Based on the critically
acclaimed podcast that
has broken down

hundreds of Top 40
songs, Switched On
Pop dives in into
eighteen hit songs
drawn from pop of the
last twenty years--
ranging from Britney to
Beyoncé, Kelly
Clarkson to Kendrick
Lamar--uncovering the
musical explanations

for why and how certain tracks climb to the top of the charts. In the process, authors Charlie Harding and Nate Sloan reveal the timeless techniques that animate music across time and space.

*Taking Popular Music
Seriously* Oxford
University Press, USA
To get the best
answer-in business, in
life-you have to ask the

best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power

of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries,

Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

Music Is History Da Capo Press

This new edition of *Popular Music and Society*, fully revised and updated, continues to pioneer an approach to the study of popular

music that is informed by wider debates in sociology and media and cultural studies. Astute and accessible, it continues to set the agenda for research and teaching in this area. The textbook begins by examining the ways in which popular music is produced, before moving on to explore its structure as text and the ways in which audiences understand and use music. Packed with examples and data on the contemporary production and consumption of popular music, the book also includes overviews and critiques of theoretical approaches to this exciting area of study and outlines the most important empirical studies which have

shaped the discipline. Topics covered include:

- The contemporary organisation of the music industry;
- The effects of technological change on production;
- The history and politics of popular music;
- Gender, sexuality and ethnicity;
- Subcultures;
- Fans and music celebrities.

For this new edition, two whole new chapters have been added: on performance and the body, and on the very latest ways of thinking about audiences and the spaces and places of music consumption. This second edition of *Popular Music and Society* will continue to be required reading for students of the sociology of culture, media and communication studies, and popular

culture. *Die Griechischen Lyriker Oder Elegiker, Jambographen Und Meliker* Harvard University Press

F. Scott Fitzgerald named it, Louis Armstrong launched it, Paul Whiteman and Fletcher Henderson orchestrated it, and now Arnold Shaw chronicles this fabulous era in *The Jazz Age*. Spicing his account with lively anecdotes and inside stories, he describes the astonishing outpouring of significant musical innovations that emerged during the "Roaring Twenties"--including blues, jazz, band music, torch ballads, operettas and musicals--and sets them against the background of the Prohibition world of the Flapper.

 Musicians strive to
 "keep it real"; listeners

condemn "fakes"; but does great music really need to be authentic? By investigating this obsession in the last century, this title rethinks what makes popular music work. Studying Popular Music Culture Orient Blackswan
33 Revolutions Per Minute tracks the turbulent relationship between popular music and politics, through 33 pivotal songs that span seven decades and four continents, from Billie Holiday singing 'Strange Fruit' to Green Day raging against the Iraq war. Dorian Lynskey explores the individuals, ideas and events behind each song, showing how protest music has soundtracked and informed social change since the 1930s.

Through the work of such artists as Woody Guthrie, Bob Dylan, Stevie Wonder, Fela Kuti, The Clash, Public Enemy and Gil Scott Heron, Lynskey examines how music has engaged with racial unrest, nuclear paranoia, apartheid, war, poverty and oppression, offering hope, stirring anger, inciting action and producing songs which continue to resonate years down the line. *100 Years of Popular Music 1980s* Crown Chronicles the greatest music of the twentieth century. This book contains more than 70 songs from the 1920s arranged for piano, voice and guitar. It also includes a listing of various inventions first seen during the 1920s. 100 Years of Popular Music Professional

 New York Times bestselling Music Is History combines Questlove's deep musical expertise with his curiosity about history, examining America over the past fifty years—now in paperback Focusing on the years 1971 to the present, Questlove finds the hidden connections in the American tapes, whether investigating how the blaxploitation era reshaped Black identity or considering the way disco took an assembly-line approach to Black genius. And these critical inquiries are complemented by his own memories as a music fan and the way his appetite for pop culture taught him about America. A

history of the last half-century and an intimate conversation with one of music's most influential and original voices, Music Is History is a singular look at contemporary America.

Selling Sounds Alfred Publishing Company
 One of Oprah Daily's 20 Favorite Books of 2021 • Selected as one of Pitchfork's Best Music Books of the Year "One of the best books of its kind in decades." —The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-hop, dance music, and pop Kelefa Sanneh, one of the

essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In *Major Labels*, Sanneh distills a career's worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and

outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn't transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a

powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, Major Labels pays in full.
