Masters Theses in the
Pure and Applied
Sciences was first
conceived, published,
and disseminated by
the Center for
Information and
Numerical Data
Analysis and Synthesis
(CINDAS) *at Purdue
University in 1957,
starting its coverage of
theses with the
academic year 1955.
Beginning with Volume
13, the printing and
dissemination phases

of the activity were
transferred to
University
Microfilms/Xerox of
Ann Arbor, Michigan,
with the thought that
such an arrangement
would be more
beneficial to the
academic and general
scientific and technical
community. After five
years of this joint
undertaking we had
concluded that it was
in the interest of all
concerned if the
printing and
distribution of the
volume were handled
by an international
publishing house to
assure improved
service and broader
dissemination. Hence,
starting with Volume
18, Masters Theses in
the Pure and Applied
Sciences has been
disseminated on a
worldwide basis by
Plenum Publishing

Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 20 (thesis year 1975) a total of 10,374 theses titles from 28 Canadian and 239 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. The organization of Volume 20 is identical to that of past years. It consists of theses titles arranged by discipline and by university within each discipline. Inside Solid State Drives (SSDs) Hearst Books
Mallard Fillmore lampoons everything

from political correctness to Phil, Oprah, and Geraldo to our government's insatiable appetite for spending our money. His marvelous supporting cast includes wickedly wonderful caricatures of everyone who's anyone, from Hollywood to D.C. to Arkansas.

Mallard Fillmore--Createspace Independent Publishing Platform
Perhaps never before has an objective, evidence-based review of the intersection

between gun violence and mental illness been more sorely needed or more timely. *Gun Violence and Mental Illness*, written by a multidisciplinary roster of authors who are leaders in the fields of mental health, public health, and public policy, is a practical guide to the issues surrounding the relation between firearms deaths and mental illness. Tragic mass shootings that capture headlines reinforce the mistaken beliefs that people with mental illness are violent and responsible for much of the gun violence in the United States. This misconception stigmatizes individuals with mental illness and distracts us from the awareness that approximately 65% of

all firearm deaths each year are suicides. This book is an apolitical exploration of the misperceptions and realities that attend gun violence and mental illness. The authors frame both pressing social issues as public health problems subject to a variety of interventions on individual and collective levels, including utilization of a novel perspective: evidence-based interventions focusing on assessments and indicators of dangerousness, with or without indications of mental illness. Reader-friendly, well-structured, and accessible to professional and lay audiences, the book: *
Reviews the epidemiology of gun violence and its

relationship to mental illness, exploring what we know about those who perpetrate mass shootings and school shootings. * Examines the current legal provisions for prohibiting access to firearms for those with mental illness and whether these provisions and new mandated reporting interventions are effective or whether they reinforce negative stereotypes associated with mental illness. * Discusses the issues raised in accessing mental health treatment in regard to diminished treatment resources, barriers to access, and involuntary commitment.* Explores novel interventions for addressing these issues from a multilevel and multidisciplinary public

health perspective that does not stigmatize people with mental illness. This includes reviews of suicide risk assessment; increasing treatment engagement; legal, social, and psychiatric means of restricting access to firearms when people are in crisis; and, when appropriate, restoration of firearm rights. Mental health clinicians and trainees will especially appreciate the risk assessment strategies presented here, and mental health, public health, and public policy researchers will find *Gun Violence and Mental Illness* a thoughtful and thought-provoking volume that eschews sensationalism and embraces serious scholarship.

The new edition of *Toward Speaking Excellence* addresses the recent changes to the Test of Spoken English (TSE(R)). The text introduces readers to the format of the new TSE(R), typical questions, and scoring criteria. The second edition of *Toward Speaking Excellence* includes actual student responses that are used or modified to highlight specific characteristics of effective communication. Two complete sample TSE(R)-like tests are included for further practice. Also provided are practice with some of the skills that, while no longer tested on the TSE(R), are key to

sounding more native-like and fluent. *Toward Speaking Excellence* may be used as an individual study tool or as a course text. While the material is directed toward the TSE(R) and SPEAK(R) tests, the communication strategies presented will prepare students for other types of oral exams (including the TAST(R), interviews, and performance tests). *Toward Speaking Excellence* is a course book but may also be used for individual test-preparation/self-study. Dean Papajohn is a Specialist in Education at the Center for Teaching Excellence, University of Illinois, Urbana-Champaign..

Suspension of
Community Eligibility
(US Federal Emergency

Management Agency Regulation) (FEMA) (2018 Edition) The Law Library presents the complete text of the Suspension of Community Eligibility (US Federal Emergency Management Agency Regulation) (FEMA) (2018 Edition). Updated as of May 29, 2018 This rule identifies communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency

(FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the Federal Register on a subsequent date. This book contains: - The complete text of the Suspension of Community Eligibility (US Federal Emergency Management Agency Regulation) (FEMA) (2018 Edition) - A table of contents with the page number of each section

From the bestselling author of *My Ex-Best Friend's Wedding* comes a novel about four friends who share a passion for a beloved British television show that will change all of their lives. When the concierge of The

Alexander, a historic Atlanta apartment building, invites his fellow residents to join him for weekly screenings of *Downton Abbey*, four very different people find themselves connecting with the addictive drama, and—even more

unexpectedly—with each other... Samantha Davis married young and for the wrong reason: the security of old Atlanta money—for herself and for her orphaned brother and sister. She never expected her marriage to be complicated by love and compromised by a shattering family betrayal. Claire Walker is now an empty nester and struggling author who left her home in the suburbs for the old world charm of The Alexander, and for a

new and productive life. But she soon wonders if clinging to old dreams can be more destructive than having no dreams at all. And then there's Brooke MacKenzie, a woman in constant battle with her faithless ex-husband. She's just starting to realize that it's time to take a deep breath and come to terms with the fact that her life is not the fairy tale she thought it would be. For Samantha, Claire, Brooke—and Edward, who arranges the weekly gatherings—it will be a season of surprises as they forge a bond that will sustain them through some of life's hardest moments—all of it reflected in the unfolding drama, comedy, and convergent lives of

Downton Abbey.

Solid State Drives (SSDs) are gaining momentum in enterprise and client applications, replacing Hard Disk Drives (HDDs) by offering higher performance and lower power. In the

enterprise, developers of data center server and storage systems have seen CPU performance growing exponentially for the past two decades, while HDD performance has improved linearly for the same period. Additionally, multi-core CPU designs and virtualization have increased randomness of storage I/Os. These trends have shifted performance bottlenecks to enterprise storage systems. Business critical applications such as online transaction processing, financial data processing and database mining are increasingly limited by storage performance. In client applications, small mobile platforms are leaving little room

for batteries while demanding long life out of them. Therefore, reducing both idle and active power consumption has become critical. Additionally, client storage systems are in need of significant performance improvement as well as supporting small robust form factors. Ultimately, client systems are optimizing for best performance/power ratio as well as performance/cost ratio. SSDs promise to address both enterprise and client storage requirements by drastically improving performance while at the same time reducing power. Inside Solid State Drives walks the reader through all the main topics related to SSDs:

from NAND Flash to memory controller (hardware and software), from I/O interfaces (PCIe/SAS/SATA) to reliability, from error correction codes (BCH and LDPC) to encryption, from Flash signal processing to hybrid storage. We hope you enjoy this tour inside Solid State Drives.

Space Program: Rare Earths Progress Report 4.0

A cry for help answered too late. A woman's soul lost to the sea. Now three children are left without a mother, and Sandi Beck is driven by guild to search for answers. As she sifts through the remains of Liz Bryson's life, Sandi is drawn into a web of lies that shakes her belief in the woman

she once knew. Every new clue brings her closer to a truth that threatens to destroy a grieving family-and the man she loves. A masterpiece of twists and turns, *Kind Lies* will keep you turning pages until the explosive final scene. *Crossword Solver* High adventure and spine-tingling drama abound in this anecdotal recounting of Gary Jobson's experiences in the sport of sailing, with important tips and invaluable insights into racing both big and small boats. 8 pages of color and 30 black-and-white photographs.
