*The History of the World in Christian Perspective: Since the beginning* W. Norton & Company  
 J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought

about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be

pursued as a science."

 Holt McDougal  
 Records the history of Plymouth Plantation as written by

Bradford in his journals of 1620-1647. **Apostle to Islam** Ambassador International A NEW YORK TIMES NOTABLE BOOK • Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village,

imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, Homegoing follows the parallel paths of these sisters and their descendants through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates

slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation. *Vocabulary from Classical Roots* Rand McNally Promotes critical thinking with first-hand accounts and documents, emphasizes the big picture focusing on key concepts, themes and patterns of interaction allowing students to

Basing his studies on recorded oral traditions as passed down from one generation to the next and with the help of historical comparative techniques, the author attempts to define who the Bari are,

trace their ancestry and their migratory routes using oral tradition, language, religion, values, customs and institutions. George Bureng V. Nyombe is professor of linguistics in the Department of Linguistics and African Languages at the University of Nairobi. *World History Quick Starts Workbook, Grades 4 - 12* Carson-Dellosa Publishing Respected Christian

Christian Liberty Press "Nimura paints history in cinematic strokes and brings a forgotten story to vivid, unforgettable life." —Arthur Golden, author of *Memoirs of a Geisha* In 1871, five young girls were sent by the Japanese government to the United States. Their mission: learn

Western ways and return to help nurture a new generation of enlightened men to lead Japan. Raised in traditional samurai households during the turmoil of civil war, three of these unusual ambassadors —Sutematsu Yamakawa, Shige Nagai, and Ume Tsuda—grew up as typical American schoolgirls. Upon their arrival in San Francisco they became celebrities, their travels and traditional clothing

exclaimed over by newspapers across the nation. As they learned English and Western customs, their American friends grew to love them for their high spirits and intellectual brilliance. The passionate relationships they formed reveal an intimate world of cross-cultural fascination and connection. Ten years later, they returned to Japan—a land grown foreign to

<p>them—determined to revolutionize women’s education. Based on in-depth archival research in Japan and in the United States, including decades of letters from between the three women and their American host families, <i>Daughters of the Samurai</i> is beautifully, cinematically written, a fascinating lens through which to view an extraordinary historical moment.</p> <p><i>World History</i></p>	<p><i>&amp; Geography</i> B&amp;H Publishing Group Examines the events leading up to and the political legacy of the bloodless English overthrow of its monarchy.</p> <p><u><i>Spectrum</i></u> <u><i>Language Arts, Grade 8</i></u> Modern Library This world history text provides a comprehensive overview of ancient history from Creation through the 1620s, from a Christian perspective. other missionaries, the death of his wife, troubles, delays, worries, hunger, thirst, illness, and the fear of death from the slave-dealers and wild animals, Livingstone was still close to God. His Bible was his solace and he felt the companionship of Jesus Christ even when he was most alone. Though David Livingstone has been dead for over a century, he has an honored name

and his fame is fresh. He believed that God had called him to open Africa; and having done so, he left it to others, under God's guidance, to pick up the task where he had finished. Because of the work of David Livingstone, there are thousands of missionaries on the field today; missionaries who love the same Lord Jesus who made Livingstone the hero that he was.

*World Civilizations and Cultures, Grades 5 - 8*  
HarperCollins UK  
Vocabulary from Classical Roots is a thematically organized vocabulary program based on Greek and Latin roots. Each of the 16 lessons features 23 roots and 815 words derived from these roots. Words are presented with dictionary-style definitions, and all words are used in example sentences.

<p>Lists of Familiar Words and Challenge Words are provided for each root to help all students activate prior knowledge and keep advanced students on task. Exercises include synonym/antonym, fill in the blank, identification of incorrect usage, and analogies. Review activities including writing extensions, discussion questions, and other</p>	<p>exercises are provided after every two lessons. The themes presented in Book E include: Here and There, Government, Up and Down, Business, Light and Dark, Open and Shut, Military Matters, Good and Bad, and The Law. Some of the words presented in this book include: cede, exhort, cartel, aver, malign, induce, juxtapose, censure, echelon, peripatetic, and succumb.</p>	<p>Grade 11." <i>World Studies</i> Vintage This should be the last course a student takes before high school biology. Typically, we recommend that the student take this course during the same year that he or she is taking prealgebra. Exploring Creation With Physical Science provides a detailed introduction to the physical environment and some of the basic laws that make it work. The</p>

fairly broad scope of the book provides the student with a good understanding of the earth's atmosphere, hydrosphere, and lithosphere. It also covers details on weather, motion, Newton's Laws, gravity, the solar system, atomic structure, radiation, nuclear reactions, stars, and galaxies. The second edition of our physical science course has several features that enhance the

value of the course: \* There is more color in this edition as compared to the previous edition, and many of the drawings that are in the first edition have been replaced by higher-quality drawings. \* There are more experiments in this edition than there were in the previous one. In addition, some of the experiments that were in the previous edition have been changed to make them even more

interesting and easy to perform. \* Advanced students who have the time and the ability for additional learning are directed to online resources that give them access to advanced subject matter. \* To aid the student in reviewing the course as a whole, there is an appendix that contains questions which cover the entire course. The solutions and tests manual has the answers to

those questions. Because of the differences between the first and second editions, students in a group setting cannot use both. They must all have the same edition. A further description of the changes made to our second edition courses can be found in the sidebar on page 32.

Teaching White Supremacy Arab World Pioneers  
A quintessential

ly American story chronicling Chinese American achievement in the face of institutionalized racism by the New York Times bestselling author of *The Rape of Nanking* In an epic story that spans 150 years and continues to the present day, Iris Chang tells of a people's search for a better life—the determination of the Chinese to forge an identity and a destiny in a strange land

and, often against great obstacles, to find success. She chronicles the many accomplishments in America of Chinese immigrants and their descendents: building the infrastructure of their adopted country, fighting racist and exclusionary laws and anti-Asian violence, contributing to major scientific and technological advances, expanding the literary canon, and influencing

the way we think about racial and ethnic groups. Interweaving political, social, economic, and cultural history, as well as the stories of individuals, Chang offers a bracing view not only of what it means to be Chinese American, but also of what it is to be American.
