This successful Langan worktext continues to help students master the essential grammar, mechanics, punctuation, and usage skills needed for clear, thoughtful writing.

English Skills with Readings Teacher Created Resources
 Many teachers have adopted the daily proofreading exercises published by large companies as a way to help students practice finding and correcting errors. Sadly, many students have fallen asleep over these same exercises. Ordinary daily proofreading exercises try to do too much—i.e., force-feed facts and information as they also try to teach writing. *A Sentence a Day* takes a different approach. It focuses on short, playful, interesting sentences with a sense of humor. Students receive proofreading practice in daily doses that don't overwhelm. Each exercise should take only a few minutes of class time, allowing for frequent, consistent reinforcement and practice of serious writing skills. Each page of the book shows an incorrect sentence, a sample correction, and notes for the teacher. Grades 6-9

This is the newly updated SECOND EDITION! This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have

carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.
