter describing its content and assisting in revision; An aide-mémoire, often presented in diagrammatic form, at the end of each chapter to highlight and reinforce key points; End of chapter recommended reading lists to encourage and facilitate further research; End of chapter problem and essay questions testing the students' ability to apply what they have learnt; Cross-references to show how topics are interrelated; and A map identifying EU Member States, candidate States; and, potential candidate States. The book's companion website offers a range of teaching and learning resources including an interactive timeline of the EU, useful web links, self-test questions and much more. This book is essential reading for those studying EU law on

both undergraduate and postgraduate courses and will be of interest to students of political science, social science and business studies.

**The First World War**

Oxford University Press  
The late medieval German trade with the North Atlantic islands, in the margins of the Hanseatic trade network, has received only limited scholarly attention. Merchants

from predominantly Hamburg and Bremen established direct trade relations with these islands in the late 15th century, and managed to control the international trade with Iceland, the Faroes and Shetland for much of the 16th century. However, the Hanseatic commercial infrastructure was absent in the North Atlantic, which forced these merchants to develop new trade strategies. Besides a

critical re-evaluation of the economic and political conditions, this volume offers a comprehensive study of the organisation of the trade and the methods used to establish and maintain networks between islanders and German merchants. Moreover, it analyses the role and socio-economic position of the communities of merchants with the North Atlantic in their home towns. The book shows

that the North Atlantic trade was anything but insignificant. It was a dynamic and integral part of the trade network of the northern German cities, and its study is highly relevant for the economic history of Northern Europe.

Martinus Nijhoff  
Publishers  
Franks and Northmen

explores the full spectrum of Franco-Scandinavian interaction, examining not just violence but also less well-known relationships centered on acts of diplomacy, commerce, and mission and demonstrating the transformative nature of cross-cultural encounter during the Viking Age. In the year 777, the Frankish sources mention the Northmen, better known to most as the Vikings, for

the first time. By the tenth century these Northmen, once a mysterious people on the borders of the Carolingian Empire, would be a familiar presence in the Frankish world. As raiders and pillagers, the Vikings would fill the pages of Frankish authors, leaving a legacy that continues to fascinate even to the twenty-first century. But a closer look at sources, both textual and material, reveals that

the relationships between Franks and Northmen were far more complex and multifaceted than a rigid focus on Viking violence might suggest. Merchants carried goods across the North Sea, missionaries encouraged new ways of understanding the world, and Franks and Northmen formed relationships and bonds even amidst conflict and violence. This study is a useful

resource for both students and specialists of central and northern Europe in the early medieval period. *The European Experience in Slavery, 1650-1850* Yale University Press From 1937 to 1944 the National Socialist regime organised a series of art exhibitions, Grosse Deutsche Kunstausstellung, in Munich. This book traces the history of the exhibitions,

characterises the artists and artworks shown and investigates how the local Munich tradition of displaying art was reinvented for national purposes. Das Ausland Taylor & Francis The Hungarian historian Professor Zoltán Tefner has a remarkable academic career. This book is a tribute to his versatile, energetically continuous work. At the same time, it is a collection

of current texts in which Tefner's well-known students, colleagues and members of the international scientific community deal with historically and socially significant themes, such as the construction of the European territorial order, border policy and contractual civilization, the importance of jurisprudence in the search for the civilizing process,

welfare economics, a systematic conception of human being, and Hungary's critical decades in the 19th and 20th centuries. The historical and geographical arc of the texts extends from the Carolingian Empire of the 8th century to the European Union of the 2020s. Tefner Zoltán magyar történész kiemelkedő tudományos pályafutással rendelkezik. Ez a könyv tisztelgés sokrétű, nyughatatlan folyamatos

munkája előtt. Ugyanakkor aktuális szöveggyűjtemény, amelyben Tefner neves tanítványai, kollégái és a nemzetközi tudományos közösség tagjai történelmi és társadalmi szempontból is fontos témákkal foglalkoznak, mint a felségterület-elrendezések és határpolitikák Európában, az európai szerződéses civilizáció szerkezete, az igazságszolgáltatás jelentősége a	civilizációs folyamat értelmének keresésében, a jóléti gazdaságtan, az emberiség szisztematikus szemlélete, valamint Magyarország kritikus évtizedei a 19. és a 20. században. A szövegek történelmi és földrajzi íve a 8. századi Karoling Birodalomtól a 2020-as évek Európai Uniójáig terjed. Der ungarische Historiker Professor Zoltán Tefner hat eine bemerkenswerte	akademische Karriere. Dieses Buch ist eine Hommage an sein vielseitiges, dynamisch-kontinuierliches Werk. Zugleich handelt es sich um eine Sammlung aktueller Texte, in denen sich Tefners namhafte Studierende, Kollegen und Mitglieder der internationalen Wissenschaftsgemeinschaft mit historisch und gesellschaftlich bedeutsamen Themen
--	--	---

auseinanderse tzen; wie etwa den Territorialitäts ordnungen und Grenzpolitiken in Europa, dem Aufbau der europäischen Vertragszivilis ation, der Bedeutung der Rechtsprechu	ng bei der Suche nach dem Sinn des Zivilisationspr ozesses, der Wohlfahrtsöko nomie, dem systematische n Menschenbild und den kritischen Jahrzehnten Ungarns im 19. und 20.	Jahrhundert. Der historische und geografische Bogen der Texte reicht vom Karolingischen Kaiserreich des 8. Jahrhunderts bis hin zur Europäischen Union der 2020er Jahre.
